AEROSTICH

CENTER STAND DOLLY

With an ultra-low profile and heavy-duty 360°, non-marring, locking casters, this 1000 lb. rated heavy-duty aluminum dolly allows a bike to be moved around the garage or workshop by one person, with minimal effort. Works with your bikes center stand to easily move, rotate, store and work on your motorcycle. 20"×16"×3.9". 14lbs.

#3658 \$245.00

Review by KRUYNRT. "For winter storage, I place the RT in the back left corner of the garage and "walk it" back and forth to get it "between" that corner and the stairs leading into the house (the steps are about center of the back wall in a 2 car garage). The bike is about 2" shorter than that space, and once the bike is near the steps, it is impossible to maneuver it closer to the back wall. Consequently, there is more of an opportunity for backing the 2012 Jeep Liberty into it. With the Dolly, I can easily push the bike flat to that back wall with about an inch to spare on either end between the steps and side wall...perfect place.

"The down side, is that it takes a bit of muscle to rock the bike on center stand, onto the Dolly; humbly, I asked a neighbor to help - better than dropping the bike. I suppose more practice will help." - Dec 2011

WHEEL JOCKEY

A sensible tool for motorcycle chain and wheel work. Non-skid backing keeps the steel frame in place and aluminum rollers with sealed ball-bearings allow you to smoothly rotate for chain maintenance, tire inspection and cleaning.

For bikes up to 650 lbs. Small and lightweight enough to stow under a seat or in a tank bag for on-the-road use. For road bikes only, not for off-road tires. 4"×4.5", 1.25 lbs.

#2697 \$55.00

GARAGE ROLLSTAND

If your sporty scooter does not have a centerstand, this is the easy way to keep its chain lubed. It slips under the back tire and that's all there is to it. Heavy duty powder coated steel sides and solid steel rollers. If you ride a lot, you'll use this often. Under 750cc is 10.5"×7.75"×1.5", 3.3 lbs. Over 750 cc is 10.5"×8.5"×1.75", 4 lbs.

Under 750cc #2573 \$35.00

Over 750cc #4907 \$45.00

TURNCYCLE

The robust, heavy-duty steel turntable is rated for up to 1000 lbs and features a rubberized non-slip surface. At 15 3/4" in diameter and less than 1/2" thick, it will easily accommodate most center stands and wall-hangs neatly out of the way when not in use. Includes 2 leveling mats that raise your bike just enough and help level it up perfectly, making lifting your bike onto the turntable the same effort as when flat on the ground. Bright yellow markings help when lining up a center stand. Smooth rolling ball bearings and a lifetime warranty. Made in Canada. 8.3 lbs.

#4870 \$175.00

TURN A BIKE

Lazy Susan for your bike. You simply ride up, set your centerstand and easily turn your bike around for the next ride. Makes routine maintenance and repairs a lot easier, too. Just rotate to what you need to get at. Stainless steel construction with non-skid top and bottom. Interior discs are made of low friction, high density polymer and require no lubrication. Bridges bumps, pits and imperfections on floors and asphalted surfaces. Made in USA. Holds up to 1,000 lbs max load. 16" Dia. 5.5 lbs.

#3597 \$195.00

Review by Tbird — "I received this last week and I've used it a few times. I park my bike on a patch of grass next to my driveway and, if both cars are in the drive, I have to do a 42 point turn on the grass to get out again. Not easy with my fully-loaded GS.

"The Turn A Bike does exactly what it says it will. It makes it easy to spin around a big, heavy bike. It's not ideal on soft grass - I actually dropped my bike the second time I used it - but I've learned to compensate by standing next to the bike and gripping the bars instead of turning it from behind the bike while lifting the rear wheel.

"It's worth the cost, and it's making my life easier. If they made a bigger one that would be more stable on grass or dirt, it would be an improvement."

LIFT & LUBE

This does exactly what the name says. If your bike doesn't have a center-stand, you know how much of a pain in the butt lubing your chain can be. Invented by a veterinarian and bike enthusiast, this handy jack stand is easy to use. Works a lot better than having a buddy (if you have one around) lift, strain and balance your bike. Lift & Lube...Works like a charm. Comes with universal key and durable "pleather" bag and can conveniently fit under your seat. Fits bikes with right hollow axel internal diameters from 7/16" (11mm) to 1 1/16" (26 mm). 1.4"×9" (folded), 18.5" (extended), 1 lb, 2 oz.

UNIVERSAL KEY

#4963 \$42.00

AEROSTICH TITANIUM WHEEL BALANCE WEIGHTS

The lightest weights you can buy. Adhesive. Hipoformance. Reusable. Made from an exclusive sintered Titanium mined in western China, refined in Bulgaria, machined in Spain and packaged, calibrated and certified in Scotland. Each weight is hand-fired and then carefully trimmed, radiused and filed by skilled craft artisans for that burnished Ti appearance that looks so great on any motorcycle. Available in sets of four weights, in half-ounce increments, and a 10' roll of military-grade double stick mounting adhesive. Natural gray.

#ERE \$192.43

MULTI CHARGER-MAINTAINER

State-of-the-art charging technology that recovers, charges, tests and maintains 12V batteries. Includes a special reconditioning function that restores stratified and deeply discharged batteries.

Additional features include maintenance charging, optimized cold-weather step-charging and programing to meet the demanding specifications for maintaining AGM batteries. Fully automatic 8-step program. Also features manually selectable 800mA OR 4.3A. steady-state output.

Provides early warning of problems and even recovers deeply sulfate damaged batteries. Fully automatic operation includes safety features such as reverse polarity protection and no spark connection. Recommended for all Standard 12V batteries and sealed AGM 12V lead-acid batteries. Includes two connection sets, battery clips and fuse-protected ring terminals. Charging voltage 14.4/14.7/15.8V Max 4.3A. CAN-bus compatible.

#2978 \$85.00

LITHIUM CHARGER-MAINTAINER

Specifically designed to optimize and protect any Lithium Iron Phosphate (LiFePO4) battery, maximizing performance and lifespan. With up to 4.3 Amps of charge current, the multi-step charge program automatically adjusts to battery condition and balances cells quickly and efficiently. Precise charge control insures that even over-discharged batteries are correctly and safely recovered. Efficient low voltage mode is safe for long-term charging applications with alternating hourly maintenance and test modes.

Includes two connection sets, battery clips and fuse-protected ring terminals. Spark-free, reverse polarity protected and short circuit proof. Max current charge 4.3A, charge voltage 13.8/14.4V. CAN-bus compatible.

#2977 \$120.00

SYSTEM TESTER + CHARGER-MAINTAINER

Advanced charger with unique battery and alternator testing features. Combines advanced micro-processor controls with battery and alternator test function. Patented automatic desulphation program and a special reconditioning setting that will revive and restore deeply discharged and stratified batteries.. Float/Maintenance mode is ideal for long-term maintenance.

Three programs test battery voltage, start power and alternator performance, providing a complete picture of battery and vehicle charging system health. Reverse polarity protection and no spark connection. Recommended for all Standard, sealed AGM & sealed GEL 12V lead-acid batteries. Charging voltage 14.4/14.7/15.8V 800mA - 4.3A.

#2979 \$120.00

AEROSTICH 6' JUMPER CABLES

Nice and hefty for jumping a motorcycle or other light vehicles. Durable clamps grab battery posts with authority. Made of 10 gauge polar/solar wire that stays flexible. May be just the thing to save that ride. 6'. Includes storage bag.

#3524 \$24.00

8' JUMPER CABLES

Designed for use on motorcycle battery terminals, these 8 ft long cables are worth the price the first time you need them. Store neatly in a handy included pouch.

#2777 \$22.00

PICK YOUR POWER

An overview of how these batteries compare to a traditional lead-acid battery.

TRUGEL:

- Light Weight – up to 80% less
- Fast Recharge
- Long, Maintenance Free Life – 2x Standard
- Superior Cranking Amps

ODYSSEY:

- Starved Electrolyte Technology
- High Cranking Amps
- Long Life – 2x Standard
- Extreme Temperature Tolerant

SHORAI LITHIUM-IRON:

- Ultra-Lightweight – up to 80% less
- Up to 4x the Service Life
- Faster Cranking and Recharge Rates
- Hold Charge for 1 Year – Maintenance Free

BIKEMASTER TRUGEL BATTERIES

Super-high density oxide plate design combined with NanoGel Electrolyte technology increases surface area, giving superior cranking amps, quicker charging, more power, less sulphation and twice the life expectancy of traditional batteries. Strong ABS case uses special top-cap design that makes this a true maintenance free battery, completely eliminating leakage and acid spills. 12V. Cranking power range (depending on model): 110–340A depending on application. Weight: 7.7–19 lbs. Size range: 5.27"–8"×2.7"–4.8"×4.13"–6.7". Air-shippable.

ODYSSEY DRYCELL™ BATTERIES

Advanced battery technology that works much better (and longer) than even the best conventional lead acid batteries. These batteries are more powerful and dependable. Cranking amp ratings are double to triple regular types. They have an 8 year design life, an ultra long shelf storage life and a low self-discharge rate—after sitting for months (without any trickle charge) it'll start. Deep cycle reserve power provides sufficient amps for confident starts even when 70% discharged.

Odyssey batteries have superior vibration resistance, a tough ABS case, and are lighter, too. Air shippable and non-spillable "starved-electrolyte" design. Works right out of the box with no charging needed. The California Highway Patrol use these batteries because with the engine off they must run their flashing lights and radios. 12V 14Ah. Cranking power range (depending on model): 100–380A. Weight: 6–26 lbs. Size range: 5.43"–7.27"×3.11"–7.05"×3.98"×6.67".

SHORAI ULTRALIGHT LITHIUM BATTERIES

Drop weight. Lithium technology with a tough carbon-fiber composite cases made these next-generation lithium-iron batteries weigh an astonishing 70–80% less than a lead acid battery. These advanced batteries recharge quicker than a conventional battery and hold a charge for an entire year without maintenance and with zero sulfation.

Environmentally friendly too with no explosive gasses during charging, no lead and no acid, just discharge and dispose when it reaches the end of a long service life (up to four times the life of a lead-acid battery). 12V 14–27Ah. Cranking power range (depending on model): 210–405A. Weight: 1.68–3.85 lbs. Size range: 5.83"–6.55"×2.6"–3.39"×3.46"–5.51".

**LIGHTWEIGHT
RECHARGEABLE Li
POWER SUPPLY**

A personal power supply, small enough to fit in your pocket or tank bag, with enough power to jump start a bike (or even a car), as well as charge laptops, smartphones, tablets, GPSs and other mobile devices. A crucial piece of back-up kit, it will recharge a device several times or power a laptop for up to 2 hours. Built-in flashlight too. Durable zippered case. 20 different types of fittings. 6"×2.8"×1". 14oz.

#2971 \$147.00

BATTERY DOC CHARGER

Smart, powerful and portable, this 1.25 Amp fully sealed battery charger incorporates state-of-the-art electronics to provide to the optimal charging rate. Monitors and maintains charge without overcharging, automatically switching from charge mode to maintenance mode. Safe charging and maintenance of all wet-cell and fully sealed lead-acid batteries, gel-cell batteries, AGM and DEEP cycle batteries from 5 to 200 A/hrs. A three color LED charge indicator. Includes alligator clips, ring terminal and a 12V accessory plug, all with 12 inch connector wires. Fabric storage case holds everything for easy portability. 4"×2.5"×1.5". 6 oz. 1.25A.

#2631 \$44.00

BATTERY TENDER PLUS®

The latest version of the famous Battery Tender®. Lucky for you (and your battery) the cost is the same. The enhancements to the original design are in the circuitry that ensures better charge absorption and a built-in 72 hour safety timer to protect a marginal battery from being overcharged. The display improvements tell the user that AC power is on, when it is charging, that the battery is 80% charged, that full charge has been attained, and when the unit is in "float" charge mode. Electrifying. 12V, 1.25A.

Battery Tender Plus® #2504 \$54.00

Battery Tender Plus® for BMW Gel Batteries (not shown) #4908 \$54.00

BMW Adapter Plug #116 \$20.00

YUASA PORTABLE CHARGER

Fully re-charges and maintains a full charge. Spark-proof and reverse-polarity protected, operates at up to 16 volts for recovery of sulfated batteries. Three function LEDs. 9.3"×6.3"×2.9". 900mA.

#2774 \$37.00

**CHARGE-LEVEL
BATTERY GAUGE**

Displays the percentage of charge remaining in any single 12V battery (or dual 12V/12V, 12V/24V or 12V/36V systems). Made for RVs so it comes with a "Smart-Set" feature that adapts to different battery set-ups. (Readout auto-rotates between battery one and battery two. In one-battery mode [as in, your bike] displays a steady readout.) Mounts anywhere. Only 2"×2.1"×.75". .5 oz.

#2514 \$34.00

BMW COAXIAL 12V PLUGS & SOCKETS

Dual plug works with both BMW and standard power sockets. Plug and Socket require additional wiring.

Dual Plug #185 \$12.00
Plug #181 \$10.00
Socket #108 \$12.00

BMW COAXIAL ADAPTER

Insert the plug into a BMW style socket to instantly add a 15" extension with a standard cigarette lighter plug. Great for GPS, cell phones, radar detectors or other electronics. 15"×1"×1". 12V.

#4201 \$10.00

BMW COAXIAL 12V PANEL MOUNT JACK

Provides a flush mount DC coax jack panel with a spring loaded cover. The six inch coax plug cable allows direct connection to DC coax power output. This is the same coaxial connector used in all Aerostich QuiConnect electric garment power cords.

#300 \$16.00

PANEL MOUNT OUTLET

Put power wherever you need it. Easy installation in .75" hole in any flat panel. The spring-loaded cover keeps out the crud. 3"×1.5"×1.75". 18" lead wire, 11.5" ground wire.

#4655 \$16.00

WEATHER RESISTANT POWER OUTLET

This rugged 12V panel mount cigarette lighter power outlet socket is fitted with a rubber dust cap to keep out moisture and road grime. Installs easily and securely into any 1.2" hole. 6" wire leads. 1.5"×2.5". 12V/15A.

#4203 \$10.00

ALL-WEATHER POWER OUTLET

Ziptie to any handlebar or frame tube for a dependable source of power with all electrical accessories that have a standard cigar lighter plug. Useful for radar detectors, cell phone chargers, etc. Weatherproof spring-loaded flip top cover keeps out moisture, grit and grime. 3"×2"×1.75", with two 12" wire leads.

#4654 \$12.00

BATTERY STATUS INDICATOR

A practical combination of quick connector and battery level indicator. Shows the battery charge level simply and clearly with Red, yellow and green indicator lights. Wire directly to the battery and place the indicator in an easy to see spot to always know the battery status. Weatherproof cover opens to quickly and easily connect to a CTEK charger when the indicator shows low voltage. Cable length 21". 15A Fuse. Two-year warranty.

#2987 \$12.00

IN LINE BLADE FUSE HOLDERS

For hard wiring your GPS, radio, or other accessories. No springs, so it's not susceptible to vibrations. The 20A includes two fuses for Garmin GPSs, and features a rubber dust cap. The 30A includes one fuse, and features a water resistant cap and about a foot of wire on each end.

20A #2550 \$10.00
30A #4664 \$5.00

12V 40A SEALED RELAY

12V, 40A Bosch-type relay for use with high amp draw electronic accessories like big driving lights, extra loud horns, double sided arm jesters, etc. Waterproof sealed plastic housing with metal mounting tab. Includes installation and wiring instructions. 2.125"×1"×1.25".

#4667 \$4.00

AUTOSWITCH

Eliminate auxiliary toggle switches and their attendant holes by installing this device, which ties into your light wiring. Connect to high-beam wire or turn signal cancel button to allow independent control of driving lights, fog lights or any accessory electrical device from a pre-existing control button.

Tap high beams or blinker cancel button to activate, LED shines green to indicate power to your auxiliary relay. This programmable pulse sensor technology is a reliable and efficient way to control auxiliary power. Includes tie wraps, wire clips, adhesive tape and instructions. Max current draw 200mA @ 12V. 1.4"×1.4"×.3".

#4764 \$24.00

DOODAD SWITCH

A mini-toggle switch encased in an injection-molded housing, which just happens to fit on 7/8" handlebars perfectly. Used by itself, it will turn smaller items on (up to 6 amps@12V), but if you are going to switch the big stuff, like really large lights, we'd recommend a 12V relay in conjunction. Comes with a 34.5" long 2 wire insulated cord.

#4218 \$18.00

SEALED TOGGLE SWITCH

Completely sealed 20 amp switch with weather resistant coating and O-ring stem seal. Includes a stamped metal on-off indicator plate that fits over the 15/32" diameter, 3/8" long mounting stem and chrome plated handle. 8" wire leads. 12V. 1.25"×.75"×1.75".

#4757 \$16.00

POCKET MULTIMETER

Designed for basic electrical tests, this digital multimeter offers reliable diagnostics for everything from measuring AC and DC voltages, checking resistance and continuity, and helping find elusive electrical gremlins. Test leads wind neatly around case for compact storage. This small, lightweight multimeter fits comfortably in your hand but is rugged enough to withstand travel use. 4.75"×2.75"×.75".

#2939 \$14.00

POCKET AUTO RANGING MULTIMETER

Trouble-shoot electrical problems with this slim-line design digital multimeter. Small yet rugged enough to carry on motorcycle trips. Only slightly larger than a credit card, it features full autoranging, AC/DC volts, ohms, continuity, diode test functions and overload protection. Comes complete with batteries, instructions, test leads, and carrying case. Delivers all the functions of a full size multimeter in an easy to carry size. 4.25"×3"×.5".

#2940 \$20.00

FLAME RETARDANT HEAT SHRINK KIT

Practical kit includes eighty-six 6" pieces, in six useful sizes, of high quality, stable and flame retardant polyolefin tubing. Shrinks to half original size when heated. Sizes from 3/16"-1" wide. Black.

#5000 \$32.00

HEAT SHRINK TUBING KIT

Handy kits that contain every size shrinkwrap you need. Has over 100, 4" long pieces from 1/16"-3/8" diameter.

#4972 \$17.00

TRAVEL-SIZE DIELECTRIC GREASE

For all electrical connections. Non-conducting corrosion prevention that protects from moisture, salt and dirt. Use on battery terminals, switches, spark plug boots and fuses. Resealable .33 oz tube. 3.5"×1".

#2980 \$7.00

MINI CONTINUITY TESTER

Broken Wire? Bad bulb? Loose connection? Find it fast with this. Insulated Alligator clip and shielded indicator bulb. Uses one AAA battery (not included). 4"×.5".

#2560 \$16.00

AUTO CIRCUIT TESTER

Diagnosing electrical gremlins is much more manageable with this handy circuit tester. Perfect for finding a break in any 6V, 12V or 24V circuit. Attached to the clear handle is a stainless steel probe ready to test bare wires, terminals or connectors. Heavy duty alligator clip is attached to tough, flexible wire. Illuminating handle light indicates live circuit between two points.

#2968 \$20.00

2500° PEN-TORCH

Unlimited uses. From soldering wires, melting or fusing plastic panels, starting campfires or barbecues, sterilizing medical tools, to thawing frozen locks are just a few of the tasks this torch will perform. Its widely adjustable throttle and instant one button piezo electronic ignition system make a precise 2500 degree flame for 30 minutes between refills. The compact size will fit easily into a first aid or tool kit. 6.3"×.8".

#2508 \$47.00

MASTER WIRING CONNECTOR KIT

This quality 115 piece selection of crimp connectors and terminals contains an ideal mix of individual items for 12V accessory wiring projects. Each metal crimp barrel is surrounded by a color coded, transparent, adhesive lined, heat-shrink tubing. When properly crimped and heated, the tubing shrinks and the adhesive flows creating a high quality environmental seal that prevents corrosion and provides excellent water and contamination resistance. These connectors provide superior protection from mechanical abuse, wire pullout and current leakage.

#4954 \$47.00

AEROSTICH 92 PIECE MOLEX® CONNECTOR KIT

It's easy to create clean and durable accessory wiring connections. This kit contains a useful selection of sizes for a variety of 12V electrical applications. There are three sizes of connector blocks and pins, each of which has male and female components. Wires are crimped to the pins (soldering optional) and then the pins clip into the connector blocks which are shaped to preserve polarity. The five small connectors take 20-24 ga. wire and are ideal for things like radar detectors or tiny LED voltmeters; the four medium size connectors take 18-24 ga. wire and are suitable for things like GPSs, radio receivers and those sorts of loads; and the four large ones take 14-20 ga. wire for connecting things like grip warmers, radio transmitters or extra lights. Includes instructions and thirteen connector sets plus several extra pins in each size. (92 pieces total.)

#2688 \$27.00

STRIP & CRIMP PLIERS

This pliers' particular combination of jaw width and length, and fulcrum location make it the best we've tried for working with Molex connectors. Wire cutter gauge is adjustable with a thumb slide and the return spring locks closed for carrying. 12-24 gauge AWC wire.

#2546 \$17.00

MOLEX® PIN REMOVERS

Works a lot better than jamming a screwdriver in the hole or trying to dig the connector out with needle-nose pliers. Universal has both male and female ends. ATX is male only. 3.75", 1 oz.

ATX #2526 \$5.00

Universal #2527 \$6.00

CONNECTOR PIN TOOL

This tool is the easy way to disconnect and work with Molex, H-D and similar multi-pin electrical connectors. Removes six sizes of pins from their nylon housings.

#2576 \$14.00

AEROSTICH SAE PANEL MOUNT CONNECTOR

Designed to simplify a regularly plugged and unplugged accessory, this panel mount pass-through installs conveniently into any panel or surface. We know riders who've installed it in the side or front of a tank or tail bag. Perfect for running electronics like GPS, MP3 player, fuzz buster...Uses standard SAE connector to pass power through any surface. Assimilates storage and power needs created by today's techno-far-klie-moto-addicts. Resistance is futile...

#1106 \$24.00

POSILOCK CONNECTORS

A vibration proof reusable wire connector system that delivers a superior connection to crimping. Simple to use, only wire stripping required. Wire ends are locked between opposing cone shapes when hand tightened, resulting in a positive, strong connection. Yet connectors easily unscrew for roadside service or re-use. There are no metal parts and the internal electrical resistance is less than with crimp connectors. Color-coded bodies are super tough Nylon 66 resin. These are the ultimate reusable weather tight connectors, and a great way to wire electrical accessories.

BUTT CONNECTORS

9 qty., 18-24 ga.

#2552 \$8.00

T CONNECTORS

6 qty., 12-18 ga.

#2555 \$8.00

INLINE FUSEHOLDERS

2 qty., 12-18 ga.

#2554 \$8.00

TWIST CONNECTORS

Variety pack. 16 qty., 10-26 ga.

#2553 \$8.00

NEUTRINO BLUETOOTH-LINKED 12V POWER DISTRIBUTOR AND CONTROLLER

The future. Multiple functions are fully configurable and completely controllable via Bluetooth through the Neutrino's free iPhone or Android app interface.

The waterproof and shockproof distribution unit handles 60 amps over 6 circuits, with the ability to load up to 20 amps on one circuit if needed. And self-resetting circuit breakers eliminate the need for spare fuses.

Wire connections are all easily accessible and reconfigurable via reliable screw terminals for clean, simple installation. You'll get programmable ignition off behavior (auto shut down, timed shut down and voltage-dependent shut down) by individual circuit. Settings also allow for unit to automatically turn circuits on and off based on ambient temperature and sunrise and sunset times.

Other features include a remote ambient temperature sensor, direct battery charger inputs, voltage and amperage monitor, time, directional heading, and altitude readout. There's also Bluetooth connectable supporting power as well

as data readouts when directly powering any USB device (up to 2.1 amp) or Apple, Android and other with the addition of an accessory cable. With your iPhone/Android mobile device in view on your tank bag or handlebars all data is displayed in real-time.

The ultimate way to distribute and manage electrical power, taking full advantage of the power of your smart phone. Compact 2"×3"×.9" Controller app available for free download at:

iPhone: <https://itunes.apple.com/us/app/neutrino-controller/id898448941?mt=8>

Android: <https://play.google.com/store/apps/details?id=arborealsystems.com.neutrino&hl=en>

System w/Bluetooth & Free iPhone app #4868 \$299.00
(Available 4/2015) USB Power Accessory Cable #4871 \$29.00

MINI FUSE BLOCK

Supply safe, fused power to accessory electronic devices. Uses four ¼" male blade connections for easy installation insert the best mini fuse (not included) to match the power requirements of each device. A clear cover with insulated O-ring provides protection and a water resistant seal. 15 amps per circuit. Fits almost anywhere. Simple is good. 3.2"×1.77"×1.5".

#4758 \$10.00

Review by Ken — "This fuse block is great. Very easy to install. Before, I had a rats nest of wires under the seat and in both side covers. I purchased 2 fuse blocks and cleared up all the wiring mess. The battery area look wrelly good now with only 2 wires to the positive post. It great if you add accessories to you bike try the mini fuse block to keep the wires in order."

TERMINAL STRIPS

A reliable, compact wire connector system that lets you organize electrical accessory connections cleanly. Unlike crimp style connectors, these can be safely undone and reconnected as needed, over and over. Recessed set screws. Dead front construction. Captive wire protectors. UL rated up to 10 amps and 12awg wire. 4 pole is 0.5"×0.5"×1.5".

2 poles (not shown, .55") #2557 \$1.50
4 poles (not shown, 1.2") #2558 \$2.50
6 poles (1.8") #2559 \$4.00

4-POSITION TERMINAL BLOCK

Easily organize electrical connections with this 4 position terminal block. Molded from UL rated 94 VO Thermoplastic with tin plated brass terminals and zinc plated #6-32 steel screws. Rated to 20 amps/150 volts max. 2.16"×.88"×.41".

#4762 \$4.00

PDM60 12V POWER DISTRIBUTOR

A compact solid-state fully electronic module designed to enhance the accessory power distribution system on any motorcycle, and CAN-BUS compatible for bikes like newer the BMWs. It's got 60 amps total capacity over six circuits with a maximum draw of 15 amps per circuit. A completely solid state system, with fault detection and diagnostic LEDs, that operate faster, more efficiently and offer more reliability than fused counterparts.

The PDM60 makes it easy to add accessories such as auxiliary lighting, communications equipment and electrically heated clothing, without overloading accessory plugs or creating electrical faults. If a circuit does short, it is easily reset after the fault has been corrected, eliminating the hassles of locating, pulling and replacing blown fuses.

Simple installation with a single point connection to the battery. Fully programmable via computer, it can be reconfigured at any time - adjust the current capacity for each accessory, as well as the circuit behavior mode (inactive, always live, ignition trigger, aux trigger and ignition and/or aux trigger). The user can also set time parameters for delayed startup and de-activation. LED lights keep you posted on circuit condition and operation status. Completely waterproof and sealed to IP67 standards. A light, durable, ultra-reliable space age electronic system for all of your bike's powered accessories. Only 4" wide x 2.875" deep x .875" tall.

#4845 \$199.00

Review by Alan — "After installing another buss bar with the blade fuses I saw a review of this in a mag and it's the one I had been looking for when I purchased the blade type. I installed this in the upper trunk of my GL1800 and ran the wires under the seat. I've used about 3 of the wires for accessories and still have some left to use. I love the resetting feature and the lights indicate which accessory I might have a problem with. Should I want to hook up something in the future the wires are already stubbed out under the seat and all I need to do is hook up a ground wire to a grounding buss I installed under the seat as well. This is the cats meow!! You'll like it too."

FUZEBLOCK FZ-1 12V DISTRIBUTOR

Clean power distribution for auxiliary lighting, GPS, heated gear/grips, intercom systems, audio mixers and more, minimizing space and eliminating a jumble of wires. Terminals for six devices with up to 10amps on each circuit and a maximum draw of 30 amps across all circuits. Terminals provided for devices to be switched on/off automatically with the vehicle, and for those to remain powered constantly.

Compact weather resistant design features a built-in relay and thick, durable circuit board that accepts readily available mini-buss fuses. Two spare fuse holders are also housed under the cover, which sports a write-on label for keeping track of devices, amperage and if switched or constant. Versatile, high quality easy-to-install power control. CAN-BUS compatible. 3.3"x2.5"x1.25"

#4420 \$84.00

CENTECH FUSED 2V DISTRIBUTOR

Supply convenient, safe fused power for up to eight individual electronic devices, such as radios, MP3 players, GPSs and other accessories. The Centech AP1 handles up to 60 amps and allows for eight connected outputs that remain on when your bike is running, off when it's not.

The Centech AP2 version allows for five "on when running/off when not" outputs and three "always on" outputs that remain active after your bike is turned off. This is especially helpful for devices that need to remain "live" such as radio memories and some GPS units. Made using plated contacts and stainless steel hardware, with a built-in grounding system, these units are rugged and water resistant multiple accessory wiring solutions. Their compact size (3"x2.4"x1") allows for easy installation inside fairings, under saddles and in other tight spots. Lugless terminals mean you simply strip wire ends, insert, and tighten set screws. Includes fuses, all mounting hardware and complete instructions. Neat, easy and safe.

AP-1 #2549 \$55.00

AP-2 #2538 \$57.00

(AP-130R) AP-2 Wiring Harness (required for split use-function) #2539 \$37.00

WORK STAND ADVANTAGES

This lightweight work stands is an easy way to get most motorcycles up off the ground, at a far lower cost, and with several hundred pounds less weight, than the commercial-style electric/hydraulic work stands.

If you've never used a stand you won't believe how elevating a motorcycle only this much (about a foot) makes working so much easier. Doesn't matter what you need to do, everything is better. And when the work is done the stand is lightweight enough to be simply picked up and stored out of the way until needed again.

The crate-width service platform is made of strong aluminum diamond plate, with welded corners, and is easy for one person to move around.

Along with a simple scissor jack, it makes doing tire and fluid changes a lot easier than doing these jobs on the floor.

Besides storing away in almost no space, if you've got the inclination to keep your bike inside of your home somewhere to view off-season, elevating it for display like this improves the 'art of the machine' viewing tremendously.

AEROSTICH ALUMINUM WHEEL CRATE WORKSTAND

A much easier, better and more comfortable way to work on your bike. Perfect for all bikes up to 500lbs, which means most models less than 800cc, and all supersports sportbikes, commuters, light touring bikes, etc. The ramp-and-crate system assembles easily using three heavy-duty industrial/commercial dairy crates (not lightweight department store storage boxes) to raise your bike 11". This makes any job a lot more comfortable.

Temporarily transform any space into a motorcycle workshop – elevate the work. You'll never go back to working on the ground again. Everything goes more smoothly when your work is slightly up and off the ground, from tune-ups to easier access for oil draining and tire changes.

When in use it's super-stable, and after the job is done, pick it up and lean against the wall — out of the way until it's needed again. Also great for displays, detailing and cleaning. Includes complete set-up and use instructions. Dimensions (set-up) 116.5"×48"×20". Aluminum. 25 lbs. Three Wheel Crates required (but not included). 

Three-Crate Workstand #4855 \$247.00 (Add \$20.00 for shipping)

Wheel Crate #3585 \$15.00

Tie-Downs #2915 \$29.00

WATCH THE VIDEO AT AEROSTICH.COM

A really good stand — Review by Adam: "I picked this up recently but have used it a lot already. I own a couple different Harbor Freight stands, the kind that use a jack to lift up the bike from beneath. I had considered getting a table lift, but this proved impossible to store or move around my tight garage. This proved an ideal compromise. It lifts the bike high, holds it secure, stores easily and is light and easy to use. I just used it to complete a big bore kit on a dirt bike I own. The weight limit means anything much bigger than an SV650 will go beyond its approve use. So, Goldwing owners need not apply. Anyhow, it's a simple, easy to use easy to store stand that makes work a great deal simpler."

WHEEL CRATE

If you don't already have some heavy-duty milk crates from your local dairy laying around, these are industrial/commercial grade and work perfectly. 13"×13"×10.9", 2.5 lbs.

#3585 \$15.00

ANCRAL CLASSIC TIEDOWNS

Use these to strap down a bike, secure a load or dozens of other uses. Each durable and weather-resistant 5.5 foot nylon web strap is rated to 1200 lbs. Easy to use and adjust cam-lever buckle stays securely locked. Sold in pairs. Black, Blue.

#2781 \$29.00

MOTION PRO T-6 CHAIN BREAK AND PRESS TOOL

For breaking chains and pressing on master link side plates. Includes press and side plates. Will push link pin completely through link/side plate. Handle detaches for compact storage. Made of high-strength aluminum and chrome-molybdenum (well educated steel). A really nice tool. Fits 520-530 size chains. 5.5"×4.75"×1", 10.4 oz.

#4649 \$75.00

PROALIGNER

Align wheels with laser beam precision, without the dead batteries or cost of a laser, or the bulk of a really long straight edge. Even slightly misaligned wheels cause weird steering and handling. This simple, easy-to-use tool is the solution for accurate wheel alignment. The easy to read dual scale can be used with a bike on a rear stand, front stand, centerstand, side stand or no stand. A fast, accurate tool that will make your bike steer and ride better. Great instructions, too. 12"×1"×.4"

#4765 \$35.00

MINI CHAIN BREAKER & PRESS

If you've ever needed to get an endless drive chain apart, you know it takes a specialized tool to drive the sometimes quite stubborn pin out after you've ground the top away.

Featuring a chrome-moly body and a folding handle for easy storage, the Mini Chain Breaker belongs in any mechanics toolbox. Handles 420, 428, 520, 530, and some 630 chains, which pretty much covers whatever you may run into. Capable of pushing a link pin completely through the connecting link, the replaceable drive pin is heat-treated and very tough. Add the Mini Chain Press for pressing on press-fit side plates. These tools are small and light enough to carry on trips yet tough enough to do the job and get you rolling again if you must do an emergency chain-ectomy somewhere that's nasty. Press fits all 520-530 size chains. Breaker is 4.5"×1.5"×1", 11.2 oz. Press is 2.25"×1.5"×1", 7.3 oz.

Breaker #4513 \$28.00

Press #4512 \$12.00

Both (Breaker & Press) **SAVE \$5.00** #4514 \$35.00

RK EXCEL CHAIN BREAK AND PRESS KIT

The Best. Comes with everything needed to break, rivet and flare endless chain pins. Kit includes detailed, photo-illustrated instructions. This one is popular with both shops and race teams. Very nicely made. Fits 520-532 size chains. 5.5"×4.75"×1", 6 oz.

#2589 \$135.00

CAMSURE TIE-DOWN STRAPS

The ease-of-use of a cam strap combined with the security of a ratchet-type strap, this unique design simply works better than any strap you've ever used before. Secure a bike for transport, to a workstand for maintenance or ensure cargo will stay put, this heavy-duty strap employs a proprietary clamping mechanism and secure vinyl-coated latch hooks. Manufactured on the USA with high quality powder-coated steel and rugged 1.5" wide × 5'5" long double stitched nylon webbing, rated to 6000 lbs. Working load limit 500 lbs. Sold individually.

#2915 \$49.00

LOCKSTRAPS TIEDOWNS

No other tiedown strap has a full length steel cable to prevent theft, plus the added security of dual locking combo carabiners to keep your load firmly in place. Soft tie extensions remove any worry about scratching paint or plastics. 8.5' long straps with a 1200 lb. load capacity. Sold individually.

#4838 \$45.00

POCKET MONKEY

A unique 12-in-one utility tool thin enough to fit in the credit card slot of your wallet, yet strong enough to handle everything from opening a bottle to loosening a tight screw. Heavy on function, light in your pocket and can hold up under pressure,

the one millimeter thin stainless steel design is heat-treated in the manufacturing for maximum durability and is made with quality in the USA. Cell phone stand, bottle opener, orange peeler, screwdrivers, hex wrench, ruler, letter opener, scraper and more are all packed into one compact tool. TSA compliant. Keep a monkey in your pocket...or in your wallet, or tankbag... 3.3"x2.2", 1 oz. 

#4853 \$12.00

SWISS-TECH UTILI-KEYS

Cleverly masquerading as a key, these little devices clip onto your key ring and contain a plethora of tools in a very compact format. The 6-in-1 features a straight/serrated blade, three screwdrivers and a bottle opener. The 8-in-1 features a jeweler's screwdriver, slotted and Phillips screwdrivers, nail file and cleaner, wire cutter/stripper and bottle opener. Both open a full 180°. Only 2.75" long when closed. So unobtrusive you may forget you have one with you. TSA ok.

6-in-1 #3547 \$15.00
8-in-1 #3596 \$20.00

LEATHERMAN MULTI-TOOLS

If you bought a Leatherman when they were first introduced in 1983, we're sorry to tell you your 25 year warranty has expired. The good news is that these tools are constantly evolving, and we have sorted through the choices to present two most suited to carrying along. Both sport the following features: Needlenose and regular pliers, knife, wire cutters, wire stripper, screwdriver, bottle opener, can opener, 8 in / 19cm ruler, lanyard ring, sheath, and yes...another 25 year warranty. Check out the additional details listed below to help choose the one right for your next ride.

SIDEKICK

Similar to the standard Leatherman®, but lighter and better. The screwdriver blades now incorporate a new design helping them to stay open better during use. Built entirely of stainless steel, the Kick has all the quality you'd expect from a tool made by this innovative company. Features a spring-action needlenose pliers, wire cutters, wire stripper, 2.6" long clip-point knife and serrated knife, slotted and Phillips screwdrivers, ruler, bottle opener, can opener, and lanyard attachment. Convenient outside-accessible blades allow one-hand opening. Folded length: 3.8", 7 oz.

#3671 \$55.00

CHARGE TTI

All the most requested features and the best materials combined into a super-functional multi-tool with serious performance. Premium comfort-sculpted titanium handle scales and an S30V® stainless steel locking clip-point knife headline the list of useful tools, which also includes: needlenose pliers, cutters, crimper, wire stripper, saw, files, screwdrivers and double-ended bit kit with a wide range of sizes, serrated blade, ruler, can opener, bottle opener, scissors and more. 19 tools in all, ready to take on almost any task. Includes belt sheath containing a dozen accessory bits, Allens, Torx, etc. Closed length 4". 8.2oz.

#4973 \$169.00

DIGITAL TORQUE WRENCH SETS

A programmable digital display that allows settable torque (Nm, kg-cm, in-lb or ft-lb) and an audible over-tighten alarm. Low torque model offers a range of 1-20 Nm and includes 2, 2.5, 3, 4, 5 & 6mm Allen wrenches, #2 phillips head. Medium torque version features a range of 4-80 Nm and includes a standard 3/8" square driver adapter, Allen wrenches 3, 4, 5, 6, 8 & 10mm, #2 phillips driver, T25, T30 & T40 Torx bits and 8, 9, 10, 11, 12, 13, 14 & 15mm sockets.

Low (1-20 Nm) #2786 \$229.00
 Medium (4-80 Nm) #2787 \$249.00

9-PIECE TORX WRENCH SETS

Made with precision machined chrome vanadium tool steel for a perfect fit. The L-Torx has an extra long reach to access obscured bolts easily and provide more torque. The S-Torx is a shorter version for accessing tight spaces. Both feature a bead blasted surface for better grip and corrosion-resistant coating backed by a manufacturer's lifetime warranty. Sizes T10, T15, T20, T25, T27, T40, T45 and T50.

L-Torx #2790 \$29.00
 S-Torx #2791 \$29.00

METRIC HEX KEY WRENCH SET

Compact metal handle holds set of six hardened alloy steel hex key wrenches. Fold closed for compact storage with knife style opening and easy access to the right sized tool. Metric wrench sizes 2.5, 3.0, 4.0, 5.0, 6.0, 8.0mm. 8.8 oz.

#2969 \$19.00

METRIC BALL END HEX KEY SET

A nice, black chrome-vanadium set of Allen wrenches that won't turn into rusty, corroded relics in your gear bag or garage. Ball end allows for better access in tight places. Set of nine (1.5, 2, 2.5, 3, 4, 5, 6, 8 & 10 mm). Holder included. 12.7 oz.

#4911 \$18.00

MICROMETER ADJUSTABLE 3/8" DRIVE TORQUE WRENCH

A reversible ratchet head and micrometer-type sleeve allows accurate pre-set torque. Choose 3/8" Sq. Dr. marked range (5-80 Ft. lbs.).

3/8" Sq. Dr. #2788 \$60.00

VALVE CLEARANCE ADJUSTABLE WRENCHES

Set of 3 hex wrench sizes, 8, 9 & 10mm plus 3 interchangeable adjustment heads (3 & 4mm square, plus straight blade), to give you nine different combinations to cover adjustments for most bikes. Made from heat treated hardened steel with color coded non-slip handles for easy use and recognition.

#2886 \$39.00

TAPPET CLEARANCE FEELER GAUGES

These allow you to set tappet clearance adjustments quickly and easily. Angled blade for easy access to tappets. Set contains .002-.003, .004-.005 and .006-.008 feeler gauges.

#4922 \$32.00

OFFSET FUNNEL

For decades, BMW Airhead riders have, um, admired the precise German engineering and forethought that must have gone into selecting the oil fill port on a boxer engine. This functional funnel fits the bill for cleanly and easily adding oil to nearly any motorcycle, even ol' Airheads. Built in reservoir allows pouring oil without holding your breath and squinting. Even fits under most seat compartments. Neato.

#2938 \$7.00

CLEAN FUNNEL

Take the mess out of changing oil or transferring fluids. Screw-on caps at both ends keep the inside clean. Blue, 1.0 pint polyethylene funnel is 8.5" long.

#2914 \$7.00

AMSOIL SEVERE GEAR LUBE

Synthetic extreme pressure lubricant, engineered for high-demand high-temp applications. Superior protection for gears and bearings against scoring and wear in all riding conditions and climates. Outperforms all conventional gear oils and ensures your ride runs better and lasts longer. 1 quart.

Severe Gear 75W-90 Lube #4808
Severe Gear 75W-110 Lube #4809
Severe Gear 75W-140 Lube #4810
 For current prices call 800-222-1994.

OIL RECYCLER DRAIN PAN

Changing the oil in your scooter is faster and neater with this low profile oil drain pan-container combo. Ultra low profile slides under the bike and the extra large, no-splash funnel screws into the neck during use and then snaps into the side of the rugged, recycled polyethylene body for storage.

When the job is finished this lets you tidily drop your bike's used oil at any dealer, garage or service station for recycling. Good clean fun. 7qt (6L) or 12.5qt (12L) sizes.

7 Quart Drain Pan #4878 \$24.00
12.5 Quart Drain Pan #4879 \$27.00

AMSOIL MOTORCYCLE ENGINE OIL

Advanced synthetic formula for both domestic and imported motorcycles, designed to provide the absolute best lubrication. Reduces friction, heat and wear and is specially formulated to excel in all areas unique to motorcycles, including high engine RPM, wet clutch lubrication, and extreme pressure regions of gears. 10W-40 is recommended for liquid or air-cooled high-performance 4-stroke engines and is wet-clutch compatible. 20W-50 is excellent in air-cooled engines due to higher thermal range and can also be used in transmissions and primary chaincases. Note: These products are not recommended where API GL-4 or GL-5 gear oil is required. 1 quart.

10W-40 MC Oil #4806
20W-50 MC Oil #4807
 For current prices call 800-222-1994.

CORROSION PROTECTANT AND WATERPROOF LUBRICANT

Going beyond the stuff available at the hardware store, Boeshield was developed by aviation industry giant Boeing as a protective coating that penetrates deeply into fasteners and fixtures, displaces moisture and attacks corrosion, and then dries to a clean waxy film. Not only that, but it will help loosen rusted parts and will not harm paints, plastics, or vinyl. Useful for all the places you'd use more pedestrian formulations like clutch cables, pivots and linkages, and even battery terminals and other wiring that may be exposed to the elements. Good stuff. 4 oz.

Liquid #4574 \$10.00
Aerosol #4575 \$10.00

CABLE LUBER + LUBE

Designed for use with aerosol lubricants, this device has the capacity to lubricate cables from 3/16" to 3/8" diameter which should cover just about anything. The Cable Luber Kit includes lube that is specially formulated to minimize friction in control cables. Not only will this device keep your cables lasting longer, it makes riding less effort. Belongs in everybody's toolbox.

Cable Luber (without Lube) #4528 \$20.00
Cable Luber Kit (with Lube) #4527 \$25.00

MINI DUCT TAPE

We all know of the limitless repair possibilities with the hallowed material known as duct tape, problem is, it comes on really large spools and is pretty clunky to pack and have around when you need it. These mini duct tape rolls are the real thing, on much smaller diameter, weather-resistant plastic spindles. Handy, and at times, indispensable. Classic grey. Two 2"×50" rolls, 3.2 oz.

#756 \$4.00

TENACIOUS TAPE

This clear matte-surfaced tape provides fast, long lasting repairs on fabrics, vinyl, rubber, plastic, aluminum, etc. Its adhesive is far more aggressive than Duct Tape and yet removes without leaving a sticky residue. Waterproof and UV stabilized. Perfect for all kinds of emergencies (It's even been used as an emergency inner tube patch...though not recommended). 3"×20", 1oz.

#770 \$5.00

SILICONE TAPE

Same stuff as X-Treme Tape, but more of it in a bunch of colors, which can be handy and pretty. Stays flexible. Self bonding. Non-conductive. Six 1"×10' rolls. Red, yellow, green, grey, white and clear. 8.4 oz.

#4940 \$24.00

X-TREME SILICONE TAPE

Originally developed for the military, this high quality self-bonding silicone wrap forms a permanent non-conductive, air and watertight insulating seal which stays flexible and won't crack or melt in temperatures from -60° to +500°F. It can be removed and won't leave a sticky residue like electrical tape. A great coolant hose patch, electric insulator or tool handle wrap. One 1"×10.5" roll, 2.0 oz.

#4558 \$6.00

TEAR AID HIGH-STRENGTH VINYL PATCHES

This stuff repairs holes and rips on pretty much anything, including rubber, neoprene, plastic, steel, fiberglass, etc. No messy adhesives—

simply peel & stick. Resists UV rays and won't turn gummy in high heat, or brittle in the cold. Stretchy. Includes a couple of alcohol prep pads. 3"×5' roll. Specify type: "B" for vinyl, or "A" for all other materials.

#4653 \$24.00

INDUSTRIAL DOUBLE STICK TAPE

Amazingly aggressive sticky tape! Extremely sticky adhesive that replaces all other double sided mounting tapes and fixatives. Non-hardening and permanently flexible. Holds incredibly strong. Yet easily removed when no longer needed and leaves no residue behind. Industrial strength technology developed for the automotive and movie industries, but re-engineered for consumer use. Comes in a very cool metal tin, about the size of a hockey puck, that is kind of old timey and will be of use long after the tape is gone. .5" wide × 20' long.

#4741 \$18.00

BARGE CEMENT

Odd of name and unusual in its effectiveness, Barge cement is a powerful contact-type cement that is a traditional cobbler's staple. So it's great for sticking soles back on boots, and just about anywhere else two flat surfaces need to be re-connected in a durable, weatherproof manner. Great stuff. 2 oz. Tube.

#758 \$7.00

QUIKSTEEL EPOXY

Wonderful stuff. Especially if your gas tank or crankcase has had its integrity compromised miles from anywhere. A high strength epoxy that activates when kneaded, it goes from putty to steel-hard in 15 minutes. Contained in a plastic tube. An inexpensive, high-tech material that takes up no room and could be a real ride-saver. 4.1"×1.1" 2.2 oz.

#759 \$6.00

QUIKALUMINUM EPOXY

When you're miles from nowhere, this stuff is a blessing for emergency repairs on all aluminum parts, such as broken clutch levers, mounts, etc. Whatever your misfortune, this kneadable, quick-curing-to-rock-hard putty will get you back on the road home or to the nearest repair shop. 4.1"×1.1" 2.5 oz.

#4559 \$7.00

J-B STIK WELD

A hand kneadable, steel-reinforced epoxy putty adhesive/sealant that will plug holes and make permanent repairs on wet and dry surfaces. It can be drilled, sanded, filed, tapped, machined, and painted. This Herculean-strong putty cures in 20–30 minutes, even while completely submerged under water or gasoline(!). Just pinch off as much as you need. 2 oz.

#4961 \$6.00

AEROSTICH MOTO SURFACE CLEANER & DEGREASER

A stronger motorcycle cleaner that works better on oil, dead bugs, and packed dirt than the all-purpose spray cleaners found in grocery stores (Simple Green, etc...) It doesn't attack aluminum and painted surfaces or leave residue stains like some motorcycle cleaners. The Moto-surface cleaner is strong enough to be truly effective, but mild and safe on your bike's finish. It's also more cost-effective...about a third less than imported cleaners.

The industrial strength pre-wash detergent formula is specifically made for cleaning and/or degreasing. This stuff can safely be used on plastic, paint, aluminum, vinyl, rubber, fiberglass, battery terminals, and surfaces of all types. The expected spray head is an Owens Brockway Trigger Sprayer, the best adjustable squirter available. Contains an earth friendly blend of water soluble surfactants and no alcohol, oils, ammonia, or phosphates. It is both non-abrasive and biodegradable. Less harmful than a pressure washer. Less work than a soapy bucket. 

1L Cleaner #4596 \$7.00
.8L Degreaser #4696 \$7.00

NOVUS POLISHES

Handy for removing that annoying scratch that is right in the exact spot your eye wants to look though. No. 1 cleans, shines, and protects all plastics. No. 2 removes fine scratches from most plastics. No. 3 removes heavy scratches from most acrylics. 

No. 1 (2 oz. Bottle) #3553 \$4.00
No. 2 (2 oz. Bottle) #3554 \$4.00
No. 3 (2 oz. Bottle) #3555 \$5.00

All 3 Polishes **SAVE \$3.00** (Three 2oz. Bottles) #3556 \$10.00

SIMICHROME POLISH

Simply the finest all-metal polishing paste anywhere! Excellent for aluminum, chrome, steel and other metal surfaces. Produces a rich, brilliant shine on any uncoated metal surface. Leaves an invisible, protective coating to prevent tarnish and help keep the shine longer. 1.76 oz.

#2700 \$13.00

SCRUBS

Deep cleaning, antibacterial Scrubs remove grease and grime from the dirtiest hands with powerful cleaning agents in a non-scratching, non-abrasive, disposable hand towel. Keep one or two on your bike and a few with your tools, so that the next

time you are stuck fixing something dirty you can clean up afterward...which can be almost as satisfying as being able to fix the problem in the first place.

Pack of 5 (Individual Single Use Packets)
#4565 \$3.00

PROTECTALL SURFACE CARE

Simply the best of the "all-in-one" cleaner, wax and polish products. Great on paint, chrome, fiberglass, Plexiglas windscreens, helmets and visors, leather and more. Advanced non-abrasive formula is easy to apply, dries clear and finishes with a fresh lemony scent. Polishes to a lustrous showroom shine and protects with Carnauba Wax and UV blocker. Beautifies all surfaces quicker and easier than ever thought possible. Incredible on helmet face shields and windshields. A long-time favorite. 

16 fl. oz. Spray Bottle #4796 \$17.00

PLASTEX REPAIR KIT

Powerful and stinky stuff that will repair plastics in tough situations. You get two components; a powdered gap-filling material and an aggressive solvent that fuses the whole works together for an effective bond. Plastex is particularly handy for dealing with the enchantingly brittle "plastic" often found on faired motorcycles. Not to mention those little tabs that like to break off...Sticks to just about anything short of polypropylene or polyethylene. An effective and permanent repair product. Clear. 10 mL. 

#4576 \$19.00

TWINMAX CARB AND INJECTOR SYNCHRONIZER

A step beyond commonplace mercury 'carb sticks', this device sports digital accuracy and no moving springs or diaphragms. Powered by an included 9 volt battery, the TwinMax is suitable for both carbureted and fuel-injected engines of 2, 3, or 4 cylinders. A very easy to use and useful shop tool that you'll have fun with the first time you use it. 4.25"×3"×1.5". For bikes without vacuum synch ports one 5mm threaded adapter per cylinder is required.

#4543 \$119.00
Adapter (each) #4572 \$7.00

ADAPTER

EZ BRAKE BLEEDER

Ensures that you'll get ALL the air out of a clutch or brake system by allowing you to inject clean fluid into the bleeder valve, thus forcing air upstream where it bubbles out the master cylinder. Includes bleeder valve adapters, a fitting for bench bleeding master cylinders, storage container and easy to follow instructions. 

#4979 \$24.00

CLAMPTITE TOOL

A nifty tool with a veritable googolplex of uses that no gear kit should be without. Use it for a fix on almost anything that's loose or broken: a blown hose, a loose/cracked fender, etc. Wraps stainless steel wire into a tight hose-type clamp. When you're miles from nowhere, and the unexpected happens, you'll be glad you've got one of these. Small, strong, easy to use and takes up hardly any space. Includes great instructions. 4.75"×7", 3.6 oz. 

Clamptite Tool #4913 \$69.00
Wire (.041 Stainless Steel, 50 ft.)
#4921 \$14.00

SPEED BLEEDER

Bleed your own brakes reliably and inexpensively. This ingenious bleeder screw uses a patented screw enabling you to get the job done correctly without the aid of a helper. Call or see website to match the right bleeder for your bike. Generally, Yamahas and Hondas use #4967, Suzukis

use #4969, Kawasakis #4968, BMWs before 1996 #4964, 1996 BMWs and after #4964 (front) & #4970 (rear), Ducatis #4964, and Moto Guzzis #4964 or #4967.

M6×1.0/1.13"* #4970 \$8.00
M7×1.0/1.19"* #4968 \$8.00
M7×1.0/1.38"* #4969 \$8.00
M8×1.25/1.28"* #4967 \$8.00
M10×1.0/1.28"* #4964 \$8.00

*(Thread Pitch / Overall Length). Thread pitch is designated by the major thread diameter followed by the number of threads per millimeter. Ex: the thread pitch 'M6×1.0' is 6mm in diameter and has 1 thread per millimeter.

GAS LINE QUICK-CONNECT

This is a neat way to get the gas tank off quickly without yanking fuel lines off of carbs or petcocks or wrestling with hose clamps. The o-ring gas line connectors

are also rated ok for use on fuel injected motorcycles. Can also make refueling your multi-fuel camping stove less messy. Has a Viton ring for dependable sealing and will withstand all types of fuel, due to its construction of high-tech nylon.

1/4" (ID Fuel Line) #3572 \$16.00
5/16" (ID Fuel Line) #3573 \$16.00

MOTORCYCLE ELECTRICAL SYSTEMS

Explains in plain English the principles behind electrical systems and how they work – and how to test, evaluate, and troubleshoot your gremlins. A very helpful, detailed, well-written and concise guide for the weekend mechanic and experienced professional alike. By Tracy Martin. Softbound, 8.25"×10.5", 151 pp., b/w & color illus.

#5923 \$24.00

THE ESSENTIAL GUIDE TO MOTORCYCLE MAINTENANCE

An amazingly clear and well produced work. From the basics including the way engines function to routine maintenance such as fluid changes, to checking and truing spoked wheels, as well as rebuilding a clutch and diagnosing electrical faults, this book delivers in a concise and usable way that will make it ideal for the rider interested in maintaining (or at least understanding) his mount and what's involved in keeping it running in the best condition possible. By Mark Zimmerman. Softbound, 8.25"×10.5", 256 pp., color illus.

#5815 \$29.00

MOTORCYCLE BASICS TECHBOOK

From the basics, like the difference between a two and a four stroke engine, to more complex issues such as single and three-phase alternators. This book gives a fine introduction and guide to just what's going on below you when riding. Over 400 illustrations. By Matthew Coombs and Haynes Publishing. Hardbound, 8.25"×11", 164 pp., b/w illus.

#5816 \$39.00

MOTORCYCLE OWNER'S MANUAL

Not a brand-specific manual but very concise and informative. A good book for those with questions on bike maintenance who don't necessarily want to get assailed with forty opinions on how to unscrew a bolt. Ideal for new riders or those who want to get involved in their bikes' maintenance. By Hugo Wilson. Softbound, 5.75"×8.25", 112 pp., color illus.

#3717 \$10.00

MOTORCYCLE WORKSHOP PRACTICE TECHBOOK

If you'd like to get more 'hands on', but are unsure where to start, this book provides a terrific amount of information on standard techniques used when repairing, overhauling, and fabricating parts. This excellent publication clearly demystifies the processes and methods used by mechanics. Stop reaching for that bigger hammer and see how it's done properly. By John Fidell and Pete Shoemark. Hardbound, 8.25"×11", 143 pp., b/w illus.

#5810 \$39.00

MOTORCYCLE ELECTRICAL MANUAL

If you've ever been curious about the sparky bits on your scooter, this book is a great reference. Starts with the basics at electron level and explains everything from Lucas magnets (this is a British book, after all) to today's electronic ignitions, ABS and traction control. By Tony Tranter. Softbound, 8.25"×10.5", 252 pp., b/w & color illus.

#5734 \$39.00

HOW TO SET UP YOUR MOTORCYCLE WORKSHOP

This comprehensive manual contains a wealth of ideas for setting up your 'ultimate' workshop. If you are wanting to get into restoration, customizing, or just doing routine maintenance on your own bike, you'll find lots of ideas here. Profiles of typical shops are included also, so you can see how the pros do it, and incorporate different aspects into your own shop. By C.G. Masi. Softbound, 8.25"×10.5", 176 pp., b/w illus.

#5814 \$24.00

RACE TECH'S MOTORCYCLE SUSPENSION BIBLE

The definitive bible on the best ways to have a better riding and handling machine. Troubleshooting instructions for dirt, street and supermoto provide a solution for virtually every handling problem. In a short time you'll have a terrific understanding of one of the most misunderstood aspects of motorcycle performance. Will inspire you to make your bike handle like a pro's. By Paul Thede and Lee Parks. Softbound, 8.25"×10.5", 256 pp., color illus.

#5995 \$34.00

TITANIUM COMBINATION WRENCHES

At less than one quarter the weight of standard steel wrenches, these strong and extremely lightweight tools are perfect to shave weight from the average bike toolkit.

The titanium alloy will never rust or corrode and the ergonomic handle design makes 'em easy to hold and use on the road-side or trail. Available in 8mm, 10mm, 12mm, 13mm, 14mm, or a four wrench set that includes a sturdy nylon tool wrap.

FOUR WRENCH SET

8mm #3694 \$20.00
 10mm #3695 \$25.00
 12mm #3696 \$34.00
 13mm #3697 \$41.00
 14mm #3698 \$43.00

4 Wrench Set (8mm, 10mm, 12mm, 14mm) #3699 \$112.00

METRIC INDUSTRIAL GRADE DELUXE MINI-RATCHET

Superlative quality and construction, this 28 pc. mini-ratchet kit includes a comprehensive selection of bits and extensions, all contained in a compact case. The ratchet is capable of 400 inch-pounds of torque, and only needs a 12 degree arc to "click," so it can be used in very tight places. This is a tough little wrench set that will last for years, and it may also get you home. Lifetime warranty. 9 hex bits (1/16", 5/64", 3/32", 7/64", 1/8", 9/64", 5/32", 3/16", 7/32"); 4 "6 spline" bits (T10, T15, T20, T25); 5 slotted bits (#2, #3, #4, #5, #8); 7 metric hex (#2, #2.5, #3, #4, #5, #6, #8); 2 Phillips (P1, P2); and 1 Reed + Prince. 4.75"×2.9"×1.4", 13.3 oz.

#3580 \$72.00

DESIGNATED DRIVER

This is a functional and clever tool that is built to last a lifetime. Using standard hex bits, the Driver has a machined aluminum body with holes to hold extras, which are held in with a friction material. The drilled handle also allows use of the included extension as a "cheater" to increase leverage. Includes five bits: Phillips (#2 (two) and #3) and slotted (3/16" and 1/4"). 3.9"×9", 5 oz.

#4532 \$20.00

METRIC MINI T-HANDLE SET

Compact for use in tight spaces, this is a versatile and easy to carry tool set. Use the T-handle drive for maximum leverage and the shaft drive end for quicker bolt installation/removal. The 1/4" drive has a compact 6" shaft length and works with sockets, hex drives, crow's foot and swivels. Durable chrome-vanadium steel and nickel-pewter finish. Includes 8, 10, 13 & 13mm sockets.

#2880 \$19.00

METRIC LONG T-HANDLE SOCKET SET

A T-handle wrench like pros use, but with the added versatility of removable sockets, enabling one to always fit the bolts on a given bike. Comes with 8, 10, 12, and 13mm sockets, but any 1/4" socket will fit. 7.75"×4.6"×0.6", 8 oz.

#4620 \$22.00

METRIC AXLE WRENCHES

A compact, lightweight and easy to carry wrench featuring a 6-point design for a secure grip on axle nuts, with dual sized ends to fit both front and rear axles.

17mmx24mm #2896 \$19.00

17mmx27mm #2897 \$19.00

22mmx27mm #2898 \$19.00

32mmx22mm #2899 \$19.00

ALL SCREWS ARE NOT THE SAME

The screws on Japanese motorcycles are made to the Japanese Industrial Standard (JIS), which is a more precise, squared angle tip when compared to the more rounded profile of a traditional Phillips® driver tip. Avoid cam-outs and stripped or damaged screws when wrenching on your Japanese bike by investing in a set of drivers with JIS cross-points. Makes a world of difference for precision screwing and less frustration from slipping and stripping.

JIS & SLOTTED HIGH-SOFT MAGNETIC DRIVER SET

Assortment of six really nice JIS drivers, perfect for any repair or restoration project. Includes #1, 2 & 3 JIS Cross-points and 5.5, 6.0 & 8.0 mm slotted drivers. Magnetized tips. Set of 6.

JIS #2952 \$75.00

JIS & SLOTTED TANG-THRU DRIVERS

These drivers are ready for hard duty with a special hardened steel shank and tang-thru design. Hard resin base with a softer covering for a comfortable grip in your hand. Available in JIS Cross-points and slotted drivers, in three shank lengths.

JIS #1×75mm #2957 \$12.00

JIS #2×100mm #2958 \$13.00

JIS #2×150mm #2959 \$14.00

Slotted 5.5×75mm #2960 \$12.00

Slotted 6.0×100mm #2961 \$13.00

Slotted 6.0×150mm #2962 \$14.00

JIS CUSHION GRIP DRIVERS

Wide 1.25" cushioned bulb handle is easy to grip and twist. The tang-thru design makes it incredibly durable and the magnetized blade is handy for retrieving a dropped screw from the dark crevice of inevitability. JIS cross-points, available in two tip sizes (#1 & #2) and four lengths.

JIS #1×75mm #2953 \$12.00

JIS #2×100mm #2954 \$13.00

JIS #2×150mm #2955 \$14.00

JIS #2×200mm #2956 \$15.00

JIS PRECISION DRIVER SET

Nice compact driver set, ideal for very small screws of cameras, glasses, small electronics and much more. Special hardened steel blades fitted into swiveling polypropylene resin body for easy fingertip use. Includes 1.27, 1.5, 2.0, 2.5mm Hex, #0 JIS & 2.5mm slotted drivers. 4.4"×.47" each. Set of 6.

#2967 \$45.00

T-WAY

REPLACEABLES

FIX IT STICKS

Small, portable multi-tools with the versatility of their full-sized counterparts. Modular design allows for a flat, compact carry with snap together T-wrench functionality when needed.

The more compact **Replaceables** tool uses two interlocking steel body pieces that provide excellent leverage and accept any 1/4" bit. Includes 8 interchangeable bits (2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm Hex, Torz 25 & Phillips #2), which are held securely in place with strong neodymium magnets. A great on-the-road repair tool.

The **T-way** Wrench features a durable, dedicated T-handle design that is perfect for heavy-duty shop-use, but light and portable enough to bring on the road. With replaceable bits on three ends, amazing leverage, and exceptional reach, this is one tool will meet many repair needs. Includes 7 interchangeable 1/4" bits (2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm Hex, Torx 25), all securely held in place by magnets.

Replaceables #2201 \$35.00

T-Way Wrench #2202 \$29.00

VERSATOOL

A compact, sturdy, stainless steel foldable wrench for low or high torque applications. Equipped with a 1/4" drive, so you can use your favorite sockets and extensions. Includes a hex-tool adapter and extension, and an eleven bit holder containing flat, Phillips, and Allen drivers. Everything travels in a zippered nylon storage case. 4.25"×3.25"×0.5", 6.9 oz.

#4618 \$14.00

MP TOOL

This compact, durable wonder will solve any number of fastener issues when you are a long ways from your roll-around toolbox. Fits 8, 10, 12, and 14mm bolts, #2 and #3 Phillips screws, small and medium flat head screws, and a reversible 1/4" and 3/8" adapter for the included 10 and 12mm sockets. Sturdy and very compact. 5"×2.75"×1.5", 12.6 oz.

#3527 \$58.00

JIS 4 WAY OFFSET DRIVER SET

You'll notice the difference the first time you use this tool. Remove stuck and frozen screws easily, and torque down JIS phillips screws fully and neatly. It will become your go-to screwdriver the first time you use it. Bits included are 2.5, 3, 4, and 5mm hex drivers, as well as Phillips #1, 2, and 3, 4.5, 5 and 7MM flat Drivers. 4.5"×1.75"×.75", 4.5oz

#4531 \$24.00

OUTBACKER MULTIWRENCH

This motorcycle-optimized folding design has four hex keys: 3/4/5/6mm; both slotted and Phillips screwdrivers, a 1/4" socket driver with 8/10/12mm sockets and three (6/6.3/6.4mm) spoke wrenches. Any tool can be used with all the others folded inside the handle, and all tools are heat treated vanadium or carbon steel. Only 3.5" long and weighs only 9 oz.

#4598 \$20.00

JIS 46-PIECE PREMIUM METRIC TOOL KIT

(TOOLS INCLUDED)

A high quality Kit developed by an obsessive noto-enthusiast engineer with over 45 years of experience. Includes a uniquely better (...and patent-pending) sparkplug socket tool (13/16", 18mm, and 16mm sizes) that makes even the hardest-to-reach plug easy work, and much more.

Wrench T-Handle is also unique with a magnetic Hex end for the included range of JIS Bits and Sockets. The Ratchet features a 1/4" driver on one side and a magnetic Hex-end on the other which also fits all included JIS, Hex and Torx/Star Drive bits. Includes 3/8" and 1/4" drive adapters, too. The knurled thumb wheel wrench has a magnetic collar to hold fasteners securely so you can go from hand-screw-in to fully tightened in a continuous move...even upside-down. The six included hand wrenches are also better: Boxed and Open with the same size at each end. Rare today.

A magnetic area on the case's top flap secures small parts during roadside repairs, and the whole thing rolls closed from both ends with it's T-Handle tool and the magnetic patch in the center to insure everything is protected. There's a little space left for a few of your own items, too. Superior lifetime-quality tools. Black or Hi-Viz Cordura roll. 8"×5". 

#2974 \$150.00

COMPACT METRIC TOOL KIT

A major upgrade from the worthless bits that probably came with your bike. Quality tools at a reasonable price, including PowerDrive, combination wrenches and a host of other essentials. Includes 10mm & 12mm open and box end wrenches, 8" power drive wrench, cable ties, safety wire, lubricant, spark plug wrench, Allen wrenches, tire pressure gauge, screwdriver and even a shop towel. Replacing or supplementing the OEM kit with one of these will make a difference during any roadside, garage, or trailside adjustment or repair.

(TOOLS INCLUDED)

#4739 \$40.00

(TOOLS INCLUDED)

17-PIECE METRIC TOOL KIT

Designed specifically for metric vehicles, includes: Open ended wrenches: 11, 12, 13, 14, 16 and 17mm sizes, 10mm combination wrench, 6" adjustable wrench, 3/8" drive ratchet wrench, Locking pliers, Pen type tire gauge, 5 cable ties, Electrical wire and electrical tape, Mechanic's safety wire, 10-piece metric hex key set (1.5, 2, 2.5, 3, 4, 5, 5.5, 6, 8 and 10mm sizes), Flashlight, 6-in-1 screwdriver, 21 and 18mm spark plug sockets and Spark plug gap gauge all neatly backed in a sturdy nylon tool bag.

#2948 \$65.00

25-PIECE PROFESSIONAL METRIC KIT

Contained in a compact Cordura roll-up pouch, this kit contains the following high-quality tools: 8mm-14mm combination wrenches, 8" adjustable wrench, drive ratchet with extension and sockets, four-bit screwdriver, four hex keys, double hex 5/8 & 13/16 spark plug socket and breaker bar, flashlight, tire gauge, electrical tape, zip ties, mechanics wire, Loctite and WD-40. A professional-quality, complete tool kit. 9.5"×3.34" (rolled), 3 lbs.

#4988 \$85.00

AEROSTICH TOOL ROLL

A classic biker's tool roll, made-over modern with smarter pockets and pouches. You'll clean out your tool kit and still end up with space to spare in this bag. Three large hook & loop pouches + 20 smaller pockets for wrenches & screwdrivers. Heavy-duty elastic retainers keep everything in place. Folds and rolls into a nice, compact unit. Extraordinary stitching quality. Perfect inside a tool pouch or saddlebag. Cordura. 25.5"×21.5" (unrolled), 11"×3.5" (rolled), 9 oz. 

#4670 \$45.00

(TOOLS NOT INCLUDED)

KRIEGA TOOL ROLL

100% Cordura with YKK zipped mesh pocket, loop closure, water-resistant clip, key clip and 30 elastic loops to securely hold tools. 21"×8.75" (unrolled), 8.75"×6" (rolled), 8.6 oz.

#9164 \$35.00

(TOOLS NOT INCLUDED)

KNIPEX ADJUSTABLE WRENCHES

The best of their kind. By far. Perfectly sized for keeping in a rolled MC tool kit. These go beyond the rest with better design features and faultless metallurgy. A push button quick-adjust slide mechanism gets the jaws sized fast with one hand, and cushioned grips let you apply more force. The Python's flat jaws are designed specifically for use on nuts. The unique locking slide adjustment jaw minimizes damage to bolts and fasteners. Spreads far enough even for oversized steering stem nuts. The Cobra (7.25"×1.5"×0.5", 6.1 oz.) is oil-hardened 60 HRC steel. The Python (7.75"×1.75"×0.6", 8.7 oz.) is nickel-plated chrom vanadium steel.

Cobra (Box-Jointed) #3505 \$42.00

Python (Flat) #3509 \$65.00

25-PIECE BMW METRIC TOOL KIT

Modern BMWs don't come with many tools, but things still go wrong sometimes, and when they do, having a few tools may help keep you going. This kit includes top grade wrenches, hex keys and other specialized tools that are sized to fit the stuff on every Bavarian made bike. Sturdy roll-up pouch keeps tools neat and organized.

#4738 \$115.00

(TOOLS INCLUDED)

AEROSTICH CANTILEVER WHEEL BALANCER

Avoid the expense, downtime and trouble of scheduling tire changes at a shop and gain the satisfaction of knowing the job was done perfectly (and is ready just when you need it). With this balancer and a couple of tire irons (plus a bead breaker for tubeless tires) anyone can get a precision balanced tire in a few minutes.

Method: Slowly spin, mark the low spot, repeat, add (tape it on) a temporary weight, spin, mark, repeat, re-weight, spin, repeat, etc... When wheel always stops at random points, securely attach the required weights and the job is finished. Ultra-low friction bearings make the process very sensitive to the smallest change in weight for super accurate results. Finely finished cantilever frame is easier to use than a conventional stand: lock the axle to your wheel and set the bearings into the saddles on the stand.

The balancer uses larger bearings for maximum sensitivity and durability, and features a stronger and stiffer frame that doesn't flex or vibrate, and which provides more stability. This stand's removable axle design also allows for more compact storage.

Optional cup and cone type adapter fits most wheels used on single sided swing arms. 14mm axle also allows use of standard BMW Paralever wheel adapters (available from BMW). Strong frame and a durable gray powder coated finish make this a valued shop tool that will be a pleasure to use for years. Measures 18"×20.5"×10". 10 lbs. Save time and money while getting the satisfaction of doing it yourself. Definitely a nice balance. 

Cantilever Wheel Balancer #4744 \$147.00

Universal Single-Sided Swingarm Adapter #4748 \$57.00

STANDARD

UNIVERSAL ADAPTER

WHY A CANTILEVER WHEEL BALANCER?

A few years ago legendary Harley Davidson flat track tuner Bill Werner (...see the AMA Hall of Fame) bought one and later reported: "Someone's finally come up with a better, smarter tool for balancing wheels. It's great!"

FEATURES

- Strong, lightweight frame, powder coated finish.
- Two shielded precision ball bearings with lightweight lubricant for ultra low arbor starting torque
- Larger bearings for maximum sensitivity and a stronger stiffer frame than others. Doesn't flex or vibrate.
- Unique removable axle design makes the job easier: Insert the axle, tighten the cones and set the combined assembly onto the stand.
- Removable axle design also allows for more compact storage.
- Aluminum bearing adapters fit most motorcycle wheels with bearings in the hub, 17 to 30mm ID
- Optional universal adapter fits most wheels used on single sided swing arms
- Save money and ensure your wheel balancing is done correctly

AEROSTICH EASY BEAD BREAKER

For motorcycle wheels that are open in the middle (regular or cast spokes). It's also packable, but it is really a little larger than most riders will want to carry. Ideal for garage workshop use. Adjustable for all sizes of wheels/tires. 17.5"x2"x2", 4.5 lbs.

#3686 \$87.00

BEAD BREAKER LEVERS

Lightweight enough to pack on the road, this patented tool breaks tubeless tire bead, easily. Small, portable set made from forged Aluminum. 11"x4"x0.7". 9oz. The longer, heavy-duty shop version is made from forged steel. 16"x1.8"x0.9". 32 oz.

BeadPro #2765 \$75.00
BeadPro FS #2970 \$55.00

BEAD POPPER

This lightweight resin wedge combined with a big heavy rock (or other improvised bludgeon) will do the same job as a bead breaker. Simple but effective, and somehow satisfying. 7"x3"x1". 4 oz.

#2583 \$20.00

BEAD BUDDY

This handy little tool helps push the bead down into the rim and keep it in place while changing a tire. Won't mar or damage rim. Lightweight aluminum and nylon. 2.25"x1"x.625", 1 oz.

#4938 \$12.00

RIMSHIELDS

Big, beefy rim protection is what you get from these durable, oversized nylon rim savers. Real protection from potential damage caused by tire levers during changes, the raised beads facilitate inserting the lever under the bead and prevent slipping. The long apron protects hands and spokes, while the sizable finger holds make repositioning a breeze. Made with rugged DuPont Zytel® material for unmatched toughness and durability. (5.75"x4.5"x.5"). Set of 2.

#2425 \$15.00

COMPACT WHEEL BALANCER

Perfect for conserving storage space in racetrack vans and small garages, this tool balances wheels precisely but doesn't take up much room when not in use. Beautifully machined aluminum pillow blocks hold low friction bearings and rest perfectly on any two chairs, stools or garage jack stands: voila! A fast, accurate wheel balancer. 1.5 lbs.

7" or Less Rear Wheel (Universal, Goldwing and double-sided swingarm bikes) #4605 \$105.00

Single Sided (BMW '85 and Newer) #4606 \$105.00

7" or Wider Rear Wheel (Buell, FZ-1, Hayabusa, and Harley) #4645 \$115.00

BMW Front Axle Removal Tool #4737 \$25.00

BMW R & K ADAPTER

Fits all R and K model bikes from 2004 on (with the exception of K1200LT).

#4801 \$35.00

BMW STYLE PARALEVER CONE

Fits all single sided BMW wheels up to 2004 models.

#4800 \$25.00

FLAIG TIRE GAUGE

German-built and calibrated to 1% of scale value per DIN spec 74720, this gauge is ruggedly constructed with an aluminum shell, rotatable/resettable 60 psi dial bezel, and a release button to record pressures. If you are critical about your tools (and your tires), this is your gauge. Superlative. 4.5"×2.9"×0.9", 4.7 oz.

#4603 \$52.00

DIAL TIRE GAUGE

The 2.5" dial reads to 60 psi with a swivel angle chuck and an air release valve. Accurate, easy to read and inexpensive. Toss it into your kit or leave it by your daily gear out in the garage so it will be handy. 4.5"×2.4"×1.25", 5.9 oz.

#4652 \$15.00

ACCU-GAGE

This easy-to-read and accurate 2" dial gauge features a full geared precision movement with bronze Bourdon tube and rubber shock absorber. Swivel end for easy positioning around brake rotors. Measures 0–60 psi. 17.25"×2.5"×1.25", 9 oz.

#2513 \$25.00

DIGITAL SMART GAUGE

This digital tire gauge is great for storage and carrying. The ergonomic shape provides an easy view of the LCD display. It's accurate to half a pound, simple to use, and it beeps. Fits

Presta and Schrader valves (which is great if you also ride a bicycle). Battery included. 3.4"×2"×1.1", 4.1 oz.

#2530 \$35.00

PENCIL GAUGE

This solid metal stick/pencil gauge reads 10–50 psi on a 4-sided indicator bar, and features a pocket clip—just like the good old days. Small, light, and surprisingly accurate. "Check the air, ma'am?" 5.75"×.6"×.5", 1 oz.

#3550 \$5.00

FLEXIBLE NITRILE GLOVES

These tough, yet lightweight mechanics gloves fit like a second skin and wear like iron. Air-infused nitrile palm-coating for exceptional grip on oily surfaces. Shaped to be über flexible, comfortable and extremely durable. When the dirty part of the job is done, these digit protectors are machine washable too. Gloves have a smooth black coating and are suitable for abrasive work. Black. M, L, XL.

Nitrile 380 #1401 \$6.00

DISPOSABLE MECHANIC GLOVES

These nitrile gloves were designed specifically for mechanics, and they feature textured fingers and palms to make it easier to handle slippery parts. Powder free and tear resistant, are a toolbox must for dirtiest jobs. Nitrile is much more resistant to chemicals than latex and these actually fits better the longer you wear them. One Nitrile glove fits either hand, so there's no need to screw around with which glove fits what. Black. L or XL. 100 pack.

#1451 \$24.00

COMPACT VALVE CORE TOOL

Ultra compact and effective as a tire deflator and core removal/installation tool, this fits anywhere and does the job when needed. Knurled for ease of use. Simple, tiny, and effective. 1.1"×0.5", 0.7 oz.

#4616 \$4.00

WORKSHOP VALVE CORE TOOL

A compact tool manufactured from steel hex stock for the removal and installation of valve cores on either tubed or tubeless tires. Inexpensive and durable. 2.75"×0.4", 1 oz.

#4615 \$5.00

REUSABLE BALANCE WEIGHTS

A simple, re-usable wheel balancing solution. Slide the CNC machined solid brass or nickel weights over the spoke and tighten a single allen set screw to the spoke nipple. Adjust the amount of weight and placement as necessary to achieve the perfect balance. Fits all sizes of spokes on today's bikes. A versatile balancing tool that contains no lead and is re-usable, making it an environmentally friendly option. Eight weights: two 1 oz., two ¾ oz., two ½ oz., two ¼ oz. Specify Brass or Nickel.

Universal Brass #3677 \$34.00

Universal Nickel #3678 \$38.00

BMW Only Nickel #3679 \$44.00

INNERTUBE VALVE STEM SNAKE

This useful valve stem guidance tool makes changing tires a breeze. Attach the threaded end onto the stem of a flattened tube, then pull the chain through the rim's valve stem hole and easily pull stem into place. A little tool that saves loads of frustration. 14.5" long.

#4990 \$27.00

NOLOSS VALVE CAP

These practical and well-made valve caps seat an O-ring to provide that final seal, and have flexible retainers that ensure you won't misplace them. Neat. Nylon version are fully compatible with the latest Tire Pressure Monitoring (TPM) valves made from aluminum. Brass (set of 4). Nylon (set of 5).

Brass (4) #4602 \$14.00

Nylon (5) #4770 \$15.00

ADHESIVE WHEEL WEIGHTS

Recommended inventory. Six 3 oz. strips in "snap-off" .25 oz. increments.

#3576 \$10.00

WHEEL CRATE

Industrial/commercial grade heavy-duty, and perfect for holding a wheel off the ground when leveraging its tire on or off the rim. 13"×13"×10.9", 2.5 lbs. 

#3585 \$15.00

SPARE TUBE FENDERBAG

This zippered Cordura bag is sized to fit one tube and a pair of tire irons. Compression strap design will not fall off the fender, and eliminates chafing. Black.

M (10"×4.5"×2.5") #916 \$20.00

L (11"×8"×4") #917 \$26.00

AEROSTICH TUBE/TUBELESS TIRE REPAIR KIT (W/ENGINEAIR POWER PUMP AND TIRE IRONS)

This over-the-top deluxe kit contains everything needed for workshop and roadside repairs. For tubeless tires, it comes with plug strips and patch/plugs, a rasp tool, and a needle tool. For tube tires, it has patches and a stitcher tool with a buffer and a wheel for securing the patch.

Two heavy duty steel or (ultralight titanium) tire irons, and a valve core tool are also included for removing the tire. And for refilling your tires, an Engineair Power Pump is included. The Engineair works with all multi-cylinder engines, and is designed to inflate tires using the engine's cylinder as an air compressor by threading into one of the engine's spark plug holes (18, 14, 12, and 10 mm adapters are included).

When your repair job is finished, a single use hand cleaner towelette is included. This kit has it all. Securely housed in a heavy duty zipper envelope. 10"×3.75"×2". Specify: Titanium (24 oz.) or Steel (34 oz.) Tire Irons.

Steel ⚙️ #4508 \$60.00
Titanium ⚙️ #4509 \$130.00

AEROSTICH TUBE/TUBELESS CO² TIRE REPAIR KIT

This is the ultimate compact emergency tire service kit. Packs small, and includes everything you need to make quality repairs on the road and refill your tires when you are finished. Includes cement, patches and plugs for repairing both tube and tubeless tires, a rasp and needle tool for installing the strip-type plugs into tubeless tires, and five 16g CO² cartridges with an adjustable air chuck that accepts a flexible valve adapter hose to refill your tires. For tube tire repairs, tire irons are needed to remove the tire from the rim (Aerostich Tar Arns (#3564), available separately). Zippered nylon pouch. 7"×4"×2", 18 oz.

⚙️ #4674 \$50.00

MOTION PRO ALUMINUM TIRE LEVER / WRENCH COMBO

These hard anodized, aluminum tools are box wrenches on one end and an efficient tire iron on the other. Remove both the axle and the tire with one tool. Wrenches are just under 10" long, less than 5 oz. and fit nicely in a tool roll.

12/13mm #2566 \$25.00
22mm #2567 \$25.00
24mm #2568 \$25.00
27mm #2569 \$25.00
32mm #2570 \$25.00

3/8" SOCKET ADAPTERS

Convert the Aluminum Tire Lever/Wrench Combo (or any other 24mm, 27mm or 32mm wrench) into a non-ratcheting 3/8" drive socket wrench. 0.9"×1.25". 1.8 oz.

24mm #2594 \$22.00
27mm #2595 \$22.00

AEROSTICH TITANIUM TAR ARNS

Conventional tire irons are plenty heavy, especially for something you seldom use, so we developed these high-tech supersonic aerospace versions to lighten your load and help you change tires in a swank, ultralight manner. Surprisingly there was quite a bit of trial-and-error and design detail work to get the exact best radiuses for the curved spoon ends.

Some irons make you fight with the job, but these work easily and make it harder to accidentally pinch a tube. One pair weighs only 6.4 oz., compared to 9-12 oz. for typical steel tire irons. Great for carrying on trips and for street, off-road, and dual sport riding. A super high-tech tool for a Stone Age job, these beauts are that rare combination of the exotic and utterly practical. 9.25" long. 3.2 oz each. Holder is a two-pocket neoprene sleeve.

Two Tar Arns #3564 \$97.00
Three Tar Arns #3594 \$127.00
Tar Arn Holder #2400 \$10.00

AEROSTICH MINI COMPRESSOR

This is the smallest, lightest compressor we carry and one of the most efficient you'll find for its size. This stripped-down mini fits in the palm of your hand and will inflate any motorcycle tire in a couple minutes. When a larger compressor is too much bulk to carry along, and CO₂ cartridges aren't nearly enough for your trip, this dedicated pump will deliver continuous pressure without fail. What it lacks in beauty, it makes up for in performance – which is what you really need when you're flat stranded in the middle of nowhere.

Has a nice long 26" inflator hose, 6' power cord, and packs small in included storage sack. Comes with three adaptors: SAE, cigarette lighter and alligator clips. Lock-down delivery valve fits all bikes. Also comes with carabiner clip, so you can attach the compressor to whatever you want out of the way and off the ground, instead of having it lay in the mud or dirt. Simple, compact, and dependable peace of mind. Pump is 3.5"×3.5"×.9". Packs to 7"×5"×3", 1.3 lb.

#3500 \$50.00

BMW Power Plug #116 \$20.00

ADAPTERS

STORAGE SACK

AEROSTICH COMPLETE TIRE REPAIR KIT WITH MINI COMPRESSOR

The ultimate compact tire repairification kit. Combines our smallest, most efficient compressor with all the essential tools, patches and goo needed to fix nearly any roadside flat. The whole kit zips up neatly into a handy nylon storage pouch and fits easily in a tank bag or pannier. Mini Compressor has a nice, long 26" inflator hose and comes with three power adapters: SAE, cigarette lighter and alligator clips.

The underside of the pouch also features four slim pockets allowing storage for a tire gauge, pen, flashlight or other small, handy items that can be added to enhance this kits versatility. Adding tire irons for removing the tire from the rim (Aerostich Tar Arns #3564, available separately), truly makes this a ride-anywhere tire repair kit. This is the smallest and most packable tire kit available. Black. 7"×3"×5.25". 1.61 lbs.

#4750 \$85.00

DYNAPLUG MINI PRO INFLATOR

The Mini Pro Inflator is compact, rugged, and easy-to-use. Includes dual purpose power cigarette plug and BMW Plug adapter that attaches to a hardwired 6.5' SAE power cord. Fully CANbus compatible. An important feature is the 3'+ recoiling air hose featuring a solid brass, Zero Loss inflation valve stem connector that attaches to valve stems without air loss. An "industry first" feature is the integrated Polarity Protection circuit that protects the inflator from damage if there's a reversed polarity hook up to a battery.

The easy-to-read, precision linear pressure gauge eliminates the need to purchase or carry a separate tire pressure gauge since the Mini Inflator provides professional PSI read-out's. Blue LED backlighting insures the gauge is easy-to-read during low light or nighttime use. The illumination is automatic when the Inflator power cord is plugged in and shines directly on the valve stem which makes inflating at night easier. Includes zippered storage bag. 2"×4.75"×5.75". 18 oz.

#4854 \$90.00

AERO STICH CO₂ POWER KIT

No matter where you are, this kit provides inflation. Five threaded 16 gram CO₂ cartridges, a control valve and a 3.5" flexible valve adapter hose, all store neatly inside a 5"×5" envelope bag.

#4760 \$24.00

ULTRAPLUS CO₂ INFLATOR

A compact unit that accepts both threaded and unthreaded CO₂ cartridges. The Ultraflate, will fit in the smallest tool kit, and will fill a tire in a hurry. A lever enables air delivery modulation for a controlled fill. Nose fits both Schrader and presta valves. Includes one 16g CO₂ cartridge. 7.8"×8.5"×1.5", 4 oz.

#4774 \$22.00

CO₂ AIR CHUCK

Inflate tires with threaded CO₂ cartridges. Works on Schrader and Presta valves. Includes 16g. CO₂ cartridge. 4.1"×1.6"×0.9", 3.5 oz.

#4506 \$18.00

THREADED CO₂ CARTRIDGES

One 25g #4585 \$12.00

Five 16g #4904 \$12.00

AERO STICH CO₂ EXPEDITION TUBELESS TIRE REPAIR KIT

Why get stranded? This kit allows you to do complete on-the-rim tubeless tire repairs in a jiffy with the included Pocket Plugger, and the also includes a valve adapter with CO₂ cartridges to refill your tire, so you can get back on the road quickly. The Pocket Plugger utilizes an included Allen wrench to turn an integral ram, which minimizes effort and securely seats the pre-lubricated plugs — no rubber cement is needed. Includes four 16g CO₂ cartridges, flexible valve adapter hose, Pocket Plugger, Wrasp, Reamer, and a collapsible blade. 7.5"×5.5"×2", 20 oz.

#4936 \$50.00

STOP & GO POCKET PLUGGER TUBELESS TIRE REPAIR KIT

Repair tubeless tires without removing them from the rim with this compact and effective kit. The Pocket Plugger insertion tool utilizes an included Allen wrench to turn an integral ram, which minimizes effort and securely seats the pre-lubricated mushroom-shaped plugs — no rubber cement is needed. Includes fifteen plugs, Pocket Plugger, Allen Wrench, Wrasp, Reamer, and a plug nozzle to set the plug. A collapsible blade is also included to trim installed plugs. 7.5"×3.5"×2", 12 oz.

#4604 \$35.00

ENGINEAIR POWER PUMP

An engine-powered air pump designed to inflate tires using one of the engine's cylinder as an air compressor. This premise is vaguely alarming but actually quite well thought out. A pump unit threads into one of a multi-cylinder engine's spark plug holes, and as the engine runs/spins, fresh, clean air is pumped into the tires.

This is completely safe for your engine and its ignition system. Pulls air from the atmosphere, ensuring no gas or oil fumes turn your Metzeler's into a Hindenburg wannabe. Kit includes a 60" quick-release air hose and 18, 14, 12, and 10 mm adapters for all spark plug openings. 12.5 oz.

#3570 \$30.00

CYCLE PUMP COMPRESSOR

Contained in a sturdy aircraft-grade aluminum case, this 12V pump inflates a motorcycle tire from flat in about 2 minutes. Pumps to over 100 PSI if needed. Fold-out legs increase stability and keep the unit out of the dirt. A 24" air hose and 8' power cord give plenty of reach. Add an optional 8' Autocord Extension for even more. Plugs in to any 12V SAE connection, via the included universal BMW/cigarette-socket power plug, or battery alligator clips. Everything fits compactly in a rugged storage pouch. 2"×4"×6" and 36 oz. 10A.

Air Compressor #4906 \$100.00
8' SAE Autocord Extension #4803 \$20.00

PATCHES

For tube tires. 6 patches and rubber cement.

#4511 \$6.00

POCKET PLUGGER PLUGS

For tubeless tires. 25 pre-lubricated plugs.

#4600 \$8.00

PLUG STRIPS

For tubeless tires. 6 plug strips and rubber cement.

#4510 \$5.00

ALLOY DRIVE M

A compact High Volume hand pump made entirely of custom CNC-machined aluminum for precise and lightweight construction. Overlapping handle and barrel with oversized piston and shaft are integrated into a compact design. Handle houses a removable 6.5" ABS flex hose that attaches easily and securely to the stem valve. Inflates tires to riding pressure with 30% fewer strokes, for faster inflation with less effort. Max pressure 90psi. 9"×1.25"×1.25", 4.5 oz.

#4773 \$45.00

MICRO FLOOR DRIVE PUMP

Floor pump power and function, packed into a compact, ultra-portable design. CNC machined aluminum construction quality and durability, and a high volume output make getting back on the road nearly effortless compared to the arm busting repetitions necessary with traditional hand pumps. Folding wire foot peg keeps the pump firmly in place while delivering air via a unique flip-tread chuck. 160psi. 11.5"×2", .6 oz.

#4743 \$45.00

DYNAPLUG TUBELESS TIRE REPAIR TOOLS

The most convenient emergency repair system, fixes 98% of all tubeless tire punctures. Load one of the brass tipped repair plugs into the stainless steel insertion tube, then pull the tool away and clip the plug end flush with tire. No need for tire removal or messy glues and patches, and it will not unbalance the tire.

The repair plugs and insertion-tube re-use cleaner and store neatly inside the durable, lightweight billet aluminum body of this powerful tool. What if you have a larger hole from—for example—a quarter inch bolt? Two or three of these special plugs, inserted side-by-side, work fine.

The 2 oz. Ultralite uses a silicone end-cap and includes 1-insertion tube and 4-repair plugs. PRO model features an all-aluminum waterproof body with 3-insertion tubes, clearing and air-stopper tools, 8-repair plugs and a polyethylene case. 3 oz. 3.8"×0.87".

Ultralite #4840 \$30.00

PRO #4841 \$54.00

Refill Plugs (5 per pack) #3641 \$10.00

SELF-TAPPING CARBIDE TIRE STUDS

Low-budget sheet metal screws bite fine into ice but grind away quick on paved surfaces. These sharp low-profile stud tips are made of corrosion-proof, super hard, abrasion-resistant tungsten carbide, ingeniously designed to allow most of the tire's rubber to stay in contact with clear pavement while providing increased traction over mixed snow or ice.

The best part is they're simple to install—the studs self-tap with the included bit that fits any power drill. Just mark your tire, screw in each one and you're ready to ride. Each set comes with an installation bit, instructions and 100 studs (50 per tire). More info on website.

Low Profile A (8.7×12.8mm) #4706 \$109.00

Low Profile B (8.8×15.7mm) #4707 \$109.00

Low Profile C (9×16mm) #4708 \$109.00

Off-Road D (9×17.4mm) #4714 \$109.00

Scooter A (6×8mm) #4719 \$109.00

Scooter B (7.9×9.3mm) #4720 \$109.00

Warning: Studded tires may not be legal in some jurisdictions. Check local laws.

Warning: Maximum studded tire grip on dry or wet pavement is reduced compared to non-

studded tires. Ride with care while learning the capabilities of studded tires.

TIRE STUDDING...

Tires provide traction/friction because at a microscopic level their surface deforms slightly to interlock with irregularities in a road's surface. Over-simplistically, in cold weather tire rubber gets harder so there's less interlocking going on, which means less traction/friction. "All-season" auto tires typically are made from slightly softer rubber to compensate.

When a stud is added to a tire for winter street riding, it needs to be short enough to allow the weight of the vehicle to press as much of the tire's rubber surface surrounding each stud against the road. If the stud is too long this will not happen and one ends up riding on the tips of the studs only — and this is very bad. There is almost no traction between the carbide tips of the studs and the road surface.

As a tire studded with short studs rolls, the weight of the vehicle forces the stud upward and into the tire, so most of the tire's tread rubber remains in contact with the road. But because ice is much softer than the road surface, whenever it is encountered the stud is pressed with enough force into the ice surface to chip out a little divot, providing some traction.

Obviously there is an optimum trade-off between how tall a stud should be above the tire's tread, and how soft the tire's rubber should be to maximize traction on both surfaces. Most winter tire studs intended

for use on paved surfaces seem to protrude about 1/8" (or a little less) above the tire surface. The scooter studs (#4719 and #4720) are about this high, and are what we recommend...but I've actually never built a tire with these studs.

I have made, purchased and ridden on several sets of studded tires, but they've all been for off-road ice and snow riding so the studs have been longer. I've used these studded tires on pavement for a few miles but only riding at slow speeds and very, very cautiously. It's a very uncomfortable feeling, even riding a light weight bike.

The studs that are most suitable for street use are the #4719 and #4720 and in some situations the slightly taller #4706. If I were building a set of tires for winter street riding, I might experiment with mixing these types. Maybe one row of the slightly longer #4706s down the center of the tire, spaced about an inch or two apart surrounded by the shorter studs on either side and in between? The studding arrangement would depend on the tire's tread pattern. And regardless of pattern and stud types I'd ride with caution until learning the gripping characteristics of my newly studded tires.

—Mr. Subjective 12-13

Photo: Amy Nystrom knows her studs. (2011)

RIDE YOUR MOTORCYCLE ON RIDE TO WORK DAY JUNE 15TH 2015 AND DEMONSTRATE:

- THE NUMBER OF MOTORCYCLISTS TO THE GENERAL PUBLIC AND TO POLITICIANS
- MOTORCYCLISTS ARE FROM ALL OCCUPATIONS AND ALL WALKS OF LIFE
- MOTORCYCLISTS CAN REDUCE TRAFFIC CONGESTION IN LARGE CITIES
- MOTORCYCLES ARE FOR TRANSPORTATION AS WELL AS RECREATION

Ride to Work is a non-profit organization that advocates the use of motorcycles for transportation, and provides information about transportation riding to motorcyclists and to the public. Support the cause by purchasing merchandise or becoming a member.

Frequently Asked Questions

CRASH AND ABRASION CONSIDERATIONS?

Compared to leather of the same weight and thickness, Cordura® nylon is a stronger material. But hides are thicker and heavier so they offer greater abrasion resistance.

We repair about twenty or thirty Aerostich garments a month. About a third of these were in crashes that produced some abrasion damage. Several common themes have emerged. Though Aerostich suits are not as abrasion resistant as racing leathers, they offer significant and useful protection, especially at typical street speeds.

Aerostich wearers often think of their suit as "sacrificial" in the same way a car's airbag gets used up by its deployment. These garments are lighter, cooler and easier to use in bad weather (etc...), but less crash-durable than leathers. On average, most street riders experience a crash or spill only at infrequent intervals. How gear feels and works during the intervening years of use and the tens of thousands of miles of riding is very important.

Most street crashes occur between 20 and 50 mph, not between 50 and 100. For each Roadcrafter suit that was in a 100 mph crash, we get dozens that need smaller repairs because the rider fell down at 35 mph. For these kinds of everyday spills, even the fanciest leathers do not offer protective advantages.

NYLON AND FRICTION?

Although we have not conducted tests comparing the friction coefficients of Cordura® suits to leathers on all pavement surfaces, we have collected a lot of information. We repair many crashed Aerostich suits, and most are damaged by sliding on all kinds of pavements. Some wearers (testers....?) had previous crash experiences with leathers.

Post-crash wearers typically comment that their Aerostich was "slipperier" than their old leathers. The consensus is that Cordura slides a little better and tends to roll and tumble the wearer somewhat less than leather. After studying hundreds of accidents, former Motorcyclist magazine editor and professional accident reconstructionist Gordon Jennings believed that more crash injuries (broken shoulders, etc..) were caused by tumbling than by the incrementally increased chances of hitting something due to sliding farther.

"NOT CE APPROVED" LABELS?

CE impact standards involve both energy absorption capability and armor shape and size. Aerostich TF armor does not match these European standards because of their shapes, not their energy absorption capabilities. In hard-shelled areas, TF armor tests better than most CE approved armor. Around its softer edges, it tests lower. (TF armor was tested at a CE lab in England and using a duplicate of the test apparatus here and TF pads were developed years before CE standards existed.) Because of this, TF pads allow comfort with various combinations of street clothing better than CE shapes.

Roadcrafter suits were the first riders garments in the world to use removable armor pad systems, and first to use an advanced energy absorbing material like TF. When we introduced TF armor, all protective garments, including road racing suits, featured sewn-in padding made from felt, foam rubber or other less effective materials. Legal Notice: These garments are not considered to be "personal protective equipment" as defined in or within the scope of, the personal protective equipment (EC Directive) regulations 1992 (S.I.1992/3139) and no liability will be accepted arising out of these garments non-compliance with such regulations.

DARIEN VERSUS ROADCRAFTER?

The Roadcrafter provides more double layers of fabric over a larger area than the Darien. These include the elbow/shoulder/knee areas of ballistics nylon and additional Roadcrafter pockets. On the other hand, the Darien is lighter and cooler to wear. Crash events most commonly occur between 30 and 70 mph. Within this range the Darien, DarienLight, RoadcrafterLight and Roadcrafter all provide useful abrasion protection. All three provide more than jeans and windbreaker jackets. Riders on powerful sport bikes will prefer the closer fit and greater protection a Roadcrafter suit offers. Roadcrafters are available in short, regular, and long, and Dariens are all regulars, so if you are extra short or tall, go with the Roadcrafter. Getting a good fit is more important than the functional differences.

MAIL ORDER SIZING AND FITTING?

We are experts at providing a great fit. We've talked to thousands of riders about their size, bike, local climate and personal riding applications. We use a questionnaire to help learn the right things, so you'll get the best fit with your Roadcrafter or Darien. Our most experienced associates do this successfully about 90% of the time. Every order is double checked for accuracy. Ordering factory direct gives you access to more sizes than are available elsewhere. The one piece Roadcrafter comes in twenty-five different off-the-rack standard sizes. Let us help you find the one that provides the most precise fit.

FITTING WOMEN?

Compared to men of the same height, women usually have slightly narrower shoulders, longer legs and arms, and slightly shorter torsos. Shoulder widths are also narrower. Roadcrafters and Dariens are looser fitting designs so about 60% of women find standard 'mens' graded Aerostich suits fit without alterations. Of the remaining 40%, about half will receive a good fit with one of the available women's graded sizes, or after minor sleeve/arm/gusset/etc., alterations. Fully tailor made garments are not available.

BUYING SIGHT UNSEEN?

Things bought by mail order can sometimes be dissatisfying. Smaller than pictured. Or cheaply made. Or somehow just-not-nice. Aerostich was established to pioneer textile riders clothing. The RiderWearHouse catalog was created to sell riding tools and riders gear that make motorcycling better. You will find goods made with quality, integrity, long service, a little fun... and real value. When you open your package, we want your order to be better than you expected. We want your business and value your trust.

MAINTAINING BREATHABLE FABRICS?

After the manufacturing process that bonds a breathable/waterproof membrane to Cordura fabric, a DWR (Durable Water Repellent) chemical treatment is applied that prevents water from being absorbed into the Cordura's fibers. If the Cordura fibers become saturated in wet conditions, this water forms a barrier causing vapor to condense on the inside surface. Over time and after extended wear, the original DWR treatment wears away and must be renewed. Periodically laundering gear with a wash-in treatment like Nikwax TX Direct®, or applying a post-wash water repellent product like Scotchgard® or Granger®, will insure that water beads and runs off the fabric, and that vapor will always be able to pass through, even in wet conditions. Maintaining the DWR also helps textile gear dry faster after being in rain.

CLEANING/LAUNDERING?

Machine washing is recommended. Remove the TF pads and the contents of all the pockets. Close all zippers. Use the regular wash cycle, and a "warm" water setting with mild liquid detergent. Run the complete wash/rinse cycle a second or third time with water only to remove any residual detergent. Machine dry at a medium temperature. Do not use anti-static products. Hook & loop fasteners pick up lint so avoid laundering with cotton towels. Clean hook & loop using a fine comb. Small stains can be removed using "spot cleaning" stain removal products. Citrus based cleaners work well for oil stains.

COLOR DURABILITY?

Weather and strong sunlight may cause some fading of fabric color dyes. Similar fading occurs in all types of clothing from leathers to blue jeans. This is normal wear and does not affect the strength, waterproofness or overall performance of textile garments. Red dyes show color loss fastest. Fading can be minimized by washing with milder soaps, drying at lower temperatures and occasionally re-applying a water and stain repellent or a UV inhibitor product like UV Tech®.

AEROSTICH

ONLY THE BEST

We use the best of materials to manufacture our products: Genuine YKK® Zippers. High quality hook & loop. Gore-Tex® breathable/waterproof fabric. Polartec® fleece, WINDSTOPPER™ fabric, etc. The Aerostich **TLE^{EC}**, **TLE^{EX}**, and **TF³** labels on some materials allow us to provide products free of outside restrictions. **TLE^{EC}** stands for 'Trademark License Technology' and identifies three thicknesses of the best polyester fleece. **TLE^{EX}** is short for 'Trademark License Textile', and it is an advanced and high quality breathable/waterproof laminate fabric.

NO DEALERS?

Our Aerostich gear manufacturing costs are close to the catalog prices, so there would be little profit for dealers and distributors. Expert service and handmade quality is the first priority. Using the best materials and methods costs more, but helps gear last longer and work better. Each Aerostich design prioritizes function and durability over ease of assembly. You are buying direct at factory direct prices.

AEROSTICH.COM

This entire catalog and more is accessible through our website. It features secure online ordering; additional products not in this catalog, closeout, overstock, and sale items; real-time live camera of our order-processing area; and helpful tips for buying and riding with our gear.

HELP US EXPAND OUR MAILING LIST

If your club or organization provides us with member names and addresses, we'll contribute an Aerostich gift certificate worth ten cents per name to the individual or organization of your choice. Each person on our mailing list receives an annual catalog and holiday flyer. We will not rent or sell your information, but we may share your information with cooperative databases.

CATALOG

To receive a copy of our catalog, please see our website: aerostich.com/catalogrequest or call 800-222-1994.

MONEY BACK SATISFACTION

If you are dissatisfied with any RiderWearHouse item or Aerostich product we will make it right. You may return your purchase for a full refund (or an exchange) within 30 days as long as everything is in the same condition that it was received. Products returned after 30 days are subject to a restocking fee. Send items insured and prepaid, please include invoice number and reason for return. Exchanges and returns are processed quickly.

PRICING AND DISCOUNTS

Aerostich provides a 10% discount to MSF instructors and to select OEM and motorcycle industry persons. These special prices encourage product placements that we hope will result in additional exposure for Aerostich gear. Rider-to-rider endorsements and referrals help introduce our products to potential customers.

SALE ITEMS

A weekly list of irregulars, returns, discontinued merchandise, closeouts, and sale items is available by e-mail. See website for details.

OUR SERVICE IS FAST

Everything in this catalog is inventoried at our shop. Our stock is updated and replaced every day. Orders received before 3:00 pm (central USA time, -6hrs GMT) are packed and shipped the same day. If an item is not available when your order is received, we will ship it in a reasonable amount of time or notify you. For order status, updates and package tracking information call: 800-222-1994 or email: service@aerostich.com.

CUSTOMER CARE

Many of our order processing staff are experts on Aerostich gear, with five or more years of experience. If you have a question, please call us: 800-222-1994 from 8am to 6pm Mon-Fri. 8am-2pm Saturdays (April 1st-November 1st only.) (North American CST, -6 hours GMT).

WHO'S ON THE COVER?

Want to know whose photo that is on the front of our catalog? You can view all of them in our Customer Photos section—even those from previous catalogs. See aerostich.com/photos

SHARE YOUR PHOTOS & STORIES

Do you use your gear in a unique way? Do you have a favorite road or vista? What does your daily commute look like? Be sure to include your name, address, date and the location of the image, and any other important information about the photo. Email them to photos@aerostich.com above, or mail to Catalog Photos, 8 South 18th Ave. West, Duluth MN 55806, USA

EASTER EGGS

There are all kinds of hidden nuggets of wisdom, fake products, readings, insults, commentary, odds and ends, etc. not found in this print catalog for you to discover.

GUARANTEED BETTER FIT

If you ride only occasionally...

Size 'M,' 'L' or 'XL' gear may be acceptable, but for years of regular riding, and on long trips, you'll appreciate the greater comfort a true fit provides.

We make Aerostich suits in 41 sizes... So your gear feels and wears much nicer. The difference between each size is less, and every size is also available in 'Short', 'Regular' and 'Tall' versions. **A better fit makes every ride wonderful.**

Mail Order Fitting?

We are experts at providing a great fit. We've talked with thousands of riders about their size, bike, local climate and riding habits. We also offer free size-exchange return shipping within the USA. Every order is double checked for accuracy.

Ordering Factory Direct?

Ordering direct from the factory gives you access to more precise sizes than are available elsewhere. The one piece Roadcrafter comes in thirty-one off-the-rack standard men's sizes and ten women's sizes. We'll help you find the one that provides a perfect fit.

Women's Sizing?

Compared to men of the same height, women usually have slightly narrower shoulders, longer legs and arms, and slightly shorter torsos. Roadcrafters and Dariens are both slightly looser fitting designs so many women (about 60%) will find standard 'mens' graded Aerostich suits fit perfectly, without alterations. Of the remaining number, about half will receive a superior fit with one of the available women's graded sizes, or after minor sleeve/arm/gusset/etc., alterations. Fully tailor made garments are not available.

Custom Alterations?

Most custom alterations and optional features may be added at any time, but alterations at time of manufacture are preferred. See aerostich.com/alterations for complete descriptions of over thirty custom options. Altered suits are not returnable for refund or exchange and some alterations are not available in combination. Sleeve lengths, leg lengths, elbow armor positions, and knee armor positions are all adjustable up to about 5". Some torso, hip, and knee circumference changes are also available, but torso length adjustments are not available.

Essential Fitting Info?

Most of the time all that's needed are your street clothing sizes and your height and weight. Here's the basics:

- Height
- Weight
- Suit coat or blazer (chest) size
- Pants size (waist and inseam)

Additionally, dress shirt size (collar and sleeve length) and body type (thin, medium, large) may sometimes also be helpful.

Bike Types?

For Standard and Touring bikes, use standard sizes. For Sport bikes with low handlebars, more torso length sometimes may be desired. Adding the extra rotated sleeve custom alteration will help provide more comfort.

SIZING CHART:

This chart lists equivalent clothing sizes. The numbers are approximate guidelines and not actual body or Aerostich measurements. (If you wear a size 40 men's suit, the same size Aerostich Roadcrafter Suit or Darien Jacket will fit over your street clothes.)

Roadcrafter One and Two Piece Suits are available in 34 Regular and 36-52 Short, Regular or Long sizes. The Darien and Darien Light Jackets are available in 36-54 Regular sizes only. The Falstaff Jacket and Aerostich Fleece are available in S, M, L, XL, and XXL sizes. The Transit Jackets are available in 38-52 Short, Regular or Long sizes. Transit Pants are available in sizes 30-44 waist in Short, Regular or Long.

NEED HELP FINDING YOUR SUIT SIZE? If you are not sure of your size, visit aerostich.com and click on "Sizing Tool" to easily calculate your Aerostich suit size based on your measurements and riding style. Results are reviewed by one of our fitting professionals, and returned by email within a day or so.

SUIT DELIVERY: Most Roadcrafter, Darien, AD-1 and Transit orders are shipped from sizes and colors in stock, or in a few weeks for garments which are manufactured as a special order. Altered suits are normally shipped two to five weeks after an order is received, depending on seasonal order volume. Please call or email us if you'd like a delivery ETA or have other questions.

The Aerostich Price Match Guarantee

If we can't win you over with our charm, experience, service and pleasant demeanor, we'd still like to help you get riding gear by keeping more money in your wallet.

Here's how it works: **Find an identical item at a lower price on another web site and if we can match that price** (providing the product complies with the rules – see below), we will*.

*For price match policy rules visit

aerostich.com/price-match

Aerostich products are built to be the best tools available for all riding in all environments to all types of destinations. If you have a question about anything you see, give us a call or send an e-mail. We hope you'll give some of these products a try and our company a chance. Thanks for looking through this catalog, and Good Riding!

Browse an ever-changing collection of sale items over on the **Aerostich Sale List:**

From suits to books, gloves to goggles, you're sure to find what you didn't know you needed.

SHIPPING GUIDE

OUR SERVICE IS FAST. Everything in this catalog is inventoried at our shop. Our stock is updated and replaced every day. In-stock orders placed before 2:00 pm (central time USA, 6 hrs GMT) will ship within two business days. If an item is not available when your order is received, we will ship it in a reasonable amount of time or notify you.

INTERNATIONAL ORDERS: Orders can be placed on our website anytime: www.aerostich.com, or by telephone: +1*-218-722-1927 between 9am to 7pm (-6hrs GMT). Prices are in USD, and currency is exchanged at market rates on day of transaction. Detailed current worldwide shipping cost and delivery information is available at: www.aerostich.com/shipping. *Before the country code an international access prefix must be dialed. Contact your operator for more info. (Ex: 00+1-218-722-1927 from turkey and the U.K.)

Sorry folks... I found this card today in the pocket of my Darien pants (the rear pocket)... it's been almost 2 years since I bought them, and in that time, they've done, apart from all my local riding here in Tasmania, a 2,500km trip around the South Island of New Zealand. To find this in my beautifully crafted garment, with your names on it was a reminder of why I love & own Aerostich motorcycle clothing. Keep up the good work and a big "G'day" from Australia!! from _____

This is the second time I've seen in my suit in 10 years. Each time it comes back it's better than before. I had no idea 10 years ago what a great investment my stick is. I've got close to \$k on it, and couldn't be happier. Your repair service is a necessary part of my preventative maintenance program!
Thanks,
Andrew Seattle, WA

If you ride only occasionally... Size 'M,' 'L' or 'XL' gear may be acceptable, but for years of everywhere riding, and on long trips, you'll appreciate the greater comfort a true fit provides.

We make Aerostich suits in 31 sizes... So your gear feels and wears much nicer. The difference between Aerostich sizes is less, and every size is also available in 'Short,' 'Regular' and 'Tall' versions. **Fit makes every ride better.**
