DON WALN FARED A BIT BETTER THAN HIS BIKE AFTER TANGLING WITH AN I-40 "ROAD GATOR." (2009)

*“I am fed up with good common sense. I am fed up with my own good common sense. Nobody, in full possession of all his faculties, can call “normal” wearing a stiff leather suit, boots, padded gloves and restricting helmet, mounting on two wheels over a responsive engine, riding among metal boxes speeding in opposite direction on surfaces designed for four solid anchors... no serious human being, I said, can admit that this is a rational behavior.”*

*—Paolo Volpara, OMM Bulletin, 11/08”*

### LIFT & LUBE

This thing works and does exactly what the name says. If your bike doesn't have a center-stand, you know how much of a pain in the butt lubing your chain can be. Invented by a veterinarian and bike enthusiast, this handy jack stand is easy to use. Works a lot better than having a buddy (if you have one around) lift, strain and balance your bike. Lift & Lube...Works like a charm. Comes with universal key and durable "pleather" bag and can conveniently fit under your seat. Fits bikes with right hollow axel internal diameters from 7/16" (11mm) to 1 1/16" (26 mm). 1.4"x9" (folded), 18.5" (extended), 1 lb, 2 oz.

#4963 \$42.00

UNIVERSAL KEY

### QUICK STAND

Your high-spec sportbike shaves pounds and gains ground clearance by not having a centerstand. Great. Or it would be, if you never needed to lube the chain. Although your home shop may have a full-sized swingarm stand, what happens when you're out on the road? Taking up the same space as a pair of sunglasses and weighing only 6.5 oz, the collapsible Quick Stand will enable you to raise the rear wheel off the pavement enough to rotate the tire for inspection, chain lubing, or stop a leak with a plug-type repair. Handy and necessary on long trips to maintain your chain. Nicely made of aircraft grade aluminum alloy. Fits most sport bikes including: Aprilia RSV Mille, SL1000, and Falco 1000; Honda RC51 ('00 & '02), CBR-600RR, -954RR, -1000RR. Kawasaki ZX-6R, -7R, -9R, -12R, ZRX-1100, -1200; Suzuki GSX1300R Hayabusa, GSXR-600, -750 ('90 & up), -1000, -1100 ('90 & up), RF-600R, -900R, TL-1000S, -1000R, SV-650, -650S, -1000, -1000S, Vstrom. Yamaha YZF-750, -1000, -R6, and -R1. Quickstand may also be compatible with other motorcycles having spools located at the lower edge of the swingarm. If your bike does not include one, these are available from race equipment suppliers and dealers. 6.75"x2.75"x1.25" (packed). 13.75" extended length. 6.5 oz.

#4522 \$42.00

### BIKE KRUTCH

The Bike Krutch doubles as a second, triangulating side stand for maximum security in windy places or on insecure surfaces. The 12" is designed for H-Ds and full dress BMWs, the 7" is made for mid-size bikes. 8"-13" length. 7.8 oz. Specify 12" or 7" Krutch.

#4524 \$40.00

### CAM STRAPS

These straps are rated to 900 lbs. Cam cinches strap and locks things down tighter than a bungee or simple ol' rope.

9' #9036 \$6.00  
15' #9037 \$7.00

IAN CATCHES A NAP ALONG THE BLUE RIDGE PARKWAY (2011)

### TURN A BIKE

Like a Lazy Susan for your bike, this heavy-duty turntable lets you simply drive up, set your centerstand and easily turn your bike around for the next ride. No more 4-point turns or dangerously yanking your bike around and accidentally tearing the centerstand off or dumping your bike on the ground. It also makes routine maintenance and repairs a lot easier...just rotate your bike to what you need to get at. Stainless steel construction with non-skid top and bottom. Interior discs are made of low friction, high density polymer and require no lubrication. Bridges bumps, pits and imperfections on floors and asphalted surfaces. Holds up to 1,000 lbs max load. 16" Dia. 5.5 lbs.

### ROLLASTAND

If your sporty scoot does not have a centerstand, this is the easy way to keep its chain lubed. It goes under the back tire and that's all there is to it. Heavy duty powder coated steel sides and solid steel rollers. If you ride a lot, you'll use this often. Under 750cc is 10.5"×7.75"×1.5", 3.3 lbs. Over 750 cc is 10.5"×8.5"×1.75", 4 lbs.

**Under 750cc #2573 \$44.00**  
**Over 750cc #4907 \$54.00**

**#3597 \$204.00**

### CENTER STAND SADDLE DOLLY

Garage too small? Saddle up and park your bike anywhere you want it. Center stand dolly brings order and organization to the garage. Structural aluminum construction holds motorcycles up to 950 pounds. Works great for scooters too. Place bike center stand on the SADDLE and easily rotate, swing and move anywhere on the non-marring, medical grade, three inch locking casters. Great for turning 180° in a limited space, or for herding the ride into a corner for storage. Yah, giddy-up. 20"×16"×5".

**#3642 \$254.00**

### WHEEL JOCKEY

A sensible tool for motorcycle chain and wheel work. Non-skid backing keeps the sturdy steel platform in place and aluminum rollers with sealed ball-bearing movement make it simple to roll your motorcycle wheel into place. Easily rotate wheel for chain maintenance, tire inspection and wheel cleaning. Sturdy aluminum rollers rotate smoothly on ball bearings to accommodate bikes up to 750 lbs. The compact Sport model is for bikes up to 650 lbs and is small enough to easily stow under a seat or in a tank bag for on the road maintenance. The larger Big Boy version accommodates motorcycles up to 950 lbs. and will stow easily in a saddlebag. Intended for road motorcycles only, not for off-road tires. Sport 4"×4.5", 1.25 lbs. Big Boy 5"×8", 2.8 lbs.

**Sport #2697 \$59.00**  
**Big Boy #2695 \$89.00**

## ODYSSEY DRYCELL™ MOTORCYCLE BATTERIES

Powerful, rugged, advanced battery technology that works much better (and longer) than even the best conventional lead acid batteries. These batteries are more powerful and dependable. Cranking amp ratings are double to triple regular types. They have an 8 year design life, an ultra long shelf storage life and a low self-discharge rate – after sitting for months (without any trickle charge) it'll start. Deep cycle reserve power provides sufficient amps for confident starts even when 70% discharged. Odyssey batteries have superior vibration resistance, a tough

ABS case, and are lighter, too. Air shippable and non-spillable "starved-electrolyte" design. Works right out of the box with no charging needed. The California Highway Patrol use these batteries on all their bikes because with the engine off they run their flashing lights and radios more than twice as long compared to regular batteries. For model/fit applications, see chart at [www.aerostich.com/batteries](http://www.aerostich.com/batteries) or use your mobile device to scan the interactive mobile tag. 12V 14Ah. Cranking power: 100-380A. Weight: 6-26 lbs. Size: 5.43"-7.27"×3.11"-7.05"×3.98"×6.67".

**PC310-P #2519 \$217.00**  
**PC545-P #2528 \$167.00**  
**PC925L-P #4989 \$217.00**  
**PC545MJ #3591 \$187.00**  
**PC680MJ #3560 \$187.00**

**Post Adapter for PC680**  
 (makes cable connection a little easier)  
**#4991 \$17.00**

**SAE Terminals for PC545, PC680, PC925**  
**#2613 \$15.00**

## SHORAI LFX® BATTERIES

Get energized and drop weight without breaking a sweat or eating like a rabbit with the world's lightest and strongest motorcycle batteries. Using lithium technology with a tough carbon-fiber composite case, these next-generation prismatic lithium-iron batteries weigh an astonishing 70-80% less than a lead acid battery. Faster cranking for better starts, these advanced batteries recharge quicker

than a conventional battery and hold a charge for an entire year without maintenance and with zero sulfation. Environmentally friendly too with no explosive gasses during charging, no lead and no acid, just discharge and dispose when it reaches the end of a long service life (up to four times the life of a lead-acid battery). This is the battery of the future...today. For model/fit applications, see chart at [www.aerostich.com/batteries](http://www.aerostich.com/batteries) or use your mobile device to scan the interactive mobile tag. 12V 14-27Ah. Cranking power: 210-405A. Weight: 1.68-3.85 lbs. Size: 5.83"-6.55"×2.6"-3.39"×3.46"×5.51".

**LFX14A4-BS12 #4280 \$159.00**  
**LFX14A1-BS12 #4281 \$159.00**

**LFX21L6-BS12 #4287 \$229.00**

## BIKEMASTER TRUGEL MOTORCYCLE BATTERIES

Bike batteries designed to be more tolerant of over/under charging, temperature extremes, vibrations, impacts...and any other abuse and neglect you can throw at it. Super-high density oxide plate design combined with NanoGel Electrolyte technology increases surface area, giving superior cranking amps, quicker charging,

more power, less sulphation and twice the life expectancy of traditional batteries. Strong ABS case uses special top-cap design that makes this a true maintenance free battery, completely eliminating leakage and acid spills. For model/fit applications, see chart at [www.aerostich.com/batteries](http://www.aerostich.com/batteries) or use your mobile device to scan the interactive mobile tag. 12V. Cranking power: 110-340A depending on application. Weight: 7.7-19 lbs. Size: 5.27"-8"×2.7"-4.8"×4.13"-6.7". Air-shippable.

**MG9-BS #2633 \$77.00**

**MG51913 #2666 \$167.00**

## VOLTAGE AND CHARGING SYSTEM MONITORS

Sensitive, weatherproof and vibration-proof three-LED monitors give a clear indication of your bikes battery condition or alternator output. The Voltage Monitor lets you know if your system is low, normal or over-charged, which is especially good to know when riding a smaller bike and using higher-load accessories like electric vests. The Charge Monitor lets you know if the alternator is supplying a steady flow of electricity, providing immediate battery charging feedback. Both LED units have epoxy encapsulated electronics and are housed in small, durable matchbook-sized cases that are easy-to-install with the included double stick adhesive. Use both in tandem to fully monitor your bikes electrical system. 1.5"×1"×.375".

**Voltage Monitor #4950 \$57.00**  
**Charging System Monitor #4949 \$57.00**

## LED BATTERY GAUGE

A precise, continuous way to monitor your bike's alternator output and battery condition. An essential instrument if your bike has bigger or extra lights, or other powered accessories. Its solid state, waterproof, ultra compact design is extremely durable. Small so it fits anywhere. Indicates from 9V to 16V using eight colored LEDs. A sensor auto-dims the LED's at night. If the voltage readout goes below 10V, a red LED alert flashes. Small electrical system changes are noticeable at a glance. Two-wire installation. 2"×.75"×.2".

**#2577 \$47.00**

 COMPARISON AT  
[WWW.AEROSTICH.COM/BATTERIES](http://WWW.AEROSTICH.COM/BATTERIES)

### OPTIMATE 4 DUAL + CAN-BUS

The default program for this micro-processor controlled automatic smart charger is set for charging batteries on a CAN-bus equipped BMW motorcycle. Recovers, charges, tests and maintains the battery through the CAN-bus controlled 12V socket with the supplied

SAE-79 accessory. Keyless activation and automatic monitoring guarantee peace of mind during long term storage. All-weather design provides energy efficient charging down to -40 degrees, and a simple ten-second test will confirm if you are ready to ride or need a charge. Interactive charging program provides early warning of problems and even recovers deeply sulfate damaged batteries. The second program mode can be activated to directly charge and maintain a battery with the included battery clip accessory (e.g. if you own a BMW plus other vehicles that need battery maintenance). Recommended for all Standard, sealed AGM & sealed GEL 12V lead-acid batteries up to 50Ah. Fully automatic operation that includes safety features such as reverse polarity protection and no spark connection. This is state-of-the-art charging technology. 800mA.

#2699 \$89.00

### BATTERY TENDER PLUS®

An improved version of the famous Battery Tender®. Lucky for you (and your battery) the cost is the same. The enhancements to the original design are in the circuitry that ensures better absorption and a built-in 72 hour safety timer will protect a marginal battery from being overcharged. The

display improvements tell the user that AC power is on, when it is charging, that the battery is 80% charged, that full charge has been attained, and the unit is in "float" charge mode. A good, useful product that just got better. Electrifying. 12V, 1.25 A.

Battery Tender Plus® #2504 \$64.00

Battery Tender Plus® for BMW Gel Batteries (not shown) #4908 \$64.00

BMW Adapter Plug #116 \$20.00

### YUASA PORTABLE CHARGER

Built by the famous makers of many a motorcycle battery, this compact and well-built charger is an important tool for keeping your motorcycle ready for action even after sitting unused for some time. Guaranteed to never overcharge your battery, yet packing 900 milliamps of juice when you need it, the Yuasa Automatic is an "intelligent" design which starts out at 14.4 volts peak at full current, and then switches

down to 12V and less current in "float" mode as the battery becomes fully charged and satisfied. Ideal for long-term storage such as seasonal layups, the Yuasa Automatic comes complete with a 3 LED display that tells you the charge or float status of your battery, and alligator clips in addition to a quick connect ring terminal harness for a permanent, easy-to-use installation. Keep your battery stronger longer with this well-built unit. 2 year warranty. 12V, 900 mA.

#2535 \$39.00

### AEROSTICH JUMPER CABLES

Nice and hefty for jumping a motorcycle or other light vehicles. Durable clamps grab battery posts with authority. Made of 10 gauge polar/solar wire that stays flexible. May be just the thing to save that ride. 6'. Includes storage bag.

#3524 \$19.00

### OPTIMATE 6

This highly advanced and versatile smart charger, maintainer and tester is microprocessor controlled to optimize battery power and life. The 5 Amp, high-current Ampmatic™ processor automatically adjusts charge current to match battery characteristics, providing cell equalization and the ideal charge profile for all climate conditions. Perfect for all 12V

Standard, AGM and GEL lead-acid batteries with rated capacity from 15Ah to 240Ah. The sealed weatherproof charger design expands usage possibilities, displaying cyclic hourly tests for power drain and retention. Interactive charging program provides early warning of problems and even recovers deeply sulfate damaged batteries. Compatible to charge and test CAN-bus equipped motorcycles with use of an optional accessory cable. Eco-friendly program ensures low power consumption while keeping your battery maintained, charged and safe for unsupervised long-term storage, extending battery life by up to 400%. Includes two connection sets, battery clips and fuse-protected ring terminals, that attach via weatherproof SAE connections. 0.4A to 5A.

#2696 \$119.00

### OPTIMATE LITHIUM

The first charger to specifically optimize and protect any Lithium Iron Phosphate (LiFePO4) battery. With 5 Amps of charge current, the multi-step Ampmatic™ charge program automatically adjusts to battery condition and balances cells quickly and efficiently. SafeT™ mode ensures precise charge control, assuring that even over-discharged

batteries are correctly and safely recovered. Smart circuitry tests battery before and after charging. Efficient low voltage mode maintains battery at 100% charge and is safe for long-term charging applications with alternating hourly maintenance and test modes. Recommended for all LiFePO4 batteries up to 100Ah. Includes two connection sets, battery clips and fuse-protected ring terminals, that attach via weatherproof SAE connections. 0.4A to 5A.

#2698 \$119.00

### BATTERY DOC SPORT CHARGER

Smart, powerful and portable, this 1.25 Amp fully sealed battery charger incorporates state-of-the-art electronics to adjust to the optimal charging rate for your battery. Monitors and maintains peak charging conditions without overcharging, by switching from charge mode to maintenance mode. Eliminates sulfation and helps extend battery-life when connected to battery during periods of inactivity. Provides safe charging and maintenance of all wet-cell and fully sealed lead-acid batteries, gel-cell batteries, AGM and DEEP cycle batteries from 5 to 200 A/hrs. Uses three color LED charge indicator. Includes alligator clips, ring terminal and a 12V accessory plug, all with 12 inch connector wires. Fabric storage case holds everything for easy portability. 4"×2.5"×1.5". 6 oz. 900 mA.

#2631 \$47.00

### SURFACE MOUNT BATTERY GAUGE

Displays the percentage of charge remaining from a single 12V battery (or dual 12V/12V, 12V/24V or 12V/36V systems). Made for RVs so it comes with a "Smart-Set" feature that adapts to different battery voltages. The LCD rotates between battery

one and battery two. One battery (as in, your bike) displays a steady readout. Mounts anywhere. 2"×2.1"×.75", .5 oz.

#2514 \$32.00

## MOTORCYCLE ELECTRICAL SYSTEMS

No longer fear that mass of wires under your tank or seat. This how-to guide demystifies motorcycle electrical systems with in an easy to comprehend style. It's no "for dummies" book...it merely explains in plain English the principles behind electrical systems and how they work - and how to test, evaluate, and troubleshoot your gremlins. A very helpful, detailed, well-written and concise guide for the weekend mechanic and experienced professional alike. By Tracy Martin. Softbound, 8.25"x10.5", 151 pp., b/w & color illus.

#5923 \$26.00

## TERMINAL STRIPS

A reliable, compact wire connector system that lets you organize electrical accessory connections cleanly. Unlike crimp style connectors, these can be safely undone and reconnected as needed, over and over. Recessed set screws. Dead front construction. Captive wire protectors. UL rated up to 10 amps and 12awg wire. 4 pole is 0.5"x0.5"x1.5".

2 poles (not shown, .55") #2557 \$1.50

4 poles (not shown, 1.2") #2558 \$2.50

6 poles (1.8") #2559 \$4.00

## SILICONE DIELECTRIC GREASE

For all electrical connections. Helps eliminate GPS battery terminal carbon arc deposits from excessive vibration. Tube can be re-sealed with a flame. Non-conducting corrosion prevention. Two .1 oz. Tubes.

#2547 \$6.00

## FLAME RETARDANT HEAT SHRINK KIT

Practical heat shrink kit includes eighty-six 6" pieces, in six useful sizes, of high quality, stable and flame retardant polyolefin tubing. Shrinks to half original size when heated. Sizes from 3/16"-1" wide. Black.

#5000 \$30.00

## HEAT SHRINK TUBING KIT

Handy kits that contain every size shrinkwrap you need. Has over 100, 4" long pieces from 1/16"-3/8" wide.

#4972 \$17.00

## MINI CONTINUITY TESTER

Broken Wire? Bad bulb? Loose connection? Find it fast with this. Insulated Alligator clip and shielded indicator bulb. Uses one AAA battery (not included). 4"x.5".

#2560 \$16.00

## BLAZER BUTANE PEN-TORCH

You'll have unlimited uses for this versatile pen-sized blowtorch. Soldering wires, melting or fusing plastic panels, starting campfires or barbecues, sterilizing medical tools, or thawing frozen locks and fittings are just a few of the tasks the Blazer Torch will perform. Its widely adjustable throttle and instant one button piezo electronic ignition system make a precise 2500 degree flame for 30 minutes between refills. The compact size will fit easily into a first aid or tool kit. Refill butane is sold at corner convenience stores. 6.3"x.8".

#2508 \$47.00

## HOOK & LOOP TAPE

A simple back-to-back tape, hook on one side, loop on the other, laminated together into an infinitely useful strip. Can be easily cut to different widths and lengths without unraveling. Wonderful for securing radar/gps type things to mounting brackets and for strapping down wires and cables as a re-usable zip tie. Black. 1"x36".

Lightweight #1922 \$4.00

Heavyweight #1923 \$5.00

## 3M DUAL LOCK

Almost mechanical in its locking power (a lot like Legos®), with the added plus of being waterproof and far more durable than garden variety hook & loop. Four pieces, each measuring 2"x3.5". Two are clear, and two are black. Each is backed by an ultra powerful peel-and-stick 3M® adhesive.

#2250 \$10.00

## ELECTRICAL CONNECTIVITY:

Molex® connectors are a clean, modular, reliable way to get power from one place to another in a fashion that can be disconnected. If you've been looking for a way to power up your gadgets and want to remove them from your bike at times, this is a great technology to use that is do-it-yourself easy.

### MASTER WIRING KIT

This quality 115 piece selection of crimp connectors and terminals contains an ideal mix of individual items for motorcycle accessory wiring projects. Each metal crimp barrel is surrounded by a color coded, transparent, adhesive lined, heat-shrink tubing. When properly crimped and heated, the tubing shrinks and the adhesive flows creating a high quality environmental seal that prevents corrosion and provides excellent water and contamination resistance. These connectors provide superior protection from mechanical abuse, wire pullout and current leakage. Having this kit around will save trips to auto parts and hardware stores, too. Included 18 compartment organizer.

#4954 \$47.00

### AEROSTICH 92 PIECE MOLEX CONNECTOR KIT

It's easy to create clean and durable accessory wiring connections. This kit contains a useful selection of sizes for a variety of 12V electrical applications. There are three sizes of connector blocks and pins, each of which has male and female components. Wires are crimped to the pins (soldering optional) and then the pins clip into the connector blocks...which are shaped to preserve polarity. The five small connectors take 20-24 ga. wire and are ideal for things like radar detectors or tiny LED voltmeters; the four medium connectors take 18-24 ga.

wire and are suitable for things like GPSs, radio receivers and those sorts of loads; and the four large ones take 14-20 ga. wire for articles like grip warmers, radio transmitters or illuminated arm jesters. Includes instructions and thirteen connector sets plus several extra pins in each size. (92 pieces total.) Warning: These connectors are the world's best, but wiring and application errors can be costly. If you are in doubt about doing this sort of work, find someone knowledgeable to help. There's nothing worse than letting the magic smoke escape from electronic devices.

#2688 \$27.00

### STRIP & CRIMP PLIERS

This pliers' particular combination of jaw width and length, and fulcrum location make it the best we've tried for working with Molex connectors. Wire cutter gauge is adjustable with a thumb slide and the return spring locks closed for carrying. 12-24 gauge AWC wire.

#2546 \$17.00

### MOLEX PIN REMOVERS

Works a lot better than jamming a screwdriver in the hole or trying to dig the connector out with needle-nose pliers. Universal has both male and female ends. ATX is male only. 3.75", 1 oz.

ATX #2526 \$6.00  
Universal #2527 \$6.00

### CONNECTOR PIN TOOL

This tool is the easy way to disconnect and work with Molex, H-D and similar multi-pin electrical connectors. Removes six sizes of pins from their nylon housings.

#2576 \$12.00

### SAE PANEL MOUNT CONNECTOR

Designed to simplify a regularly plugged and unplugged accessory, this panel mount pass-through installs conveniently into any panel or surface. We know riders who've installed it in the side or front of a tank or tail bag. Perfect for running electronics like GPS, MP3 player, fuzz buster...Uses standard SAE connector to pass power through any surface. Assimilates storage and power needs created by today's techno-farkle-moto-addicts. Resistance is futile...

#1106 \$24.00

### POSILOCK CONNECTORS

A unique vibration proof and reusable wire connector system that delivers a superior connection to crimping. Simple to use, only wire stripping required. Wire ends are locked between opposing cone shapes when hand tightened, resulting in a positive, strong connection. Really strong. Impossible to pull apart, but they easily unscrew for roadside service or re-use. There are no metal parts and the internal electrical resistance is less than with crimp connectors. Patented design protected seven ways to Sunday, naturally. Color-coded bodies are super tough Nylon 66 resin. These are the ultimate reusable weather tight connectors, and a great way to wire electrical accessories.

### BUTT CONNECTORS

9 qty., 18-24 ga.

#2552 \$8.00

### T CONNECTORS

6 qty., 12-18 ga.

#2555 \$8.00

### INLINE FUSEHOLDERS

2 qty., 12-18 ga.

#2554 \$8.00

### TWIST CONNECTORS

Variety pack. 16 qty., 10-26 ga.

#2553 \$8.00

### AUXILIARY POWER PANEL 70A SEALED RELAY

Designed to work with the AP-1 and AP-2 fuse blocks (see above) and a mini switch (#4218 or #4905) to connect the battery, relay and fuse block. Also can be used to control the power to several items (driving lights, radionics, arm jesters, etc..) running through any fuse block from a small handlebar switch. 2.125"x1"x1.25", 6' lead wires.

(AP-170R) #4661 \$42.00

### MINI FUSE BLOCK

Supply safe, fused power to accessory electronic devices. Uses four 1/4" male blade connections for easy installation insert the best mini fuse (not included) to match the power requirements of each device. A clear cover with insulated O-ring provides protection and a water resistant seal. 15 amps per circuit. 3.2"x1.77"x1.5".

#4758 \$12.00

### BMW STYLE PLUG EXTENSION

Insert the plug into a BMW style socket to instantly add a 15" extension with a standard cigarette lighter plug. Great for GPS, cell phones, radar detectors or other electronics. 15"x1"x1". 12V.

#4201 \$10.00

### IN LINE BLADE FUSE HOLDERS

For hard wiring your GPS, radio, or other accessories. No springs, so it's not susceptible to vibrations.

The 20A includes two fuses for Garmin GPSs, and features a rubber dust cap. The 30A includes one fuse, and features a water resistant cap and about a foot of wire on each end.

2A #2550 \$10.00  
30A #4664 \$5.00

### PANEL MOUNT OUTLET

Put power wherever you need it. Easy installation in .75" hole in any flat panel. The spring-loaded cover keeps out the crud. 3"x1.5"x1.75". 18" lead wire, 11.5" ground wire.

#4655 \$20.00

### DC COAX JACK PANEL MOUNT

Provides a flush mount DC coax jack panel with a spring loaded cover. The six inch coax plug cable allows direct connection to DC coax power output.

#300 \$18.00

### 4-POSITION TERMINAL BLOCK

Easily organize electrical connections with this 4 position terminal block. Molded from UL rated 94 VO Thermoplastic with tin plated brass terminals and zinc plated #6-32 steel screws. Rated to 20 amps/150 volts max. 2.16"x.88"x.41".

#4762 \$4.00

### 12V 40A SEALED RELAY

12V, 40A Bosch-type relay for use with high amp draw electronic accessories like big driving lights, extra loud horns, double sided arm jesters, etc. Waterproof sealed plastic housing with metal mounting tab. Includes installation and wiring instructions. 2.125"x1"x1.25".

#4667 \$4.00

### ALL-WEATHER POWER OUTLET

Easily install a dependable source of power for all electrical accessories that use a standard cigar lighter plug. Useful for radar detectors, cell phone chargers, etc. Weatherproof spring-loaded flip top cover keeps out moisture, grit and grime. 3"x2"x1.75", with two 12" wire leads.

#4654 \$15.00

### BMW PLUGS & SOCKETS

Dual plug works with both BMW and standard power sockets. Plug and Socket require additional wiring.

Dual Plug #185 \$10.00  
Plug #181 \$8.00  
Socket #108 \$12.00

### BATTERY FUSE CORD

Standard hookup for Kanetsu Vests and Liners. 10 A Fuse. Length 25".

SAE #112 \$12.00  
QuiConnect 2 #176 \$12.00

### AUTOSWITCH

Eliminate auxiliary toggle switches and their attendant holes by installing this device, which ties into your light wiring. Connect to high-beam wire or turn signal cancel button to allow independent control of driving lights, fog lights or any accessory electrical device from a pre-existing control button. Tap high beams or blinker cancel button to activate, LED shines green to indicate power to your auxiliary relay. This programmable pulse sensor technology is a reliable and efficient way to control auxiliary power. Neat. Includes tie wraps, wire clips, adhesive tape and instructions. Max current draw 200mA @ 12V. 1.4"x1.4"x.3".

#4764 \$25.00

### DOODAD SWITCH

A nicely streamlined mini-toggle switch encased in an injection-molded housing, which just happens to fit on 7/8" handlebars perfectly. Used by itself, it will turn smaller items on (up to 6 amps@12V), but if you are going to switch the big stuff, we recommend adding a 12V relay. Comes with an attached 34.5" long 2 wire insulated cord.

#4218 \$18.00

### SEALED TOGGLE SWITCH

Completely sealed 20 amp switch with weather resistant coating and O-ring stem seal. Includes a stamped metal on-off indicator plate that fits over the 15/32" diameter, 3/8" long mounting stem and chrome plated handle.

8" wire leads. 12V. 1.25"x.75"x1.75".

#4757 \$16.00

### AUXILIARY POWER FUSED PANELS

Supply convenient, safe fused power for up to eight individual electronic devices, such as radios, MP3 players, GPSs and other accessories. The Centech AP1 handles up to 60 amps and allows for eight connected outputs that remain on when your bike is running, off when it's not. The Centech AP2 version allows for five 'on when running/off when not' outputs and three "always on" outputs that remain active after your bike is turned off. This is especially helpful for devices that need to remain "live" such as radio memories and some GPS units. Made using plated contacts and stainless steel hardware, with a built-in grounding system, these units are rugged and water resistant multiple accessory wiring solutions. Their compact size (3"x2.4"x1") allows for easy installation inside fairings, under saddles and in other tight spots. Lugless terminals mean you simply strip wire ends, insert, and tighten set screws. Includes fuses, all mounting hardware and complete instructions. Neat, easy and safe.

AP-1 #2549 \$58.00

AP-2 #2538 \$59.00

(AP-130R) AP-2 Wiring Harness (required for split use-function) #2539 \$37.00

### AEROSTICH POWER DISTRIBUTION MODULE

Welcome to the 21st century of motorcycle electronic power distribution. This compact solid-state fully electronic module is designed to enhance the accessory power distribution system on any motorcycle, including those with CANbus electrical systems like the newer BMWs. It's got 60 amps total capacity over six circuits with a maximum draw of 15 Amps. It's a completely solid state system, with fault detection and diagnostic LEDs, and operates faster, more efficiently and offers more reliability than its fused counterpart. This makes it easy to add accessories such as auxiliary lighting, communications equipment and electrically heated clothing, without overloading accessory plugs of creating electrical faults. If a circuit does short, it automatically resets itself after the fault has been corrected, eliminating the hassles of locating, pulling and replacing blown fuses ("Does anyone have a spare 10 amp? I'll trade you a 5 and a 15 for a 10...") Several operational modes for different circuits: Ignition sensing with "always on," "timed off" or "ignition off" configurations allow wiring some devices that need to stay "live" when the key is off, such as some GPS units and radio memories, and others that don't, like heated grips. One 15 amp circuit is externally switchable with small, low current switches for lighting, etc., meaning no need to add extra relays. Ground buss. Includes all necessary wire connectors for installation. Completely waterproof and sealed to IP67 standards. A light, durable, ultra-reliable space age electronic system for all of your bike's powered accessories. Only 4" wide x 2.875" deep x .875" tall.

#4785 \$149.00

### TWINMAX SYNCHRONIZER

A step beyond commonplace mercury 'carb stick', this device sports digital accuracy and no moving parts such as springs or diaphragms. Running the included 9 volt battery, the TwinMax is suitable for both carbureted and fuel-injected engines of 2, 3, or 4 cylinders. Get your fuel delivery sorted with this easy-to-use device and reap the benefits of a smoother running engine and increased rideability. A very useful shop tool that you'll have fun with the first time you use it. 4.25"x3"x1.5". For bikes without vacuum synch ports one 5mm threaded adapter per cylinder is required.

#4543 \$119.00

Adapter (each) #4572 \$7.00

ADAPTER

### CARBIMATE SYNCHRONIZER

This fully digital carburetor synchronizer is rugged, precise and extremely easy to use. Two rows of LEDs indicate + and - balance on any two referenced cylinders. (For triples and fours connect #1 and #2, then #1 and #3, then #1 and #4 cylinders.) The Carbimate is powered by the bike's 12 volt system, so there is no internal battery to replace or be dead just when needed. The adjustable vacuum resolution is fast and precise, and the digital readout makes it easier to get everything perfect 4"x8"x1.75".

#4630 \$129.00

### ADHESIVE HEAT BARRIER

This adhesive backed composite reflective material withstands radiant temperatures to 2000° and is perfect for lining the underside of a gas tank or any other component that is near (but not in direct contact) with a super hot engine or exhaust system. Cut to fit with scissors. Powerful all-surface adhesive. 12"x24".

#2523 \$22.00

### COOL OFF TAPE

Deflect your engine's radiant heat away from wiring, cables, hoses, fuel lines and seams. Withstands up to 2000 degrees. Flexible, cuts with scissors and is easy to apply. 15' roll of 1.375" adhesive-backed aluminized fiberglass tape.

#2524 \$18.00

### HEAT TILE KIT

Protects your plastic side panels and other potentially meltable parts from exhaust pipe heat. These heat-proof strips can be easily cut with scissors and have adhesive on one side, aluminized fiberglass on the other.

Large (One 6"x12" Strip) #4915 \$18.00

### MINI DUCT TAPE

We all know of the limitless repair possibilities with the hallowed material known as duct tape, problem is, it comes on really large spools and is pretty clunky to pack and have around when you need it. These mini duct tape rolls are the real thing, on much smaller diameter, weather-resistant plastic spindles. Handy, and at times, indispensable. Classic grey. Two 2"x50" rolls, 3.2 oz.

#756 \$4.00

### TENACIOUS TAPE

This clear matte-surfaced tape provides fast, long lasting repairs on fabrics, vinyl, rubber, plastic, aluminum, etc. Its tenacious adhesive is much more aggressive than Duct Tape and it removes without leaving a sticky residue. Waterproof and UV stabilized. Perfect for all kinds of motogear emergencies (It's even been used as an emergency inner tube patch... not recommended). 3"x20", 1oz.

#770 \$5.00

### INDUSTRIAL DOUBLE STICK TAPE

Amazingly aggressive sticky tape! Extremely sticky adhesive that replaces all other double sided mounting tapes and fixatives. Tape is a non-hardening and permanently flexible material that holds incredibly strong. Easily removed when no longer needed and leaves no residue behind. Industrial strength holding technology developed for the automotive and movie industries, but re-engineered for consumer use. Secures signs, panels, trim, assorted fackle and much more – simply too many uses to list here...the kind of thing you didn't know you needed until you have it around. Comes in a very cool metal tin, about the size of a hockey puck, that is kind of old timey and will be of use long after the tape is gone. .5" wide x 20' long roll.

#4741 \$18.00

### TEAR AID

This stuff repairs holes and rips on pretty much anything, including rubber, neoprene, plastic, steel, fiberglass, etc. No messy adhesives – simply peel & stick. Resists UV rays and won't turn gummy in high heat, or brittle in the cold. Stretchy. Includes a couple of alcohol prep pads. 3"x5" roll. Specify type: "B" for vinyl, or "A" for all other materials.

#4653 \$24.00

### AMSOIL MOTORCYCLE OIL

Advanced synthetic multi-functional formula for both domestic and foreign motorcycles, designed to provide the absolute best lubrication. Reduces friction, heat and wear and is specially formulated to excel in all areas unique to motorcycles, including high engine RPM, wet clutch lubrication, extreme pressure regions of gears and rust common to short drives and storage. 10W-40 is recommended for high-performance liquid or air-cooled 4-stroke engines and is wet-clutch compatible for use in transmissions. 20W-50 is excellent in air-cooled engines due to high heat resistance and can also be used in transmissions and the primary chaincase. These products are not recommended where API GL-4 or GL-5 gear oil is required. 1 quart.

10W-40 MC Oil #4806  
20W-50 MC Oil #4807

For current prices call 800-222-1994.

### OIL RECYCLER DRAIN PAN

Changing the oil in your scooter is faster and neater with this low profile oil drain pan-container combo. Ultra low profile slides under the bike and the extra large, no-splash funnel screws into the neck during use and then snaps into the side of the rugged, recycled polyethylene body for storage. When the job is finished this lets you tidily drop your bike's used oil at any dealer, garage or service station for recycling. Good clean fun. Available in 7qt (6L) or 12.5qt (12L) sizes.

7 Quart Drain Pan #4878 \$20.00  
12.5 Quart Drain Pan #4879 \$24.00

### AMSOIL SEVERE GEAR LUBE

Synthetic extreme pressure lubricant, engineered for high-demand applications including off-road riding, racing and cross country adventures. Superior protection for gears and bearings against scoring and wear in all riding conditions and climates. Outperforms all conventional gear oils and ensures your ride runs better and lasts longer. 1 quart.

Severe Gear 75W-90 Lube #4808  
Severe Gear 75W-110 Lube #4809  
Severe Gear 75W-140 Lube #4810

For current prices call 800-222-1994.

## THERMAL EXHAUST WRAP

Maintain hotter exhaust gasses for better scavenging (more power!) and control heat buildup in tight areas. Black and tan wrap is an asbestos-free fiberglass material that withstands 1200°F direct/ 2000°F intermittent heat. Titanium wrap is the next step in tuning technology, constructed from pulverized lava rock and extruded into fibers, this material exhibits true titanium-like strength, toughness and look.

Handles continuous heat up to 1800°F and radiant heat up to 2800°F for incredible durability and performance enhancement. Apply Hi-Temp silicone coating sprays to exhaust wrap installation for excellent sealing properties and extended protection from abrasions, oil, grease, dirt and road grime. Exhaust wrap comes in 15' rolls. Pipe wrap kits include: Two 2" exhaust wrap rolls, eight 8" and four 14" stainless steel locking ties and one 12 oz. can of silicone coating spray.

TAN, BLACK AND TITANIUM WRAP

- Titanium Exhaust Wrap - 1" Roll #2601 \$16.00**
- Titanium Exhaust Wrap - 2" Roll #2602 \$22.00**
- Black Exhaust Wrap - 1" Roll #2603 \$12.00**
- Black Exhaust Wrap - 2" Roll #2605 \$18.00**
- Tan Exhaust Wrap - 1" Roll #2521 \$10.00**
- Tan Exhaust Wrap - 2" Roll #2522 \$18.00**
- Stainless Lock Ties (8 qty.) #2525 \$16.00**
- Black Hi-Temp Silicone Coating Spray #2607 \$12.00**
- Aluminum Hi-Temp Silicone Coating Spray #2561 \$12.00**

### QUIKSTEEL EPOXY

Wonderful stuff. Especially if your gas tank or crankcase has had its integrity compromised miles from anywhere. A high strength epoxy that activates when kneaded, it goes from putty to steel-hard in 15 minutes. Contained in a plastic tube. An inexpensive, high-tech material that takes up no room and could be a real ridesaver. 4.1"×1.1" 2.2 oz.

#759 \$6.00

### QUIKALUMINUM EPOXY

When you're miles from nowhere, this stuff is a blessing for emergency repairs on all aluminum parts, such as broken clutch levers, mounts, etc. Whatever your misfortune, this kneadable, quick-curing-to-rock-hard putty will get you back on the road home or to the nearest repair shop. 4.1"×1.1" 2.5 oz.

#4559 \$7.00

### J-B STIK WELD

A hand kneadable, steel-reinforced epoxy putty adhesive/sealant that will plug holes and make permanent repairs on wet and dry surfaces. It can be drilled, sanded, filed, tapped, machined, and painted. This Herculean-strong putty cures in 20-30 minutes, even while completely submerged under water or gasoline(!). Just pinch off as much as you need. 2 oz.

#4961 \$6.00

### J-B KWIK WELD

This two-step welder consists of separate tubes of liquid steel/epoxy resin and hardener. When mixed together, a chemical reaction turns the mixture into a compound that's as hard and tough as steel. It stays pliable for about 2 minutes after mixing, and sets in just 4 minutes (cures fully in 4 hours). Non-toxic. Two 1 oz. tubes.

#4960 \$6.00

### BARGE CEMENT

Odd of name and unusual in its effectiveness (it might be made from Ol' Yeller), Barge cement is a powerful contact-type cement that is a traditional cobbler's staple. So it's great for sticking soles back on boots, and just about anywhere else two flat surfaces need to be re-connected in a durable, weatherproof manner. Great stuff. 2 oz. Tube.

#758 \$5.00

### EPOXY CUPS

Epoxy. Better adhesion through chemistry. These small one-use, mix-in-pack epoxy cups are convenient to have tucked discreetly in your travel kit. If the need arises to make repairs with an epoxy, this stuff will be ready to go. They do not require measuring or other laboratory tomfoolery. Two cups per package. 5 minute cure time. Each cup is 2"×0.3", 6 oz.

#4553 \$8.00

### J-B MINI EPOXY SYRINGE

A clear epoxy in a handy little one time use syringe. Perfect for making repairs on the road without the mess. Bonds to almost any surface - wood, metal, glass, plastics, etc. Sets in about 5 minutes and cures in 2-3 hours. It's small, so it'll fit with the other emergency repair gunk in your toolkit or tank bag. 1.25"×3.25", 0.2 oz.

#4959 \$5.00

### TUFF TOE

Hardworking, customizable protection. This two-part polyurethane is an easy way to add a strong layer of armor to the toe of your boots, make a shift lever boot pad, or even patch a damaged item (Fairing? Fender? Saddlebag? Body panel?) Excellent for all kinds of bonding repairs. Stiff, highly abrasion resistant, but still flexes slightly. Easy to use. Black.

#1225 \$20.00

# CHAIN OILERS CAN TRIPLE THE LIFE OF YOUR BIKE'S CHAIN AND SPROCKETS!

## AEROSTICH CHAIN OILER KIT

Create your custom chain oiling system to fit your bike and riding needs perfectly. This kit contains a small thumb operated manual pump, allowing you to control the oil supply. More oil for some conditions (after riding through rain), and less for others. The tank, pump and hoses come with several aluminum brackets to allow bike-specific mountings in a variety of handy locations. Manual operation allows you to control the supply of oil very precisely and will minimize over-oiling messes. Your bike will have a greatly extended chain and sprocket lifespan, and will require less frequent chain tension adjustment. This kit provides everything you'll need for a compact, lightweight system: an assortment of oil bottles, tubes/hoses, connectors, pump, mounting brackets, mounting sleeves, tie wraps, connectors and instructions. Once the installation is done, all that's left is to thumb the pump once or twice and enjoy a smoother running, quieter, motorcycle chain.

#4898 \$97.00

## SCOTTOILER

The best way to encourage chain longevity is to make sure you lube it on a regular basis. Scottoil is a great way to go. Metering lube just a little at a time while you are riding, the Scottoil is a great "set it and forget it" way to deliver lubrication to the critical "link" in your bikes drivetrain. Operating off of engine vacuum (the engine is unaffected), this device delivers an adjustable, precisely metered amount of oil to the inside of the chain run near the rear sprocket, and centrifugal force and capillary action ensure that oil gets to all parts of the links and plates comprising your chain (and not any extra on your wheel and tire). A must for long distances and bad weather, the Scottoil will prolong both o-ring and standard chain life as well as lengthening the time between adjustments. Also, because the chain is lubed while you ride, the warmth of the operating chain takes oil better than a cold one. A quality product, used for over 10 years in the British Isles, in the midst of what they sportingly call "weather." Fits all chain-drive bikes and installs in a neat factory-look manner. An overdue product and one which works very well. Can more than double the life of a chain and sprocket set.

### SCOTTOILER ESYSTEM

Electronically controlled chain lubrication system. 60cc Reservoir.

#3491 \$277.00

### STANDARD SCOTTOILER

50cc Reservoir with a 500-1000 mi. range.

#3502 \$167.00

### DUAL INJECTOR

Increases the efficiency of all Scottoilers by accurately delivering oil directly to both sides of the chain.

#3593 \$37.00

### SCOTTOILER REFILLS

Note: You can refill with many types of oil. .5L

Traditional Refill #3592 \$12.00

### SCOTTOILER LUBE TUBE

200cc Reserve Reservoir

#3404 \$37.00

## LOOBMAN CHAIN LUBER

A manually operated and simple chain luber that has no moving parts, and no attachment to the engine or carburetor is required. Loobman will fit any motorcycle and is easily installed. Any kind of oil can be used with this unit (Loobman recommends ordinary engine oil), and although this is the low-tech approach to on-bike chain oiling, it is vastly superior to spraying lube on your chain at irregular intervals while out on the road. The ability to hit the chain with lube while operating will extend chain life considerably, which is not to be taken lightly as the per-link cost of a quality chain is not exactly cheap. The Loobman is both economical to buy and makes your chain last longer. Win win.

#4526 \$47.00

## CABLE LUBER + LUBE

Designed for use with aerosol lubricants, this device has the capacity to lubricate cables from 3/16" to 3/8" diameter which should cover just about anything. The Cable Luber Kit includes lube that is specially formulated to minimize friction in control cables. Cables get dry and need attention periodically, and the degradation in feel and performance is gradual and insidious. Not only will this device keep your cables lasting longer, it makes riding less effort. Belongs in everybody's toolbox.

Cable Luber (without Lube) #4528 \$19.00

Cable Luber Kit (with Lube)

#4527 \$24.00

KIT

## BOESHIELD T-9 CORROSION PROTECTANT AND WATERPROOF LUBRICANT

Going beyond the stuff available at the hardware store, Boeshield was developed by the aviation industry giant Boeing, as a protective coating that penetrates deeply into fasteners and fixtures, displaces moisture and attacks corrosion, and then dries to a clean waxy film. Not only that, but it will help loosen rusted parts and will not harm paints, plastics, or vinyl. Useful for all the places you'd use more pedestrian formulations like clutch cables, pivots and linkages, and even battery terminals and other wiring that may be exposed to the elements. Good stuff. 4 oz.

Liquid #4574 \$10.00

Aerosol #4575 \$10.00

## TEFLON MULTI-USE LUBRICANT

For brake, clutch levers, throttle cables... and oh yes, chains, too. Sprays on wet, sets up dry and lasts a long time with no oily film residue. Formulated with Teflon® and organic molybdenum. Silicone free - protects against rust and oxidation and doesn't attract dirt or grime. Clean lubrication that lasts up to five times longer than other lubricants. 4 oz.

#4966 \$6.00

### CHAIN BREAKER AND RIVETING TOOL

Versatile 3-in-1 tool can be used on both cam chains and drive chains. Includes three pin sizes for compatibility with most chains (2mm, 3mm & 4mm) and sturdy cast design will break chains from #35 to #530. Also includes tools and plates needed to rivet hollow nose master links. All parts

store neatly in molded plastic case. 8.5"×4"×1.5", 24 oz.

#3693 \$99.00

### MINI CHAIN BREAKER & PRESS

If you've ever needed to get an endless drive chain apart, you know it's a good thing to have a specialized tool to drive the sometimes quite stubborn pin out after you've ground the top off. Featuring a chrome-moly body and a folding handle for easy storage, the Mini Chain Breaker belongs in any home-mechanics toolbox.

Handles 420, 428, 520, 530, and some 630 chains, which pretty much covers whatever you may run into. Capable of pushing a link pin completely through the connecting link, the replaceable drive pin is heat-treated and very tough. Add the Mini Chain Press for pressing on pressfit side plates. These tools are small and light enough to carry on trips yet tough enough to do the job and get you rolling again if you must do an emergency chain-ectomy somewhere that's nasty. Press includes hex wrench, and fits all 520-530 size chains. Breaker is 4.5"×1.5"×1", 11.2 oz. Press is 2.25"×1.5"×1", 7.3 oz.

Breaker #4513 \$28.00  
Press #4512 \$16.00

Both (Breaker & Press) SAVE \$5.00 #4514 \$39.00

### T-6 CHAIN BREAK AND PRESS TOOL

For breaking chains and pressing on master link side plates. Includes press and side plates. Will push link pin completely through link/side plate. Handle detaches for easy storage. Made of high-strength aluminum and chrome-molybdenum (well educated steel). A really nice tool. Fits 520-530 size chains. 5.5"×4.75"×1", 10.4 oz.

#4649 \$75.00

### RK EXCEL CHAIN BREAK AND PRESS KIT

The Best. Comes with everything needed to break, rivet and flare endless chain pins. Kit includes detailed, photo-illustrated instructions. This one is popular with both shops and race teams. Very nicely made. Fits 520-532 size chains. 5.5"×4.75"×1", 6 oz.

#2589 \$135.00

### PROALIGNER

Align wheels with laser beam precision, without the dead batteries or high cost of a laser, or the bulk of a really long straight edge. Even slightly misaligned wheels cause weird skewed steering, breaking and handling. This simple, easy-to-use tool is the solution to accurate wheel alignment of any motorcycle. The versatile and easy to read dual scale design can be used with a bike on a rear stand, front stand, center-stand, side stand or no stand. A fast, accurate alignment tool that will make your bike steer and ride better. Great instructions, too. 12"×1"×.4"

#4765 \$35.00

### WATERPROOF ZIPPER LUBRICATION...

Waterproof zippers are much more precise than regular zippers, with closer tolerances. Occasional lubrication hugely reduces slider drag. Makes zipping much easier. (You'll feel a small difference in 'slider pull' everyday in ease-of-use and off-and-on convenience.)

Teflon "chain saver" is the best way to make waterproof zips work faster and easier. This lubricant is applied to every Aerostich waterproof zipper during manufacturing. We experimented with other lubricants -- this one is best. (Formerly labeled as 'Teflon Multi-Use Lubricant' by its manufacturer. Why did the name change?...formula is exactly the same. See photos.)

One quick zipper application provides months of lubricant effect, even if exposed to occasional rain. So ignore the packaging. (Yeah, it is also excellent for levers, cables, latches...and even chains.) A little bit goes a long way.

### PROFI C.A.T. LASER ALIGNMENT TOOL

Don't trust the dodgy, inaccurate wheel alignment hashmarks on your swingarm? Mount the Profi-Cat laser on your rear sprocket and its precise beam is projected to reference tabs on the front brake disc to ensure accurate alignment of the rear wheel, meaning no dog-tracking handling oddities or premature chain wear. More speed, optimized control, and longer parts-life result. A great addition to the toolbox. Keep it straight with this well made device.

#4617 \$99.00

### EZE BLEEDER

This device ensures that you'll get ALL the air out of a clutch or brake system by allowing you to inject clean fluid into the bleeder valve, thus forcing air upstream where it bubbles out the master cylinder. Great idea! Includes bleeder valve adapters, a fitting for bench bleeding master cylinders, storage container and easy to follow instructions.

#4979 \$24.00

### SPEED BLEEDER

Bleed your own brakes quickly, reliably and inexpensively. This ingenious bleeder screw uses a patented valve enabling you to get the job done correctly without the aid of a helper. Neat. Bleeders vary based on the make, model and year of motorcycle. Call or see website to match the right bleeder for your bike. Generally, Yamaha's use #4967, Honda's use #4967, Suzuki's use #4969, Kawasaki's use #4968, BMW's before 1996 use #4964, 1996 BMW's and after use #4964 (front) & #4970 (rear), Ducati's use #4964, and Moto Guzzi's use #4964 or #4967.

- M6×1.0/1.13" #4970 \$8.00
- M7×1.0/1.19" #4968 \$8.00
- M7×1.0/1.38" #4969 \$8.00
- M8×1.25/1.28" #4967 \$8.00
- M10×1.0/1.28" #4964 \$8.00

\*(Thread Pitch / Overall Length). Thread pitch is designated by the major thread diameter followed by the number of threads per millimeter. Ex: the thread pitch 'M6×1.0' is 6mm in diameter and has 1 thread per millimeter.

### CLAMPTITE TOOL

A nifty tool with a veritable googolplex of uses that no gear kit should be without. Use it for a fix on almost anything that's loose or broken: blown hose, cracked frame, loose/cracked fender, headlight/taillight lens, etc. Also works as a rock solid strap. Wraps stainless steel wire into a tight hose-type clamp. When you're miles from nowhere, and the unexpected happens, you'll wish you had one of these. Small, strong, easy to use and takes up hardly any space. 5"×1.75"×0.5", 3.6 oz.

Clamptite Tool #4913 \$69.00  
Wire (.041 Stainless Steel, 50 ft.) #4921 \$14.00

### GAS LINE QUICK DISCONNECT

For those of us who own bikes that occasionally need a little bit of investigatory tinkering in the field, this is a way to get the gas tank off quickly without yanking fuel lines off of carbs or petcocks or wrestling with hose clamps. (The o-ring gas line connectors are rated ok for use on fuel injected

motorcycles.) It also can make refueling your multi-fuel camping stove less of a messy chore, especially on extended trips. Has a Viton ring for dependable sealing and will withstand all types of fuel, due to its construction of high-tech nylon.

1/4" (ID Fuel Line) #3572 \$16.00  
5/16" (ID Fuel Line) #3573 \$16.00

### SWISS-TECH SCREWZ ALL

A keyring tool that is made to Swiss Techs' usual high standards of quality and is versatile beyond its apparent size. Four screwdriver bits consisting of a micro and full-sized Phillips and the same in slotted configuration are available and handy at all times. Ruggedly constructed of 420 stainless steel. 2"×.9"×.25" folded, 1.5 oz.

#4622 \$5.00

### SCRUBS

Deep cleaning, anti-bacterial Scrubs remove grease and grime from the dirtiest hands with powerful cleaning agents in a non-scratching, non-

abrasive, disposable hand towel. Keep one or two on your bike and a few with your tools, so that the next time you are stuck fixing something dirty you can clean up afterward... it's almost as satisfying as being able to fix the problem in the first place.

Pack of 5 (Individual Single Use Packets)  
#4565 \$3.00

### MICROFIBER UTILITY RAG

A versatile micro-fiber terrycloth for washing and drying your bike. Absorbs and holds more water...faster than all ordinary rags, and wrings dry. Non-abrasive. Packs away tiny. Hand or machine wash (no bleach, no fabric softener), dryer safe. Ultra Terry Weave. 16"×16", 1.5 oz. Blue.

#1572 \$4.00

### THE ABSORBER®

It's not your thirsty riding buddy, it's a 27"×17" super-towel that drinks up moisture fast and dries out just

as quickly. Packs up small and is ideal for cleaning your bike. Hard as the proverbial rock when dry, it quickly absorbs 50% more water than a hide chamois and does it three times faster. Once wet & wrung out, it's so soft it won't scratch a thing. A great example of how high-tech is helping to keep bikes looking better, faster. 27"×17", 8 oz.

#1563 \$14.00

## LEATHERMAN MULTI-TOOLS

If you bought a Leatherman when they were first introduced in 1983, we're sorry to tell you that your 25 year warranty has expired. The good news is that these tools are constantly evolving, and we have sorted through the choices to find the two best suited to have along on the next ride. Both featured models are constructed of a stainless steel body and sport the following features: Needle-nose and regular pliers, knife, wire cutters, wire stripper, screwdriver, bottle opener, can opener, 8 in/ 19cm ruler, lanyard ring, sheath, and yes...another 25 year warranty. Check out the additional details listed below to help choose the one right for your next riding adventure... 'cause you never know when you'll need that bottle opener, hmmm.

### LEATHERMAN KICK®

Updated from the standard Leatherman to be lighter, faster, stronger, more powerful than ever before (and far from a six million dollar price tag). Featuring twelve tools in one, the three screwdriver blades now incorporate a new design to keep them open better during use. The narrower and lighter design now incorporates comfort-grip Zytel® inserts in the handle to feel better in the hand. Very handy. Folded length: 4", 5.2 oz.

#2446 \$37.00

### LEATHERMAN CHARGE TTI

The most advanced multi-pliers on the planet, made of the best materials – Lightweight Titanium handles with 154cm knife-steel blades – this is a lighter, tougher combo. Outside accessible blades for one handed opening and all blades and tools lock into place. Removable side pocket clip. Includes 7 double ended driver bits (Phillips, Flat, Hex, Square, Torx...). Also sports clip point and serrated knife blades, wire crimper, scissors, file, saw and removable lanyard ring...if it doesn't have it, you probably don't need it. Folded length: 4"×1.5"×.75", 8.2 oz.

#4973 \$157.00

### LEATHERMAN MICRA®

Containing a spring-loaded scissors and nine other tools, the Micra is Leatherman's smallest multi-tool, and not only is it tiny, it's much more useful than a lot of small

knives or other keychain-sized gadgets, as it has 10 fully functional features that really work, centering around the scissors as the main tool. Small enough to fit on a keychain, and handier than most tools this size. 2.6"×.75"×.45", 1.8 oz.

#2402 \$32.00

### VICTORINOX SWISS TOOL SPIRIT PLUS RATCHET

Leave it to the builders of the Swiss army knife to come up with an extremely well-built, ergonomically shaped pocket tool. This beautiful piece features a "one step" approach to tool access, meaning you can open the blades in each handle without opening the entire tool. Individual springs hold each blade in place, eliminating "clumping," where a bunch of stuff opens when you just wanted one blade. Tools also lock solidly in place once opened. Elegant. 4.5"×1.75"×1.75", 12.2 oz.

#2584 \$127.00

### SWISS-TECH UTILI-KEYS

Cleverly masquerading as a key, these little devices clip onto your key ring and contain a plethora of tools in a very compact format. The 6-in-1 features a straight/serrated blade, three screwdrivers and a bottle opener. The 8-in-1 features a jeweler's screwdriver, slotted and Phillips screwdrivers, nail file and cleaner, wire cutter/stripper and bottle opener. Very handy for

something that weighs a quarter of an ounce and is only 2.75" long when closed. That's a lotta fob. So unobtrusive you may forget you have one with you. So don't.

6-in-1 #3547 \$12.00  
8-in-1 #3596 \$14.00

6-IN-1

### SWISS-TECH MICRO TOOL

Diminutive, clever, and packing a surprising amount of utility, the Swiss Tech is a key-ring sized pliers/flat blade/Phillips blade/wire cutter that is made of machined and hardened tool steel that is as strong as it is, well, cute. We don't know about the "using it as a key ring" part (looks as if it would flail a bike dash pretty bad), but it is one of the nicest tiny tools out there. Good goods. 1.9"×1"×0.25", 1.7 oz.

#3548 \$8.00

## AEROSTICH WHEEL CRATE WORKSTAND

An affordable and more comfortable way to perform all bike maintenance. This workstand quickly transforms any space into a motorcycle workshop. The ramp-and-crate system assembles easily using two heavy-duty dairy crates (not the lightweight department store storage boxes) to raise your bike 11". This makes any job a lot more comfortable – everything goes more smoothly up and off the ground, from tune-ups to easier access for oil draining and tire changes. Maximum versatility and stability for all motorcycle and scooter repair work. When the job is done, pick it up and lean against the wall – out of the way until it's needed again. Useful for display, detailing and cleaning, too. For all bikes weighing up to 500 lbs. Saves your knees, back and assorted other things. Includes complete set-up and use instructions. Seriously. Dimensions (set-up) 116.5"×48"×20". Aluminum model is 25 lbs. Order two Wheel Crates per stand and one set of tie downs. Workstands ship Fed-Ex with an oversize package surcharge of \$20.00.

Aluminum Workstand #4755 \$297.00  
Wheel Crate #3585 \$15.00  
Scissor Jack #4746 \$35.00

## CARABINER TIE DOWNS

Cam lock tie downs made from durable 1"×84" nylon webbing rated to 4500 lbs., with a max load rating of 1500 lbs. Looped nylon strap hooks allow for cinching a load without scratching paint and carabiner style hooks attach securely. Black. Pair.

#4747 \$34.00

## REPAIR IT RIGHT TIRE REPAIR DVD

Get the job done right with this helpful how-to DVD. A lot of thought, time and care went into making this, and it shows. Contains everything you need to know, from removing, bead breaking, balancing and repairing tube and tubeless tires. It's a must-have for anyone with a bike, and old timers might just learn a trick or two they've never seen before. DVD, 80 minutes.

#3627 \$30.00

## SCISSOR JACK

An incredibly useful tool for performing any bike maintenance. Lifts and supports your motorcycle, allowing easier removal of wheels, chain, sprockets and any other parts that need to be removed or replaced when wrenching on the ride. Compact design with a sturdy base and steel construction, will elevate 2000 lbs up to 15". A great accessory to use with the Aerostich Lightweight Motorcycle Workstand (#4754 Steel or #4755 Aluminum).

#4746 \$35.00

## QUICKLOADER RETRACTABLE TIE-DOWN

A retractable ratcheting tie down that neatly spools its own strap – eliminating flying loose ends and knotted and tangled webbing. Twelve feet of 1500 lb 1" nylon webbing smoothly dispenses from a spring-loaded storage spool for easy strap adjustment, while sturdy S-hooks and a locking ratchet maintain load-tension. This automatic roll-up feature makes for exceptional ease of use when securing nearly anything to a trailer, van or truck bed. And when there is nothing to strap, the spring loaded spool also lets you bounce it up and down like an oversize yo-yo, for added entertainment value. 500 lb. total capacity rating. 7.2"×4.4"×2.8". 1.6 lbs. Webbing: 1" wide × .9mm thick. Red. Sold individually.

#4752 \$24.00

2-Pack #4769 \$42.00

## HEAVY DUTY SELF-RETRACTING RATCHETING TIE DOWN

These take the hassle out of securely strapping down any bike. Tough one inch polyester nylon webbing has a long six-foot reach and ratchets securely with a breaking strength of 3500 lbs. A unique mounting design allows the buckle to secure to itself, or bolt permanently to a trailer or workbench, or connect to nearly any tie-down point with an optional S-Hook Adapter. Sold in Pairs. Base measures 5"×2.5"×2.75". 1 lb. 4 oz.

#4766 \$32.00

S-Hook Adapters (Pair) #4768 \$12.00

## SHOP-USE TECHNO TOWEL SET

Quite simply the ultimate shop towels, these ultra-soft, super-absorbent cloths are made from a non-woven Viscose Rayon material. Each towel absorbs copious amounts of liquid for the small 10"×12" size, is quick-drying, compact and hand-washable for use, after use, after use... Soak up a spill, wipe down a wet saddle, clean a face shield - too many practical applications to list (and they work way better than old stained T-shirts or holey socks, too) Black. 10"×12". Set of 5.

#1586 \$10.00

### MIRACLE TAPE

Same stuff as X-Treme Tape, but more of it in a bunch of colors, which can be handy for visually reminding you to permanently fix what you may have temporarily repaired. Also holds up in slightly colder weather (to -65°, brrr). Six 10' rolls (1"×2" each). Red, yellow, green, gray, white and clear. 8.4 oz.

#4940 \$24.00

### X-TREME TAPE

Originally developed for the military, this high quality self-bonding silicone wrap forms a permanent non-conductive, air and watertight insulating seal which stays flexible and won't crack or melt in temperatures from -60° to +500°F. It can be removed and won't leave a sticky residue like electrical tape. A great coolant hose patch, electric insulator or tool handle wrap. One 1"×10.5" roll, 2.0 oz.

#4558 \$6.00

## AEROSTICH MOTO SURFACE CLEANER & DEGREASER

A stronger motorcycle cleaner that works better on oil, dead bugs, and packed dirt than the all-purpose spray cleaners found in grocery stores (Simple Green, etc...) ...but it doesn't attack aluminum and painted surfaces or leave residue stains like some motorcycle cleaners. The Moto-surface cleaner is strong enough to be truly effective, but mild and safe on your bike's finish. It's also more cost-effective... about a third less than imported cleaners. An industrial strength pre-wash detergent formula is specifically made for cleaning and/or degreasing. This stuff can safely be used on plastic, paint, aluminum, vinyl, rubber, fiberglass, battery terminals, and surfaces of all types. The expected spray head is an Owens Brockway Trigger Sprayer, the best adjustable squitter available. Contains an earth friendly blend of water soluble surfactants and no alcohol, oils, ammonia, or phosphates. It is both non-abrasive and biodegradable. Your bike will shine when you ride and be a lot nicer to work on when you need to do that. Less harmful than a pressure washer. Less work than a soapy bucket. Faster too.

1L Cleaner #4596 \$7.00  
.8L Degreaser #4696 \$7.00

### PLASTEX REPAIR KIT

Powerful and stinky stuff that will repair plastics in tough situations. You get two components; a powdered gap-filling material and an aggressive solvent that fuses the whole works together for

an effective bond. Plastex is particularly handy for dealing with the enchantingly brittle "plastic" often found on faired motorcycles. Not to mention those little tabs that like to break off... Sticks to just about anything short of polypropylene or polyethylene. An effective and permanent repair product. Clear.

Small (10 mL) #4576 \$16.00  
Regular (50 mL) #4577 \$32.00

### NOVUS POLISHES

A very high quality product that really works. Handy for removing that annoying scratch that is always right in the exact spot your eye wants to look. No. 1 cleans, shines, and protects all plastics. No. 2 removes fine scratches from most plastics. No. 3 removes heavy scratches from most acrylics. Recommended on a windshield.

No. 1 (2 oz. Bottle) #3553 \$4.00  
No. 2 (2 oz. Bottle) #3554 \$4.00  
No. 3 (2 oz. Bottle) #3555 \$5.00  
All 3 Polishes SAVE \$3.00 (Three 2oz. Bottles) #3556 \$10.00

### PROTECTALL SURFACE CARE

Simply the best of the "all-in-one" cleaner, wax and polish product available. Use it on paint, chrome, fiberglass, Plexiglas wind-screens, helmets and visors, leather and more. Advanced non-abrasive formula is easy to apply, dries clear and finishes with a fresh lemony scent. Polishes to a lustrous showroom shine and protects with Carnauba Wax and UV blocker. Vinyl, rubber and finished leather are treated to a non-oily, natural appearance. Beautifies all surfaces quicker and easier than ever thought possible. Incredible on helmet face shields and wind-shields. A long-time favorite. 16 fl. oz. spray bottle.

16 fl. oz. Spray Bottle #4796 \$17.00

### DISPOSABLE MECHANIC GLOVES

Sometimes you just don't feel like getting certain things on your hands. Like carburetor solvents you can taste the second a drop gets on your skin. Or the grease and grit from that yearly chain scrub in the kerosene pan. Or... You get the idea. These nitrile rubber gloves were designed specifically for mechanics, and they feature textured fingers and palms to make it easier to handle slippery parts. Powder free and tear resistant, these gloves are a toolbox must for those occasional really gross jobs. Nitrile is much more resistant to chemicals than latex and actually fit better the longer you wear them. One Nitrile glove will also fit both hands, so there's no need to screw around with which glove fits what. Finish that impromptu roadside adjustment, peel the gloves off and continue on to your black tie affair. They will also help keep you hands warmer in cold conditions. Note that these are very thin, like surgeon's gloves, for sensitive feel. Black. L or XL. 100 pack.

#1451 \$24.00

### NITRILE GLOVES

These tough, yet lightweight mechanics gloves fit like a second skin and wear like iron. Air-infused nitrile palm-coating for exceptional grip on oily surfaces. Ergonomically shaped to be über flexible, comfortable and extremely durable. When the dirty part of the job is done, these digit protectors are machine washable too. Atlas 375 gloves feature a textured gray coating on palm and fingers for advanced gripping. Atlas 380 gloves have a smooth black coating and are a bit more durable for more abrasive work. Black. M, L, XL.

Nitrile 380 #1401 \$6.00  
Nitrile 370 #1431 \$6.00

### METRIC INDUSTRIAL GRADE DELUXE MINI-RATCHET

Superlative quality and construction, this 28 pc. mini-ratchet kit includes a comprehensive selection of bits and extensions, all contained in a compact case. The ratchet is capable of 400 inch-pounds of torque, and only needs a 12 degree arc to "click," so it can be used in very tight places. This is a tough little wrench set that will last for years, and it may also get you home. Lifetime warranty. 9 hex bits (1/16", 5/64", 3/32", 7/64", 1/8", 9/64", 5/32", 3/16", 7/32"); 4 "6 spline" bits (T10, T15, T20, T25); 5 slotted bits (#2, #3, #4, #5, #8); 7 metric hex (#2, #2.5, #3, #4, #5, #6, #8); 2 Phillips (P1, P2); and 1 Reed + Prince. 4.75"x2.9"x1.4", 13.3 oz.

### MINI RATCHET KIT

This great kit, featuring the most frequently used metric tools, is a compact upgrade for OEM tool kits. Includes a 48 tooth ratchet, an 8-piece metric socket set, extension, hex and Phillips bits. Everything is nicely organized in a sturdy case and each tool is beautifully finished. 4.5"x6.25"x1.5", 2 lbs.

#4672 \$45.00

#3580 \$77.00

### BEADBRAKR KIT

Who says you can't take it with you? This BestRest BeadBrakR kit incorporates a trio of tire irons into the same mechanical design and strength of a full-size bead breaker. Nice. It's compact, lightweight, and takes less than a minute to assemble using quick release ring pins. When the bead is free, simply break the device down and use the same tire irons to remove the tire from the rim. The entire kit fits in your hand and rolls up nicely in its own durable storage pouch. Includes tire irons (except #4980), quick release pins and lanyard, plywood blocks, sand foot (for changing tires on soft surfaces), rim protectors, bead goop, valve stem multi-tool, and laminated instructions. 12"x5.5"x2", 3 lbs.

**Steel Kit (Steel Tire Irons)**  
#4981 \$170.00

**Titanium Kit (Titanium Tire Irons)** #4982 \$245.00

### TITANIUM COMBINATION WRENCHES

At less than one quarter the weight of standard steel wrenches, these strong and extremely lightweight tools are perfect to shave weight from the average bike toolkit. The titanium alloy will never rust or corrode and the ergonomic handle design makes 'em easy to hold and use on the roadside or trail. Available in 8mm, 10mm, 12mm, 13mm, 14mm, or a four wrench set that includes a sturdy nylon tool wrap.

**8mm** #3694 \$20.00

**10mm** #3695 \$25.00

**12mm** #3696 \$33.00

**13mm** #3697 \$40.00

**14mm** #3698 \$43.00

**4 Wrench Set (8mm, 10mm, 12mm, 14mm)**  
#3699 \$112.00

FOUR WRENCH SET

### ROADSIDE TOOL KIT

A compact tool kit that is a major upgrade from the worthless bits that came with your bike. Quality tools at a reasonable price, including PowerDrive combination wrenches and a host of other essentials. The M2 kit includes 10mm & 12mm open and box end wrenches, 8" power drive wrench, cable ties, safety wire, lubricant, spark plug wrench, Allen wrenches, pressure gauge, screwdriver and even a shop towel. Replacing or supplementing the OEM kit with one of these will make a difference during the first roadside, garage, or trailside adjustment or repair.

#4739 \$40.00

### VERSATOOL

A sturdy, stainless steel foldable wrench for low or high torque applications. Equipped with a 1/4" square socket stud, so you can use your favorite sockets and extensions. Includes a hex-tool adapter and extension, and an eleven bit holder containing flat, Phillips, and Allen drivers. Comes in a zippered nylon storage case. Tough, practical, compact, and ideal for use in tight spots. 4.25"x3.25"x0.5", 6.9 oz.

#4618 \$14.00

### 4 WAY OFFSET DRIVER

A clever and well-made tool driver that accommodates common 1/4" hex bits straight-on or at 90°. The handle is rubberized for good grip, and the tool sockets are magnetized to hold the bits in place. Bits included are 2.5, 3, 4, and 5mm hex drivers, as well as Phillips #1, 2, and 3, 4.5, 5, and 7mm flat drivers. A fine, compact tool. And an Aero/RWH exclusive. 4.5"x1.75"x0.75", 4.5 oz.

#4531 \$24.00

### MP TOOL

Ingenious and very well made, this compact, durable wonder could likely solve any number of fastener issues when you are a long ways from your roll-around toolbox. Fits 8, 10, 12, and 14mm bolts, #2 and #3 Phillips screws, small and medium flat head screws, and a reversible 1/4" and 3/8" adapter for the included 10 and 12mm sockets. Sturdy and compact. 5."x2.75"x1.5", 12.6 oz.

#3527 \$58.00

### ALL-IN-ONE TOOL KIT

Compact yet sturdy enough for lots of small to medium-sized repairs. Includes a compact ratchet with 8, 10 and 12mm sockets; 4 and 5mm Allen bits, and #2 Phillips and slotted screwdriver bits. 4.5"x1.5"x1", 7.7 oz.

#2437 \$24.00

### RATCHETING T DRIVER

This T driver has a smooth forward/ fixed/reverse ratchet built into the handle. Comes with 3 hardened double ended bits. All metal construction. 6"x0.75"x3.5", 5.4 oz.

#2579 \$14.00

### FOLDING T-TOOL

Folds into a pocket or tool roll like a pen but provides T handle leverage when needed. All metal and suitable for hard use. Three slotted sizes and three Phillips sizes. 3"x0.5"x3.5", 2.5 oz.

#2580 \$12.00

### 21-IN-1 SCREWDRIVER

21 screwdrivers in the palm of your hand... 10 double-sided, nickel coated, stay put but easy-to-remove hardened steel bits are housed in the ergonomically-shaped handle of this ratcheting driver. Features 7 driving configurations that can be locked into 6 driving positions, so you can get more torque and reach places a standard screwdriver can't. Durable construction. An extremely versatile, well thought out tool. 4"x1.5"x.6" (compact), 7.75" extended. 5.5 oz.

#2406 \$30.00

### CRUZ OUTBACKER M14

This motorcycle-optimized folding design has four hex keys: 3/4/5/6mm; both slotted and Phillips screwdrivers, a 1/4" socket driver with 8/10/12mm sockets and three (6/6.3/6.4mm) spoke wrenches. Any tool can be used with all the others folded inside the handle, and all tools are heat treated vanadium or carbon steel. Only 3.5" long and weighs only 9 oz.

#4598 \$20.00

### HK1 WONDER WRENCH

Replaces twenty-three separate size wrenches with this one compact tool. The narrow profile allows it to fit into the tightest of workspaces and a ten degree tapered head leaves plenty of knuckle clearance too. Each end of the wrench features a hexagonal head with an adjustable piston slider to provide a three sided, full surface contact fitting with the bolt. Even works to extricate damaged, stripped and rounded-off bolts. The HK1 uses a unique hydrokinetic slider system to easily adjust to the proper size. Turn the valve located in the center of the wrench a quarter turn to release piston slider, adjust diameter and tighten for a firm, custom grip on each bolt. Heavy-duty, cold forged steel construction and nickel plating combined with ultimate versatility make this tool destined to become a favorite. 7.25"x.5", 10 oz.

#4742 \$28.00

### METRIC HEX KEY SET

A nice, black chrome-vanadium set of Allen wrenches that won't turn into rusty, corroded relics in your gear bag or garage. Ball end allows for better access to Allen head bolts. Set of nine metric wrenches (1.5, 2, 2.5, 3, 4, 5, 6, 8 & 10 mm). Holder included. 12.7 oz.

#4911 \$20.00

### 6-PC PIVOTING HEX WRENCH SET

Still torturing your fingers and bashing your knuckles with L-shaped hex keys? These wrenches have a patented pivot joint that lets you simply rotate the handle around any obstacle and provide more leverage so you can get the job finished before it finishes you. Especially nice for hard-to-reach bolts. 3, 4, 5, 6, 8, and 10mm. 17.5 oz.

#4958 \$42.00

(TOOLS NOT INCLUDED)

### AEROSTICHTOOL ROLL

A classic biker's tool roll, made-over modern with smarter pockets and pouches. You'll clean out your tool kit and still end up with space to spare in this bag. Three large hook & loop pouches + 20 smaller pockets for wrenches & screwdrivers. A heavy-duty elastic retainer keeps everything in place. Folds and rolls into a nice, compact unit. Extraordinary stitching quality. Perfect inside a tool pouch or saddlebag. Cordura. 25.5"x21.5" (unrolled), 11"x3.5" (rolled), 9 oz.

#4670 \$47.00

### ROADTECH M3 TOOL ROLL

You may have discovered that the tool kits bikes come supplied with are, um...not of the highest quality. So if you're concerned about rounding off fasteners or having other cheesy tool problems, here is a great way to upgrade. Contained in a compact Cordura roll-up pouch, this Cruz Tool kit contains the following high-quality tools: 8mm-14mm combination wrenches, 8" adjustable wrench, drive ratchet with extension and sockets, four-bit screwdriver, four hex keys, double hex 5/8 & 13/16 spark plug socket and breaker bar, flashlight, tire gauge, electrical tape, zip ties, mechanics wire, Loctite and WD-40. A professional-quality, complete tool kit. Nice. 9.5"x3.34" (rolled), 3 lbs.

#4988 \$89.00

(TOOLS INCLUDED)

### BMW ROADTECH B1

Modern BMW's don't come with many tools. But things still go wrong sometimes, and when they do, sometimes having a few tools can keep you going. Enter the need for a unique tool kit. Includes top grade wrenches, hex keys and other specialized tools that are sized to fit the stuff on every Bavarian made bike. Sturdy roll-up pouch keeps tools neat and organized with efficiency.

#4738 \$119.00

(TOOLS INCLUDED)

### KRIEGA TOOL ROLL

100% Cordura with YKK zipped mesh pocket, loop closure, water-resistant clip, key clip and 30 elastic loops to securely hold tools. 21"x8.75" (unrolled), 8.75"x6" (rolled), 8.6 oz.

#9164 \$39.00

(TOOLS NOT INCLUDED)

COBRA

PYTHON

### KNIPEX ADJUSTABLE WRENCHES

The best of their kind. By far. Perfectly sized for keeping in a rolled MC tool kit. These go beyond the rest with better design features and faultless metallurgy. A push button quick-adjust slide mechanism gets the jaws sized fast with one hand, and cushioned grips let you apply more force. The Cobra's box-jointed jaws will grip just about anything. The Python's flat jaws are designed specifically for use on nuts. The unique locking slide adjustment jaw minimizes damage to bolts and fasteners. Spreads far enough for oversized steering stem nuts! The Cobra (7.25"×1.5"×0.5", 6.1 oz.) is made of chrome vanadium electric steel that is oil-hardened with a jaw hardness of 60 HRC. The Python (7.75"×1.75"×0.6", 8.7 oz.) is nickel-plated.

**Cobra (Box-Jointed) #3505 \$42.00**

**Python (Flat) #3509 \$67.00**

### 4-IN-1 SCREWDRIVER

About 1/3 smaller than the common 4-in-1 model. This driver features a reversible barrel with two double ended bits (Slotted and Phillips). A good addition to any tool kit, and sized to be a perfect upgrade for flimsy stock tool kit screwdrivers. 5.25"×1", 3 oz.

**#3521 \$6.00**

### FOLDING T-HANDLE SOCKET WRENCH

A compact 1/4" folding T handle wrench set that packs very small and includes 8, 10, 12 and 13mm sockets. A pocketed nylon carrying case keeps everything together in your kit or pack. 5"×2.75"×1.25" (in bag), 8.2 oz.

**#2593 \$32.00**

### REMOVABLE T-HANDLE SOCKET WRENCH

A T-handle wrench like the pro and pit mechanics use, but with the added versatility of removable sockets, enabling you to customize and adapt it to your own needs and the requirements of a given bike. Comes with 8, 10, 12, and 13mm sockets, but any 1/4" standard socket will fit. 7.75"×4.6"×0.6", 8 oz.

**#4620 \$22.00**

### DESIGNATED DRIVER

This is a functional and clever tool that is built to last a lifetime. Using standard hex bits, the Driver has a machined aluminum body with holes to hold extras, which are held in with a friction material. The drilled handle also allows use of the included extension as a "cheater" to increase leverage. Includes five bits: Phillips (#2 (two) and #3) and slotted (3/16" and 1/4"). 3.9"×.9", 5 oz.

**#4532 \$24.00**

### 2-IN-1 CARB SCREWDRIVER

Handy and well-built. Small, about 5" long with a flat and Phillips driver. Excellent for carb and instrumentation screws. 4.9"×0.75", 0.9 oz.

**#3522 \$5.00**

DICK AND JOAN HARDING 100 MILES FROM ANYWHERE (2010)

STANDARD

UNIVERSAL ADAPTER

## AEROSTICH CANTILEVER WHEEL BALANCER

Avoid the expense, downtime and trouble of arranging tire changing services at a shop and gain the satisfaction of knowing the job was done perfectly (and is ready just when you need it). With this balancer and a couple of tire irons (plus a bead breaker for tubeless tires) anyone can get a precision balanced tire in a few minutes. Slowly spin, mark the low spot, repeat, add (tape it on) a temporary weight, spin, mark, repeat, re-weight, spin, repeat, etc...When wheel always stops at random points, securely attach the required weights and the job is finished. Ultra-low friction bearings make the process very sensitive to the smallest change in weight and position for super accurate results. Finely finished cantilever frame is easier to use than a conventional stand: lock the axle to a wheel and set the bearings into the saddles on the stand. Save time and money while getting the satisfaction of doing it yourself. Definitely a nice balance. Optional universal single-sided swingarm adapter fits most wheels used on single sided swing arms. 14mm axle also allows use of standard BMW Paralever wheel adapters (available from BMW). Strong frame and a durable gray powder coated finish make this a valued shop tool that will be a pleasure to use for years. Measures 18"x20.5"x10". 10 lbs.

**Cantilever Wheel Balancer #4744 \$157.00**  
**Universal Single-Sided Swingarm Adapter #4748 \$67.00**

### FEATURES

- Strong, lightweight frame, powder coated finish.
- Two shielded precision ball bearings with lightweight lubricant for ultra low arbor starting torque
- Aluminum bearing adapters fit most motorcycle wheels with bearings in the hub, 17 to 30mm ID
- Optional universal adapter fits most wheels used on single sided swing arms
- Save money and ensure your wheel balancing is done correctly

### T6 HEX AXLE TOOL

This 17, 19, 22, and 24mm tool fits into the internal hex axles on most sport bikes and works with any 3/8" drive wrench. 7075 T-6 hardened aluminum. 2.75"x1.1" 3.2 oz..

**#2592 \$38.00**

### KLR+ AXLE WRENCH

This double box end lightweight alloy wrench fits the front and rear axle nuts on KLR's and many other bikes. Strong, simple, brushed steel. 8"x1.5"x0.25", 6.5 oz.

**2007 & Older KLR (22mm/24mm) #4657 \$30.00**  
**2008 & Newer KLR (19mm/27mm) #4772 \$32.00**

### PLASTIC RIM SAVER

Saves your rims from being potentially mutilated when changing tires. Nylon. 6"x1.75"x0.5", 1.4 oz.

**#1498 \$12.00**

### TAR ARN HOLDER

A neoprene sleeve that holds two tire irons to prevent them from bouncing around and wearing holes in your pack. (Tire Irons not included).

**#2400 \$10.00**

### 3/8" SOCKET ADAPTERS

Convert the Aluminum Tire Lever/Wrench Combo (or any other 24mm, 27mm or 32mm wrench) into a non-ratcheting 3/8" drive socket wrench. 0.9"x1.25" 1.8 oz.

**24mm #2594 \$22.00**  
**27mm #2595 \$22.00**

HANG TIGHT, EDWIN! (JOHN AND BONNIE MUNSON, WASHINGTON, NJ, 2011)

### RIMSHIELD

Big, beefy rim protection is what you get from these durable, oversized nylon rim savers. Real protection from potential damage caused by tire levers during changes, the raised beads facilitate inserting the lever under the bead and prevent slipping. The long apron protects hands and spokes, while the sizable finger holds make repositioning a breeze. This is one tool sure to save time (and aggravation). (5.75"x4.5"x.5"). Set of 2.

**#2425 \$12.00**

## AEROSTICH TITANIUM TAR ARNS

If you want to be able to change or repair a tube or tubeless tire while on the road, you'll need to pack along tire irons to get the tire off the rim. They don't call 'em irons for nothing...Conventional tire irons are plenty heavy, especially for something you may never use (except in your garage workshop), so we developed these high-tech supersonic aerospace versions to lighten your load and help you change tires in a swank, ultralight manner. Surprisingly there was quite a bit of trial-and-error and design detail work to get the exact best radiuses for the curved spoon ends. Some irons make you fight with the job, but these work easily and make it harder to accidentally pinch a tube. One pair weighs only 6.4 oz., compared to 9-12 oz. for typical steel tire irons. Great for carrying on trips and for street, off-road, and dual sport riding. A super high-tech tool for a Stone Age job, these beauts are that rare combination of the exotic and utterly practical. 9.25" long. 3.2 oz each.

**Two Tar Arns #3564 \$77.00**  
**Three Tar Arns #3594 \$107.00**

WRENCH WITH TAR ARN

## AEROSTICH TAR ARN AXLE WRENCH

Slide this lightweight CNC Aluminum wrench adapter onto a Titanium Tar Arn to assemble the lightest, most compact, elegant axle wrench available. Anywhere. We love this tool, not because we made it, but because it packs so small and works so great. Just place it on your axle and pull. Specify 24mm, 27mm or 32mm.

**#4805 \$30.00**

## ALUMINUM TIRE LEVER / WRENCH COMBO

Great for trail or roadside repairs. These hard anodized, aluminum tools are box wrenches on one end and an efficient tire iron on the other. You can remove both the axle and the tire with one tool. Replace the flimsy factory tool kit wrenches. If you have wrenches for both your front and rear axle, that means you'll have two irons for wrestling your flat off, and after patching, back onto the rim. Wrenches are under 10" long, less than 5 oz. and fit nicely in a tool roll. Neat.

**12/13mm #2566 \$38.00**  
**22mm #2567 \$38.00**  
**24mm #2568 \$38.00**

**27mm #2569 \$38.00**  
**32mm #2570 \$38.00**

## RE-USABLE BALANCE WEIGHTS

A simple, re-usable wheel balancing solution. Slide the CNC machined solid brass or nickel weights over the spoke and tighten a single allen set screw to the spoke nipple. Adjust the amount of weight and placement as necessary to achieve the perfect balance. Fits all sizes of spokes on today's most popular dual sports. A versatile balancing tool that contains no lead and is re-usable, making it an environmentally friendly balancing option. Kits contain eight weights: two 1 oz, two ¾ oz., two ½ oz., two ¼ oz. Specify Brass or Nickel.

**Brass #3677 \$32.00**  
**Nickel #3678 \$35.00**

## COMPACT WHEEL BALANCER

Perfect for conserving storage space in racetrack vans and small garages, this tool balances wheels precisely but doesn't take up much room when not in use. Beautifully machined aluminum pillow blocks hold low friction bearings and rest perfectly on any two chairs, stools or garage jack stands: voila! A fast, accurate wheel balancer. 1.5 lbs.

**8" or Less Rear Wheel (Universal, Goldwing, BMW and Harley) #4605 \$105.00**  
**Single Sided (BMW '85 and Newer) #4606 \$105.00**  
**8" or Wider Rear Wheel (Buell, FZ-1, Hayabusa, and Harley) #4645 \$115.00**  
**BMW Front Axle Removal Tool #4737 \$25.00**

## BMW R & K ADAPTER

Fits all R and K model bikes from 2004 on (with the exception of K1200LT).

**#4801 \$35.00**

## BMW STYLE PARALEVER CONE

Fits all single sided BMW wheels up to 2004 models.

**#4800 \$25.00**

*"If the government said they wanted to put a tracking device in your car that allowed them to lock the doors and turn off the engine at will, and track your every movement, speed, and corner there would be protests in the street. Instead they call it OnStar and charge folks \$14/month for the "service."*

*— Lee Bruns, via Sev Perman in an email, 9/22/08*

### INNERTUBE VALVE STEM SNAKE

Spend more time riding and less time changing the next flat. This useful valve stem guidance tool makes changing tires a breeze. Insert the threaded end into the stem of the flattened tube, remove the tube – pulling the tube snake through the hole, insert the threads into the new or repaired stem, install tube and easily pull stem back into place. A little tool that saves loads of frustration. Sure to help prevent the flare-up of spontaneous Tourette's Syndrome while fixing the next flat. 14.5" long.

#4990 \$27.00

### ANGLED STEM LCD TIRE GAUGE

Small, simple and accurate, this tiny gauge packs anywhere to makes checking tires a breeze. Ride safer, save gas and extend tire life by maintaining correct pressure. Selectable measuring units (PSI/BAR/kPa), easy to read LCD display and battery saving auto shut-off feature. Pressure range 2-100 PSI/.13-6.89 BAR/13-689 kPa. 1"×2.5".

#3600 \$20.00

### FLAIG TIRE GAUGE

German-built and calibrated to 1% of scale value per DIN spec 74720, this gauge is ruggedly constructed with an alloy shell, rotatable/resettable 60 psi dial bezel, and a release button to record pressures. If you are critical about your tooling (and your tires), this is your gauge. Superlative. 4.5"×2.9"×0.9", 4.7 oz.

#4603 \$47.00

### TOPEAK SMART GAUGE

This digital tire gauge is great for storage and carrying. The ergonomic shape provides an easy view of the LCD display. It's accurate to half a pound, simple to use, and it beeps. Fits Presta and Schrader valves (which is great if you also ride a bicycle). Battery included. 3.4"×2"×1.1", 4.1 oz.

#2530 \$30.00

### ACCU-GAUGE

This easy-to-read and accurate 2" dial gauge features a full geared precision movement with bronze Bourdon tube and rubber shock absorber. Swivel end for easy positioning around brake rotors. Measures 0-60 psi. 17.25"×2.5"×1.25", 9 oz.

#2513 \$24.00

### DIAL TIRE GAUGE

The 2.5" dial reads to 60 psi with a swivel angle chuck and an air release valve. Accurate, easy to read and inexpensive. Toss it into your kit or leave it by your daily gear out in the garage so it will be handy. 4.5"×2.4"×1.25", 5.9 oz.

#4652 \$14.00

### DIGITAL TIRE GAUGE

A nifty little gauge with an easy-to-read digital display. Lightweight, ergonomic design & durable construction. Fits nicely in the palm of your hand. May just become your favorite gauge. 3.5"×1.75"×0.75", 1.6 oz.

#4673 \$18.00

### PENCIL GAUGE

This solid metal stick/pencil gauge reads 10-50 psi on a 4-sided indicator bar, and features a pocket clip – just like the good old days. Small, light, and surprisingly accurate. "Check the air, ma'am?" 5.75"×.6"×.5", 1 oz.

#3550 \$4.00

### ACCUTIRE® KEYCHAIN

A tire gauge in the hand is worth two elsewhere... This digital keychain gauge is small and light and attaches easily to a keyring or tank bag to be there when you need it. Reads from 5-60 psi. Powered by a permanent lithium battery. 3.4"×1"×0.5", 1.0 oz

#3549 \$8.00

### PROGAUGE

A round bodied, rubber armored and thusly rugged tire gauge with a handy angled extension to reach those tire valves. Accurate and uh, digital, so those of you who are analog-averse get to see an actual number in front of you which is kinda nice. 2.5"×1.8"×1.25, 10.5 oz.

#4502 \$32.00

### TAPPET FEELER GAUGE ASSORTMENT

These allow you to make accurate tappet adjustments quickly and easily. Angled blade for easy access to tappets. Set contains .002-.003, .004-.005 and .006-.008 feeler gauges.

#4922 \$32.00

### TAPPET ADJUSTING TOOL SET

These tools make the job of adjusting valve tappets a lot easier. Set includes three chrome plated wrenches (8, 9 & 10 mm) with screw adjusters (3 & 4 mm square type and screw type). 3.5"×1.5", 3 oz. (each).

#4923 \$42.00

### BEAD BREAKER

For motorcycle wheels that are open in the middle (regular or cast spokes). It's packable, but it is really a little larger and heavier than most riders will want to carry. Ideal for garage workshop use. Adjustable for all sizes of wheels/tires. 18" long. 17.5"×2"×2", 4.5 lbs.

#3551 \$78.00

### CAMEL VALVE CORE TOOL

Ultra compact and effective as a tire deflator and core removal/installation tool, the Camel fits anywhere and does the job when needed. Knurled for ease of use. Simple, tiny, and effective. 1.1"×0.5", 0.7 oz.

#4616 \$4.00

### MOTIONPRO VALVE CORE TOOL

A compact tool manufactured from hex stock for the removal and installation of valve cores on either tubed or tubeless tires. Small, inexpensive, and easy to have along in case you need it. 2.75"×0.4", 1 oz.

#4615 \$5.00

### NOLOSS VALVE CAP

Losing air from a motorcycle tire can have grave consequences. Manufacturers themselves state that an uncapped tire stem is not secure from leakage without a sealed cap. These practical and well-made valve caps seat an O-ring to provide that final seal, and have flexible retainers that ensure you won't misplace them. Neat. Nylon version are fully compatible with the latest Tire Pressure Monitoring (TPM) valves made from

aluminum. Brass (set of 4). Nylon (set of 5).

Brass (4) #4602 \$14.00  
Nylon (5) #4770 \$14.00

### WOLFMAN ENDURO TOOL BAG

This tool bag features a unique strap and hook & loop mounting system that holds it securely to your bike and also lets you easily remove it from its installed base. Compression straps hold the bag and contents together during the roughest on- or off-road riding. Durable Cordura nylon. Quality webbing, buckles, zippers and sewing. Black. 7"×10"×5".

#9022 \$49.00

### SPARE TUBE FENDERBAG

This zippered Cordura bag is sized to fit one tube and a pair of tire irons. Compression strap design will not fall off the fender, and eliminates chafing. Black.

M (10"×4.5"×2.5") #916 \$20.00  
L (11"×8"×4") #917 \$26.00

### BEAD POPPER

Don't carry a full-size bead breaker on the road. This lightweight resin wedge combined with a big heavy rock (or other improvised bludgeon) will do the same job. Simple but effective, and somehow satisfying. 7"×3"×1". 4 oz.

#2583 \$20.00

### BEAD BUDDY

This handy little tool helps push the bead down into the rim and keep it in place while changing a tire. Won't mar or damage rim. Lightweight aluminum and nylon. 2.25"×1"×.625", 1 oz.

#4938 \$12.00

### WHEEL CRATE

If the RiderWearHouse was conveniently located near a dairy products distribution center, we'd "hand pick" crates just like these. They're perfect for holding the tire/wheel when levering it off of the rim. Buy yours, it's safer. 13"×13"×10.9", 2.5 lbs.

#3585 \$15.00

### ADHESIVE WHEEL WEIGHTS

Recommended inventory. Six 3 oz. strips in "snap-off". .25 oz. increments.

#3576 \$15.00

## ENGINE AIR POWER PUMP

An engine-powered air pump designed to inflate tires using the engine's cylinder as an air compressor. This premise is vaguely alarming but actually quite well thought out. A pump unit threads into one of the engine's spark plug holes, and as the engine runs/spins, fresh, clean air is pumped to the tires. Inflating a motorcycle tire takes less than one minute and is completely safe for your engine and ignition system. The cylinder pump pulls air from the atmosphere, ensuring no gas or oil fumes turn your Metzeler's into a Hindenburg wannabe. RiderWearHouse exclusive kit includes a 60" quick-release air hose and 18, 14, 12, and 10 mm adapters for all spark plug openings. (Other versions of this product are bulkier and contain extra components. This is just the essentials.) Works with all multi-cylinder engines. 12.5 oz.

#3570 \$27.00

## ALLOY DRIVE M

A compact High Volume hand pump made entirely of custom CNC-machined aluminum for precise and lightweight construction. Overlapping handle and barrel with oversized piston and shaft are integrated into a compact design. Handle houses a removable 6.5" ABS flex hose that attaches easily and securely to the stem valve. Inflates tires to riding pressure with 30% fewer strokes, for faster inflation with less effort. Max pressure 90psi. 9"×1.25"×1.25", 4.5 oz.

#4773 \$45.00

## PRO QUICKER

Small Size, Big Results! Patented Multi-Chamber Double-Action technology allows this little gem to get you pumped up quicker. Constant airflow means less effort than other pumps and more pressure – 160 psi! With an easy-to-read pressure gauge built into the piston and versatility to fit Schrader, Presta and Dunlop valves, grab this one any time you need to pump on the go. 7.25"×2"×1.25", 5.6 oz.

#4736 \$35.00

## AIR STIK™

Compact and capable of 160+ psi, this hand pump pumps air on both the front and back strokes to fill tires twice as fast. Fits both Schrader and Presta valve stems. Ruggedly built with an aluminum finish and black structural plastic detailing. Lifetime warranty. 10.5"×3.75"×1.5", 8.3 oz.

#3506 \$27.00

## AEROSTICH CO<sup>2</sup> POWER KIT

No matter where you are, this kit gives you air. Five threaded 16 gram CO<sub>2</sub> cartridges, a control valve and a 3.5" flexible valve adapter hose, all store neatly inside a 5"×5" envelope bag.

#4760 \$24.00

## THERMO HAWK INFRARED THERMOMETER

This sleek, pen-sized unit instantly gives you the surface temperature of whatever you point it at. Highly accurate testing from -27° to +428° F, and housed in a patented metal cylinder that reduces electrostatic and electromagnetic interferences when testing electronic components. Point at tires at every gas stop and learn if a tire is suddenly low. Instantly and without bending down. When tire pressures drop even a little, tire temps go up a lot. A quick accurate no-installation tire pressure monitor if you want extra peace-of-mind. And while you are at it, gas stop wheel hub temps confirm wheel bearing health. Perfect for testing the temperature of anything anywhere on your bike, measure mufflers, headers, brake rotors, tires, or a cold beer. Batteries included. 3.5", 2 oz.

#4899 \$44.00

## MICRO FLOOR DRIVE PUMP

Floor pump power and function, packed into a compact, ultra-portable-packable design that is about the same size and weight as a bicycle pump. The CNC machined aluminum construction quality and durability, and a high volume output that makes getting back on the road nearly effortless compared to the arm busting repetitions necessary with traditional hand pumps. Stainless steel wire foot peg keeps the pump firmly in place while delivering air via a unique flip-tread chuck. 11.5"×2", .6 oz.

#4743 \$45.00

## VOLUME VS. PRESSURE

Any bicycle hand pump will air up a motorcycle tire, it's just going to take a ton of strokes. High Volume pumps are able to deliver more air at lower pressures for faster overall inflation (less strokes). High Pressure pumps deliver less air per stroke, but offer reduced pumping resistance at higher pressures. Either version will equate to a weeks worth of time at the gym, but both are better than being stranded with no way to air up a flat. Now, where is that patch kit...

## AEROSTICH MINI COMPRESSOR

This is the smallest, lightest compressor we carry and one of the most efficient you'll find for its size. This stripped-down mini fits in the palm of your hand and will inflate any motorcycle tire in a couple minutes. When a larger compressor is too much bulk to carry along, and CO<sub>2</sub> cartridges aren't nearly enough for your trip, this dedicated pump will deliver continuous pressure without fail. What it lacks in beauty, it makes up for in performance - which is what you really need when you're flat stranded in the middle of nowhere. Has a nice long 26" inflator hose, 6' power cord, and packs small in included storage sack. Comes with three adaptors: SAE, cigarette lighter and alligator clips. Lock-down delivery valve fits all bikes. Also comes with carabiner clip, so you can attach the compressor to whatever you want out of the way and off the ground, instead of having it lay in the mud or dirt. Simple, compact, and dependable piece of mind. Pump is 3.5"x3.5"x.9". Packs to 7"x5"x3", 1.3 lb.

#3500 \$47.00

BMW Power Plug #116 \$20.00

ADAPTERS

CARABINER CLIP

STORAGE SACK

## STOP 'N' GO COMPRESSOR

Keep this compact compressor in a tank bag or saddlebag, it's so small you'll forget it's even there...until you need to fix a flat. Built in gauge to observe the pressure level up to 120 psi. A long 66" SAE power cord comes with both alligator clip and lighter adapters. Also comes equipped with sports needle and inflatable adapters for blowing up footballs, basketballs, camping mattresses, beach balls...or how about an Inflatable Snake (#3437) to hide in your buddies sleeping bag. This multi-function inflator measures 4"x2"x6" and includes a sturdy nylon carrying case. 14 oz.

#4751 \$35.00

## CYCLE PUMP AIR COMPRESSOR

A high quality, made in the USA, purpose-built inflator for motorcycle use. Contained in a sturdy aircraft-grade aluminum case, this 12V pump inflates a motorcycle tire from flat in about 2 minutes. A pressure rating over 100 PSI lets it top up those round black things

even quicker than that. Not only is it great to have a device like this around for repairing flat tires, it's also handy for quick and easy pressure adjustments when off-road adventure touring or dual-sporting. Fold-out legs increase stability and keep the unit out of the dirt. A long 24" air hose and 8' power cord give plenty of reach to alleviate pressure anxieties in any riding scenario. Add an optional 8' Autocord Extension for even greater reach. Plugs in to any 12V SAE connection, via the included universal BMW/cigarette-socket power plug, or battery alligator clips. Everything fits compactly in a rugged storage pouch. Unit measures a mere 2"x4"x6" and weighs but 36 oz. 10 amps.

Air Compressor #4906 \$100.00

8' SAE Autocord Extension #4803 \$10.00

## AEROSTICH COMPACT TIRE REPAIR KIT WITH MINI COMPRESSOR

The ultimate compact tire repair kit. Combines our smallest, most efficient compressor with all the essential tools, patches and goo needed to fix nearly any roadside flat. The whole kit zips up neatly into a handy nylon storage pouch and fits easily in a tank bag or pannier.

Mini Compressor has a nice, long 26" inflator hose and comes with three power adaptors: SAE, cigarette lighter and alligator clips. The underside of the pouch also features four slim pockets allowing storage for a tire gauge, pen, flashlight or other small, handy items that can be added to

enhance this kits versatility. Adding tire irons for removing the tire from the rim (Aerostich Tar Arns #3564, available separately), truly makes this a ride-anywhere tire repair kit. This is the smallest and most packable tire kit available. Black. 7"x3"x5.25". 1.61 lbs.

#4750 \$85.00

## COMPACT TIRE INFLATOR

This mini-compressor comes with a generous, long 8'5" extension cord and 16.5" inflation hose. Plus, it comes with all the connectors you'll need for emergency inflations: battery

charger plug, alligator clips, eyelet connections and cigarette lighter plug. Inflates tires in less than 5 minutes. Comes with carrying case. Very compact and very nice. 3.75"x4.75"x2", 1.2 lbs.

#4955 \$45.00

## AEROSTITCH TOURING TUBE & TUBELESS TIRE REPAIR KIT WITH ENGINEAIR POWER PUMP AND TIRE IRONS

This over-the-top deluxe kit contains everything needed for workshop and roadside repairs. For tubeless tires, it comes with plug strips and patch/plugs, a rasp tool, and a needle tool. For tube tires, it has patches and a stitcher tool with a buffer and a wheel for securing the patch. Two heavy duty steel or ultralight titanium tire irons, and a valve core tool are also included for removing the tire. And for refilling your tires, an Engineair Power Pump is included. The Engineair works with all multi-cylinder engines, and is designed to inflate tires using the engine's cylinder as an air compressor by threading into one of the engines spark plug holes (18, 14, 12, and 10 mm adapters are included). When your repair job is finished, a single use hand cleaner towelette is included. This kit has it all. Securely housed in a heavy duty zipper envelope. 10"×3.75"×2". Specify: Titanium (24 oz.) or Steel (34 oz.) Tire Irons.

Steel ⚙️ #4508 \$47.00  
Titanium ⚙️ #4509 \$107.00

### SELF-TAPPING CARBIDE TIRE STUDS

Ordinary low-budget sheet metal screws bite fine into ice but get ground away quick on paved surfaces. With sharp tips made of corrosion-proof, super hard, abrasion-resistant tungsten carbide, these ingeniously designed studs allow most of the tire's rubber to be in contact with clear pavement while providing increased traction over mixed snow or ice. The best part is they're simple to install — the studs self-tap with the included bit that fits any power drill. Just mark your tire, screw in each one and you're ready to ride. For everyday winter riding, Low Profile studs will keep you on the road. The Off-Road is only for off-road / dirt riding. The Scooter studs are for scooter tires only. If you ride through the winter you'll have fun, your bike will horribly corrode, and everyone will think you're crazy. Perfect! Each set comes with an installation bit, instructions and 100 studs (50 per tire). More info on website.

Low Profile A (8.7×12.8mm) #4706 \$107.00  
Low Profile B (8.8×15.7mm) #4707 \$107.00  
Low Profile C (9×16mm) #4708 \$107.00  
Off-Road D (9×17.4mm) #4714 \$107.00  
Scooter A (6×8mm) #4719 \$107.00  
Scooter B (7.9×9.3mm) #4720 \$107.00

Warning: Studded tires may not be legal in some jurisdictions. Check local laws.  
Warning: Maximum studded tire grip on dry or wet pavement is reduced compared to non-studded tires. Ride with care while learning the capabilities of studded tires.

### THREEBOND SEAL 'N' AIR

Not necessarily the best way to repair a tire, but one that will get you to the next town or to a shady/protected area to do it right. Works by filling the tire with a foaming latex-like fluid that seals the hole, and will fill a tire to moderate pressure in around 20 seconds. (Bear in mind, however, that when you remove the tire for permanent repairs, it's gonna be full of this stuff. We warned you.) Tire pressure will increase gradually as you ride. Will not work on large holes or sidewall punctures. Attached fill hose.

⚙️ #3574 \$14.00

### CO2 FILL POWER

It takes approx. 24–36g of CO<sub>2</sub> to fill a flat motorcycle tire 10–12 psi, so that it can be safely ridden to the nearest service station for further inspection and repair.

### AIR CHUCK

Inflate tires with threaded CO<sub>2</sub> cartridges. Works on Schrader and Presta valves. Includes 16g. CO<sub>2</sub> cartridge. 4.1"×1.6"×0.9", 3.5 oz.

⚙️ #4506 \$18.00

### TIRE REPAIR KIT CONSUMABLES

For the best results, plugs, patches, and cement have variable shelf lives and should be replaced every few years.

#### PATCHES

For tube tires. 6 patches and rubber cement.

⚙️ #4511 \$6.00

#### PLUG STRIPS

For tubeless tires. 6 plug strips and rubber cement.

⚙️ #4510 \$5.00

#### MINI PLUGS

For tubeless tires. 3 mini plugs and rubber cement.

⚙️ #4952 \$8.00

#### POCKET PLUGGER PLUGS

For tubeless tires. 25 pre-lubricated plugs.

#4600 \$8.00

#### THREADED CO<sub>2</sub> CARTRIDGES

One 25g ⚙️ #4585 \$12.00

Five 16g ⚙️ #4904 \$12.00

### ULTRAPLUS TIRE INFLATOR

A compact unit that accepts both threaded and unthreaded CO<sub>2</sub> cartridges. The Ultraflate is lightweight, will fit in the smallest tool kit, and will fill a tire in a hurry. A lever enables air delivery modulation for a controlled fill. Nose fits both Schrader and presta valves. A neat way to be on your way faster. Includes one 16g CO<sub>2</sub> cartridge. 7.8"×8.5"×1.5", 4 oz.

⚙️ #4774 \$22.00
