“The opposite of faith is not doubt; it is certainty.”
—Anon (Dear Abby, Feb 3, 2017)

C5 MOTORCYCLE DASH CAM

Recording every ride just got as simple as starting your motorcycle. The waterproof camera lens captures sharp 1080p quality video, even when riding in heavy rain. The lens housing and DVR case are made from solidly built and all-weather sealed aluminum. DVR allows loop recording options and single video clips, depending on the type of recording you want. For capturing every-ride commuter footage, set-up Loop recording mode for 1 or 3 minute protected clips.

For longer ride videos, choose longer 10 minute clip loop recordings or capture the entire trip in a single file. Review live recordings and change settings via WiFi connection on your mobile phone or tablet. Download clips to your mobile device to easily share with friends, post to social media or send to law enforcement or insurance company.

Add security with the Park Mode and Motion Detection function, which will automatically activate recording when motion or impact is detected.

Parts include DVR, Camera, 12V to 5V DC Converter and cables, mounting hardware and instructions. Supports up to 128GB MicroSD Card (optional) allowing up to 19 hours of continuous recording time. Internal 500mA Li-Polymer battery also supports up to 60 minutes of recording at 1080p quality, or connect the power converter to provide continuous power from your bikes electrical system, activated to automatically begin recording when the bike is started, and stop when turned off. Compact design allows for many inconspicuous mounting locations and camera angles. DVR measures 2.75"×1.8"×.8", Camera is 1"×2.1". Black.

#1695 \$228.00

GHOST 4K CAMERA

The Ghost 4K was created with motorcyclists in mind, with a sleek bullet design, rotating lens, gyroscopic image stabilization and dual front/rear microphones for crisp audio and smart wind noise reduction features. Shoots outstanding 4K UHD video at 30 frames per second. WiFi and Bluetooth connectivity allow live streaming and more. Also captures stunning 12MP High Dynamic Range still photos.

Built in 4GB flash memory and 8GB DDR3L memory with option to add 128GB

MicroSD card for hours of storage. Modular side panel for swapping out a variety of optional premium accessories and extended power systems.

Multiple modes including DVR (for automatic dashcam use) Stitch and Cinematic mode. Pair the camera with the free Drift Life app on iOS and Android for further control. Includes remote control, universal clip, flat and curved adhesive mounts, USB mic-converter and MiniUSB cable. 1.7"×3.2"×1.2". 4.2 oz.

#1692 \$299.00

EXTERNAL POWER FOR GOPRO

Never miss ride footage again because of dead batteries. X-PWR External Power Case with connections provide all-weather protection and an external USB cable connection for a continuous power supply and all-day operation for your GoPro Hero camera. Kit for the Hero 3 & 4 cameras includes all-weather camera case and 18" B-CAPPED USB Cable (camera not included). For the waterproof GoPro Hero 5 or 6, no extra case is needed, so just add the 18" all-weather USB external power cord kit to add a continuous power source.

Hero 3 & 4 #3245 \$45.00

Hero 5 & 6 #3244 \$45.00

AEROSTICH HOOK & LOOP GOPRO MOUNT

Section of loop sewn above the logo pocket on any textile Aerostich Jacket or Suit. Includes mated adhesive hook for the back of the camera's waterproof housing and a quick-attaching safety cord, allowing you to use this small video camera on-the-go. Superior point-of-view compared to helmet or handlebar mounted camera placement. Wears un-noticably as part of your jacket or suit. Tested for thousands of miles in all types of weather. Seam taped behind. Available for all R-3 (Light, City, Tactical, Stealth) Road-crafter Classic, Darien, Darien Light and Falstaff suits and jackets. Black.

#344 \$35.00

PRISM TUBE HELMET MOUNT WIFI CAMERA
The Prism Tube Action Camera packs huge capability into a small, lightweight package. It mounts effortlessly onto your helmet and captures the full scope of your fun with a 125-degree field of view 3.5 Mpixel camera and dual internal and external mics. Built-in WiFi (802.11 g/n) allowing for easy live-view previews and downloads through your smartphone. Rechargeable Lithium polymer battery records up to 3 hours on a single charge. Supports up to 64 GB MicroSD card for hours of storage. Accessories included in box: lens, cap, rear cap, read cap for USB cable, prism tube cable for speaker and microphone, wired microphone, hook and loop fastener for wired microphone, speaker, hook and loop fastener for speaker, glued surface mounting pale, tube swivel mount kit, prism USB power and data cable (micro USB type) and Allen wrench. 1"×3.9"×1.2 Weighs 2.5 oz.

#6055 \$180.00

FOUR CHANNEL AUDIO MIXER + AMPLIFIER

The MixIt2 is designed for motorcycle applications. It provides four inputs for connecting and combining signals from radar detectors, radios, CD players, MP3 players, XM receivers, talking GPSs, CBs, FRS radios, cell phones, etc. Power is supplied by an internal 9V battery (lasts about 25 hrs) or a filtered 12V external power jack to provide clean, noise-free listening.

This signal mixer prevents feedback damage when combining multiple audio sources, and its internal amplifier helps portable music players sound louder, cleaner and better. Features include a power/volume control knob, two stereo inputs, two isolated mono inputs (that do not require special cables for Garmin GPS and Escort radar detectors), an output jack and 'power on' and 'battery low' indicator LEDs. Rotary volume controller allows you to mute all devices simultaneously, which is handy in urban situations or at toll booths. 5.5"×2.5"×1", 5.5 oz.

#3950 \$159.00

PRECISION REFERENCE MINI-AMPLIFIER

Ultra high-quality portable amplifier, housed in a polished metal chassis. Delivers clean, well-layered sound thanks to precisely assembled internal electronics, powered by a long-life rechargeable 4.2V Lithium Ion battery that will amplify your music listening experience for 60+ hours from each 3 hour charging cycle. Compact to fit easily into any pocket or tankbag for take-anywhere audio portability. Simple operation with On/Off toggle switch, 3.5mm headphone output jack, AUX input port, and rotating volume knob. Output power 150mW (32 Ohms), signal/noise ratio 101dB, frequency range 17HZ-100KHZ, headphone impedance range 8-32 Ohms. Assorted colors. 3.6"×2"×.43".

#2992 \$139.00

TWO JACK MINI AMPLIFIER

Many personal players do not provide quite enough volume to blast over wind noise or past earplugs. The Boostaroo can help. Plug it into the audio jack of your radio/scanner/whatever, then connect your helmet or earplug speakers. Voila, the sound level is increased by about a third. Input device volume adjustments remain functional, but everything tops at a greater volume. Clearly and cleanly, too. About a 12dB gain in a typical ear speaker. Two AA batteries (not included) last about 20 hours. There are two jacks so a passenger can listen along. 40mw per channel.

#3075 \$30.00

RECHARGEABLE MINI AMP

This tiny amp is designed to boost the output of any mobile device by 200%. A rugged little unit with a smooth-action machined aluminum volume control. Go lightly, though. If

used at full volume and output over an extended period of time, you may potentially damage your hearing or headphones. Functions over 20 hours on included rechargeable battery. 17" audio cord. A/C charger and dual output audio jack/splitter included. 1.4"×2"×.6", 1.2 oz.

#3966 \$44.00

POCKET WEATHER RADIO

Pocket Weather Alert Radio allows you to receive 24-hour-a-day National Weather Bureau Broadcasts. Featuring an ALERT system, this handheld and portable unit turns on when dangerous weather or civil emergencies arise. Also features a weather-test button that ensures the alert feature on the radio is functioning properly. A 6" telescoping antenna ensures clear reception. Has an auto scan to find an available weather channel. Uses 3 AAA batteries (not included). .3"x1.3"x8.7".

#4477 \$24.00

AM/FM STEREO WEATHER RECEIVER

Sure your high-tech, app-infused mobile do-everything phone thingy will show an up-to-the-minute-radar map-in-motion and allow you to find out what the weather is going to be anywhere, a week from some Tuesday....but even if you are off the cell service grid, this compact pocket radio easily tunes in your local weather forecasts on AM, FM and all seven NOAA Weather Alert frequencies.

Features include a built-in speaker, headphones with 4' cord and 3.5mm jack, clock, removable belt clip, auto channel seek, 19 memory presets, battery power indicator, external plug-in antennae, 90 minute auto shut off option and PLL synthesized tuning system. Uses two AA batteries (not included). 4"x2.5"x.75".

#3916 \$60.00

CYCLE E-PASS

Low profile holder for riders who use electronic toll tags like EZ-Pass, M-Tag, I-Pass, Smart Tag, Fast Pass, etc. Use the electronic lanes and never stop at another toll booth again. What's that worth? Mounts easily on all handlebar sizes. Sportbike version includes adapter for mirror stem mounting. Black. 3.75"x3.25"x3".

Standard #4275 \$22.00

Sportbike #4277 \$24.00

STANDARD

SPORTBIKE

BIKE MOUNT WEATHERCASE

Improved protection for your iPhone 6 from rain and road grime that attaches securely to your handlebars. Sturdy, easy-to-use mount adjusts phone in vertical or horizontal configuration. Slim, quick release design slides easily into a pocket when you're off the bike. Ultrasonically welded waterproof fabric, rain proof zippers and snug padding protect from the elements and vibrations while allowing full access to touch-screen, front and rear cameras, and on-bike recharging. Lightweight and easy way to keep your phone safe and dry on rides. 5.5"x3"x.8".

#4422 \$40.00

HYGROMETER + THERMOMETER

This matchbook-sized unit allows you to accurately monitor ambient humidity and temperature at the same time on its easy-to-read oversized display. Can stand on its own or stick to any surface with included double-stick tape. Operates on one watch battery (included). Really fun to see the humidity slowly increase from many miles away to 90% or more as you approach rain. Note: not "extreme waterproof" unless modified. (Disassemble, silicone seal.) 2"x1.5"x.6", 1 oz.

#4266 \$15.00

SAE TO CIGARETTE LIGHTER ADAPTER

A handy adapter that stores easily in a tank bag or pocket to give you power when you need it. Standard lighter accessory plug with SAE connector. Great for powering accessories like heated gear, or can prevent you from being stranded by charging your bike battery after hooking it up to a car's power socket with the appropriate SAE connector to your bikes battery.

#2776 \$9.00

SAE TO USB ADAPTER

Easily charge or power a smart phone, MP3 player, tablet or other USB electronic device with this handy SAE to Dual 2.1A USB adapter. Blue LED battery status indicator displays the current output voltage of your battery. 12V in USB's 5.0V out.

#6066 \$27.00

3.5MM INTERCOM SYSTEM AUDIO JACK ADAPTER

Adapts any 5, 7 or 8 pin motorcycle intercom system connector (Most types, OEM Gold Wing, Harley, etc.) to a standard 3.5mm/1/8" stereo plug for use with earbuds and earspeakers.

#3900 \$19.00

USB POWER SUPPLY KIT

The quick and easy way to power or re-charge USB devices, anywhere, anytime. Includes a compact, folding AC wall charger and a 12V adapter for your bikes accessory outlet (cigarette lighter plug). Compatible with any device capable of charging via USB, including cell phone, digital camera, MP3 player, GPS and more. Wall charger (2"x2"x.5"), 12V adapter (3"x1.25"x.5").

#851 \$29.00

DUAL USB BAR MOUNT ADAPTER

Easy, accessible power for your electronic devices (smart phone, GPS, MP3) to keep them running and charging while you ride. Mounts securely to 7/8" and 1" handlebars. Features dual 5 volt/2 Amp USB ports with a water and weather resistant rubber cap to keep the elements out when not in use. Includes 38" of wire from socket and 12" long cord with in-line mini-fuse for connection to your bike's power supply. Easy connect/disconnect with SAE style plugs. Convenient, reliable power for all of your devices.

#3201 \$28.00

SINGLE USB WIRED ADAPTER

Charge and power electronic devices via USB outlet connected directly to your motorcycle battery. High quality weather-resistant design with integrated cover. Quick, efficient and easy charging for your mobile electronic devices, without the need for extra adapters. Color-coded battery terminal leads with rings make for simple installation. In-line 7.5 amp fuse. 20" long.

#3186 \$19.00

DUAL USB CIGAR LIGHTER ADAPTER

Conveniently charge any USB powered electronics through you motorcycle's 12-volt outlet. Housed in a sturdy ABS plastic with spring loaded tip that fits most outlets. Two USB 5 volt outlets: 1 Amp and 2.1 Amp. 2.2"x1". Assorted colors.

#4482 \$11.00

AEROSTICH DUAL USB WIRED ADAPTER

Easily supply power to your electronic devices with this Dual USB 12V to 5V DC to DC power converter. Epoxy sealed waterproof housing installs easily to efficiently supply 5V (3A max) 15W power output to two USB devices. Cable length measures 11.8" for convenient plug-in. Converter box measures 1.8"x1.1"x.55". Features short circuit/input reverse polarity/overload and low-voltage protection for stable performance. Operating temps from -40°F to 185°F.

#5066 \$15.00

RAM MOUNT SYSTEMS

All RAM systems use a 1" ball and socket system. This super strong rubber ball and socket system provides mounting flexibility and protects electronics from damage due to vibration. All components are interchangeable so you can switch attachments at either end of the clamping stalk for maximum versatility.

BASES: ATTACH EXTENSION TO YOUR BIKE

HANDLEBAR CONTROL BASE

A mounting ball that attaches to your bike's handlebar clutch/brake perch, left or right side. Also accepts an Extra Ball to make it a double mount.

Single Ball Control Base #6210 \$12.00
Double Ball Control Base #6302 \$20.00
Extra Ball Only #6227 \$8.00

HANDLEBAR U-BOLT BASE

A handlebar clamp base with one or two balls. Add spacer to protect finish or to fit on smaller bars.

Single Ball #6229 \$14.00
Double Ball #6289 \$24.00
Spacer #6279 \$2.50

TOUGH-CLAW BASE

Perfect mounting base for quick and easy tool-less installation and removal on round, square, odd shaped rails and bars. It can be clamped on rails from 0.625" to 1.5" diameter. Ideal for

mounting tablets, action cameras, smartphones, rod holders... the options are limited only by your imagination. 4.25"×1.18". Black.

#6303 \$30.00

C-CLAMP BASE

No-drill (up to 2") clamp mount for yoke mounting with one ball.

#6276 \$21.00

FLAT

45°

MIRROR STEM MOUNTS

Flat surface mounts.

Flat #6213 \$12.00
45° #6278 \$12.00

EXTENSIONS: CONNECT MOUNT TO A BASE

RAM DOUBLE SOCKET ARM

A tightening screw on the side of the arm clamps firmly in place, and allows you to pivot the ball and socket connection or completely disconnect the ball from the socket.

1.75" #6228 \$13.00
3" #6285 \$11.00
5.25" #6286 \$19.00

DOUBLE SOCKET SWIVEL ARM

Dual 1" diameter open ball sockets with a 360° center rotation point for unsurpassed adjustability.

#6300 \$18.00

ROUND

CAMERA

DIAMOND

RAM UNIVERSAL MOUNTS

Camera base with ¼" screw mount and 1" ball. Works with all cameras and camcorders with threaded mounting holes. Other two type adaptable to all kinds of devices and platforms.

Camera #3689 \$10.00
Round #6226 \$7.00
Diamond #6284 \$11.00

PLATE MOUNT

Custom mount any device to a RAM mount system. Numerous pre drilled holes/patterns for mounting a variety of devices. 2"×6.25".

#6277 \$15.00

TOUGH CLAW CLAMP X-GRIP KIT

An elegantly simple but super tough kit to secure any modern smartphone to the handlebars of your motorcycle. Sturdy enough to keep a tight grip over streets and big enough to hold a Galaxy S2 or iPhone 6 plus. Three modular pieces combine to make one spiffy unit that is a snap to put on and take off, staying in place with a handy, easy-grip twist knob. Choose from three arm lengths to use your phone for navigation, taking ride video footage, playing your favorite tunes or just to keep it at the ready. 1.75", 3" or 5.25" arm lengths. 

1.75" Kit #6304 \$57.00

3" Kit #6305 \$60.00

5.25" Kit #6306 \$63.00

UNIVERSAL BALL MOUNT X-GRIP HOLDER

Securely holds a cell phone or other handheld device with a unique spring loaded X-Grip design. Rubber coated tips hold device firm and stable. 1" ball. Min/Max device width .875"/3.25". 

#3687 \$27.00

POWERPUCK WIRELESS CHARGER

Easily and wirelessly charge your phone on your motorcycle. This small disc **mounts in between your existing mount and your phone, to provide wireless charging** for compatible devices. Made of rugged, weather resistant nylon. Wires into your battery or auxiliary power supply. Eliminates need for messy (and leaky) USB connections.

Input: 12v/3A (bare wire for connection to battery or auxiliary power supply). Output from charger: 5v/1A (wireless). .4"x2.44".

#6067 \$65.00

HANDLEBAND

A bottle-opener and universal smartphone bar mount combo attaches your smartphone to any handlebars or frame tube. The durable aluminum base piece functions as a convenient bottle opener as well as quickly and securely attaching any smartphone or portable electronic device via durable and highly expandable silicone strap. Fits devices with or without cases and allows full functionality while mounted. View maps, run GPS apps, use camera or video functions, or use your phone as a light at night. Works great to secure flashlights, bike pumps or other small devices too. And at the end of a long riding day it quickly pops the top off a cold, refreshing bottled beverage. Ahhh, neat. 3.5"x1.5"x2". Charcoal.

#3685 \$19.00

RAIL-HANDLEBAR X-GRIP MOUNT KIT

An evolved system for quickly and securely mounting your smartphone to your bike. The included X-Grip® cradle has a spring-loaded four leg design that sports great holding power without hiding your phone behind foam pads and plastic, expanding and contracting for a custom fit. The mount is designed with a RAM 1 in. ball and socket system adjustment points at both ends of the double socket arm, allowing for almost infinite viewing angles. A zinc coated u-bolt base attaches securely into handlebars, or any tube up to 1.25" in diameter. Works with devices with or without a case. X-Grip Dimensions: Min. width = 1.875", Max. width = 3.25", Depth = 0.875". 

Kit w/ 1.75" Arm #6307 \$47.00

Kit w/ 3" Arm #6308 \$50.00

Kit w/ 5.25" Arm #6309 \$53.00

QUICK-RELEASE DEVICE MOUNT

Securely mount your phone or mobile device to your handlebars. Rotating and pivoting head design allows for multiple viewing angles. Adjustable locking cradle design squeezes device securely in place.

#4359 \$22.00

3D BASS HELMET SPEAKERS

These helmet speakers pack a punch. A low, low-down in your bones punch. At only .5"×1.8", will fit any helmet and will improve the sound of whatever you've been listening to. A revolution in helmet audio technology. Comes with integrated hook & loop patches and detachable 25" connector cable with volume control. 3.5mm 1/8" headphone jack.

#3967 \$60.00

AEROSTITCH HELMET SPEAKERS

Inexpensive, wafer thin, compact, felt-lined stereo speakers that press into your helmet's ear pockets or hang in the helmet lining with accompanying hook and loop pads. Both speakers plug into the included 40" cord, which features a spring clip for attaching anywhere. Reasonable sound quality, but the most important aspects are the low price and they fit anywhere. Plug directly into any device with a 1/8" (3.5mm) headphone output jack. 2"×2"×.25", 1.75 oz.

#3915 \$17.00

BLUETOOTH TRANSMITTER

Wirelessly syncs with a Bluetooth audio system to send alerts from any other device or radar detector. Compatible with most Bluetooth systems, transmitter can also wirelessly transmit music and sound from MP3 Players, cell phones and other audio devices. Uses A2DP communication protocol. 3.5mm stereo jack. Includes USB charger.

#2378 \$55.00

SMARTPHONE BLUETOOTH MEDIA CONTROLLER

The Bluetooth Media Button allows audio control with push button ease. Attach the button to your handlebars or dashboard to safely and conveniently control multi-media functions even when your smartphone is out of reach or stored safely in a pocket or tankbag. Play, pause, forward, backtrack, and adjust volume quickly and easily. Compatible with Apple devices supporting Bluetooth 3.0 and later and Android devices OS 4.0 and later. Works up to 40 feet away from your device. Long 2-year battery life. Includes Media Button, handlebar mount, keychain attachment, 3M mounting sticker and battery.

#2207 \$29.00

MINI BLUETOOTH SPEAKER

Ultra-small, super-portable mini Bluetooth speaker delivers big sound. Small enough to mount inside your helmet and when wirelessly paired with your mobile device (or bluetooth equipped radar detector), it will stream up to 3 hours of audio while riding, without needing to use earphones or a helmet specific speaker set-up. Works great for playing tunes off bike too while at the campsite or relaxing in the hotel room after a long day of riding. Rechargeable lithium polymer battery recharges via micro USB charging port. Cable included. Colors vary. .44"×2.7"×1.4".

#4474 \$19.00

IT'S BEEN A LONG WAIT...

The first popular motorcycle GPS was the 1995 Garmin 'GPS III' which only provided a squiggly track-line on a tiny gray LCD screen. No base maps but you could easily mentally overlay your track to match the road shown on the paper highway map under the window of your tank bag. Good enough to get you out of trouble, and a huge advance over maps alone.

By nine years later Garmin was offering a much more advanced model with a near-perfect combination of moto-friendly hardware, a larger screen, good base maps and tons of usefully configurable functions and menus. Over the next few years this model became a series: 276c, 296, 376, 378, 396, 478, 495, 496, and 498. A small number above the corner of the screen identified ever more advanced versions. All had the same wonderful glove friendly buttons and seriously configurable menus.

Other Garmin models followed this series with improvements like touch screens and simplified menus. All was well...but after a while those then discontinued and well-used 376's, 378's and 496's started getting more expensive on eBay. Huh?

A favorite German word of Einstein's was *Schlimmbesserung* (sh-lim-BESS-air-oong). It means 'changes attempted or improvements that make things worse' and it chiefly applies (but is not limited to) technological advances. Like today's menu-simplified touch-screen equipped motorcycle GPS's.

The new 276CX described below is the long awaited return of that ideal Garmin GPS with the direct button controls and highly configurable menus of the of the old 276-496's series. Plus a decade's worth of Moore's law improvements.

GPSMAP 276CX

This thing does navigation better than any smartphone. And you are not dependent on cell service areas. With a large 5-inch display, versatile cartography, connected features and flexible power options, the 276CX has the capability to function the best way for you, no matter where you roam. It comes preloaded with worldwide basemap and includes a free 1-year BirdsEye Satellite Imagery subscription. It also supports a variety of other mapping options. In addition to GPS and GLONASS reception, it is compatible with optional external sensors, connects to Wi-Fi for over-the-air updates and database syncs and also pairs with your compatible mobile device for additional features.

The large 5-inch sunlight readable full-color screen allows you to navigate with confidence with ultra sharp 800x480 pixels display resolution. Flexible mounting options keep the device exactly where you need it and reliable push-button controls resist dirt, dust and grit. Built-in altimeter allows you to accurately monitor and predict the weather. Keep all your maps on hand with 8 GB of internal memory, expandable by a microSD™ card (sold separately). Multiple power options, including in-unit charging with an included lithium-ion battery pack and the ability to use standard AA batteries (not included). Also includes AMPS powered mounting bracket with bail mount USB cable, AC charger and documentation. 7.5"×3.7"×1.7" 14.6 oz.

#1197 \$699.00

* Call 800-222-1994 for latest/best price.

3M DUAL LOCK

Almost mechanical in its locking power (a lot like Legos®), with the added plus of being waterproof and far more durable than garden variety hook & loop. Four pieces, each measuring 2"×3.5". Two are clear, and two are black. Each is backed by an ultra powerful peel-and-stick 3M® adhesive.

#2250 \$12.00

HOOK & LOOP TAPE

A simple back-to-back tape, hook on one side, loop on the other, laminated together into an infinitely useful strip. Can be easily cut to different widths and lengths without unraveling. Wonderful for securing radar/gps type things to mounting brackets and for strapping down wires and cables as a re-usable zip tie. 1"×36"

Standard # 1922 \$4.00

Heavyweight #1923 \$5.00

GARMIN GPS MAP 64S

Rugged, waterproof design features a bright, sunlight-readable 2.6" color screen. The high sensitivity GPS and GLOSNASS receiver locates your position quickly and precisely, even in deep woods or near tall buildings. Comes preloaded with world-wide basemap and 1-year subscription of BirdsEye Satellite Imagery. Includes electronic compass and barometric altimeter. Wirelessly connects to your iPhone or other compatible devices too. Conveniently add additional maps and save data to the internal 4GB of storage, or optional microSD card. Operates up to 16 hours powered by 2-AA batteries or optional NiMH battery pack. 6.3"×2.4"×1.4", 8.1 oz.

#1699 \$299.00

* Call 800-222-1994 for latest/best price.

THE FIRST (AND STILL BEST) NOISE-BLOCKING IN-EAR SPEAKERS

Etymotic Research was founded in 1983 to provide products that protect hearing, and enhance the listening experience of musicians and music lovers everywhere. With deep roots in acoustic research, Etymotic invented the first insert earphones in 1984. The original design used balanced armature receivers and immediately established these speakers as the gold standard for high definition in-ear earphones.

In 1991, Etymotic introduced the first noise-isolating high-fidelity in-ear earphone, the ER-4, which became the basis of all subsequent in-ear earphones and in-ear monitors worldwide, and created an entire category of consumer electronics.

The ER-4 earphones are still produced and channel-balanced to within 1 dB in Etymotic's labs in the US. These earspeakers are used by scientists, professional and amateur musicians, and others (including many motorcyclists) who insist on superior sound quality. If you try a pair of Etymotic earspeakers, we are confident you will not be disappointed. Hear the difference quality makes.

ER4 MICRO PRO EARSPEAKERS

An investment quality earspeaker for musicians, sound engineers, audiophiles and discriminating motorcyclists. Featuring balanced-armature, precision-matched, custom-tuned drivers, these earspeakers offer unsurpassed frequency response accuracy and sound quality...you'll immediately notice a richer texture of nuances, shadings, hues and details. Sounds you've never heard before. Superb noise isolation characteristics reduce unwanted outside sounds by as much as 98% (35 dB to 42 dB) while delivering a world-class auditory experience. Comes with a complete array of adapters and accessories to enhance and personalize the fit and comfort.

Includes hard cover storage case, nylon travel pouch, airline adapter, 1/4" stereo plug, shirt clip, filter tool with extra filters and an assortment of replacement ear tips. 60" cord with standard 1/8" (3.5mm) headphone jack.

#3136 \$299.00

MC5 EARSPEAKERS

Tight, accurate bass with crystal clear high-frequency detail is the sound delivered with these best-in-class earphones. Includes an assortment of ear tips for a secure, comfortable and customizable fit with industry leading noise-isolating properties, reducing ambient noise by 35-

42 dB. A Kevlar® reinforced 4 foot cord with built in cable slider ensures durability and accurate sound quality for many riding seasons of listening pleasure. Includes zippered nylon carrying case, Three pairs of replacement ear tips (3-Flange, Foam and Glider styles), adjustable keeper-clip, filter removal tool and replacement filters. 48" cord, 1/8" (3.5mm) headphone jack.

#3134 \$63.00

Great earbuds! Got these to replace my Sena 20S helmet speakers, mostly because I wear earplugs and glasses and find after some time on the road the stock speakers pressed on my glasses and ears. So why not remove the speakers, and have the earplugs and speakers in one. It really made more room for my ears and improved the quality of the sound ten fold for certain.

— MC5 Earspeakers Review by Bruce

"Every ride has the structure of music. A theme emerges, then the refrain. In between, there will be a bridge; there will come variations. The tonality, the key, and the tempo are created of the weather, of vibrations, the slant of the sun, the corners, the chip seal or the tar snakes or the new paving. Finally there is a coda. See, in every piece, whether concerto, hymn, or opera, there is beginning, middle, end. This is invariable. Some rides contain melodies you have never heard before. They are in a minor key, and they haunt. Because they are strange, they recur later to you, when at rest. In the sound is combined all the rides you have taken and all the rides you will never make. There is in the air an elegiac tone. These are the rides that, far off, sound just like a requiem." —Melissa Holbrook Pierson, in The Man Who Would Stop at Nothing, (see SUNDY section, page 174)

INLINE EARSPEAKER VOLUME CONTROL

All headphones and earspeakers should have volume controls. This compact thumbwheel control box may be used inline or mounted anywhere handy using double stick tape or adhesive hook and loop. Volume adjust wheel is easily controlled with a gloved finger. For all 3.5mm stereo jacks. 1.75"X.75". Cord length: 39".

#3855 \$9.00

KOSS EARPLUG SPEAKERS

Earplug and earbud design helps seal out wind noise and directs speaker sounds right into your ear canal for a deep bass and greater clarity. Foam ear cushions expand slowly for a comfortable custom fit and good noise isolation. The Koss Earplug Speakers are an affordable way to experiment with sound... they are just foam earplugs with quality, built-in speakers, and they're perfect for use in places with high levels of outside noise. Affordable, comfortable, effective. Not for Riding Use because you might get in an accident if you miss any road noises. (What about cars with air conditioning, lots of sound insulation, and big stereo systems? What about those, huh?). 4' cord.

#3081 \$17.00

3.5MM EARSPEAKER SPLITTER

This 3.5mm headphone cord splitter works great, and allows two listeners to share the same audio. Sharing is nice.

#4353 \$9.00

AEROSTICH EARPHONE CORDS

Perfect for making the connection to your helmet or earphones. Stretchy, light, and flexible, yet still substantial enough to hold up to stress and wind turbulence. The two foot is just long enough to perfectly connect tank bag or bar mount audio to helmet or ear speakers. Length listed is coiled (not stretched). 3.5mm (1/8") plug and jack ends.

1' #2368 \$5.00

3' #2369 \$6.00

2' #2353 \$5.00

4' #2313 \$6.00

12 HOUR BLUETOOTH EAR SPEAKERS

Long distance stamina and crisp, clean sound combine with superior fit for an immersive all-ride audio experience. With up to 12-hours of continuous use between charges, an integrated battery indicator lets you know when to plug in. Splash-proof, sweat-proof and washable with ultra-sonic sealed battery compartment and plasma coated electronics. Crystal clear sound with vibrant highs, mids and a pumping bass delivered through high-performance 8mm drivers and an upgraded Bluetooth® 4.0 technology antenna.

Comfortable to wear with titanium over-the-ear hook and 8 replaceable gel-tips, including an industry-first triple flange custom fit tip to personalize the fit for any sized ears. A high-quality microphone and intuitive button layout gives you complete control to make calls, adjust volume and change audio tracks. Compatible with all Bluetooth® enabled devices. Includes earbuds, 2-cable clips, USB charging cord, hard travel case and set of 8 silicone gel tips. Black.

#3082 \$99.00

MOTORCYCLE COMPUTER/SPEEDOMETER

With this one you get a longer, sturdier wire to the wheel sensor and a tougher mounting system than a bicycle cyclometer. You also get a pin-point accurate, calibrated-to-your-bike speedometer with features for everyday rides and long trips.

Stores data to let you measure average speed, maximum speed, acceleration, trip distance/time, braking distance and even a quarter-mile Drag Race format, including top speed and time. Even has a clock.

LIGHT

Large, easy to read 1.25"×1.34" LCD screen with push-button backlight function. Included CR 2450 battery lasts up to four years before needing replacement. Simple installation with included bracket and mounting materials and extra long sensor cable. Water tight construction ensures durability. Easy to calibrate to your bike's exact wheel circumference. Measures max speed up to 250MPH.

#2166 \$67.00

Light #2133 \$10.00

"If you like to ride 8 mph over, be sure you are doing exactly 8 mph over."

OLD SCHOOL RADAR MOUNT

Super lightweight, with elegant yet rugged construction. Nicely made and very adjustable, this bracket holds a myriad of possibilities for the motorcycle gadgeteer. Very configurable stock with aluminum bar and brackets that also make it easy to modify (saw, file, big hammer, etc...) for custom mounting of applications like radios, GPSs, etc. Plate is 4.25"×3.3".

7/8" Bars #2296 \$35.00

1" Bars #2297 \$35.00

CNC LOW PROFILE BAR MOUNT

Superlative alloy construction with a universal clamp saddle to fit standard 7/8" handlebars. Beautifully made and fully adjustable 2.25"×3" platforms. Precision CNCs with a rotatable Allen-lockable upper nylon balljoint for smooth, repositionable operation. The lower joint can be positioned fore-and-aft or laterally and the upper joint swivels in all directions with a cutout so it can be nearly 90° to the stem. Position a device as low as 1.6" above handlebars for those navigational aids that don't need to be up so high.

Low Profile #6215 \$54.00

AEROSTICH POLICE ★ SUITS

Specially tailored suits that are modified to serve and protect motorcycle law enforcement officers. Based on the same quality materials and features of our civilian garments, Aerostich Police Suits have additional features specifically tailored for motor-officer wear. Visit www.policesuits.com, or call 800-222-1994 for more information. Available to official law enforcement agencies only.

AEROSTICH HANDLEBAR CLIPS

An accurate, durable, easy-to-read liquid-filled compass that simply clips onto any $\frac{7}{8}$ " or 1" handlebar. Luminous 1" floating dial on jeweled pivot provides smooth rotation. Clip is easy to remove for accurate readings away from steel motorcycle parts.

Also as durable as the compass is an easy to read, liquid filled -20°F to $+120^{\circ}\text{F}$ thermometer. It too clips onto any $\frac{7}{8}$ " or 1" handlebar. One inch diameter dial.

The clock clip is specially made for us and features a sweep-second quartz movement that is not really intended for outdoor use but the prototype survived two seasons on Ed's 500 single so we think it's OK. YMMV, however.

Compass #2203 \$10.00

Thermometer #2212 \$10.00

Clock #4230 \$18.00

Set of All Three SAVE \$6.00 #4282 \$32.00

Three Little Clips...

Each of these devices has a few unique quirks. The Clock Clip (#4230) is by far the most useful. It's proven to be durable, easy to read and works great on bicycles, too. The Compass Clip (#2203) has problems finding north as soon as it's clipped to any handlebar, but it also snaps off in half a second and because it's nicely liquid filled it quickly points true as soon as it's a few feet away from all the metal. This remains a nice lightweight and out-of-the-way method of having a little analog backup in case the GPS fails in some remote place, or if your and your smartphone are way off the grid somewhere.

The Temperature Clip (#2212) is the most problematic. It's also liquid filled, but the numbers are so small that it's very hard to read, almost impossible...and it's not adjustable so if it's internal bimetallic spring pointer is off by a few degrees you need to figure out by how much and then perpetually add or subtract this number to know the actual temp. Pain in the ass, but still a lot less costly than the next option, which is this really nice digital (#4266, \$15.00) that reads to tenths of a degree and also gives you the humidity. On the other hand that one isn't waterproof without modification and this Temp Clip does tell the temperature sort of accurately, uses no batteries and doesn't require figuring out a way to mount it. Clip on-clip off. — Mr. Subjective, 2015

AEROSTICH UNIVERSAL MOUNT KIT

Here's a handy, inexpensive way to easily mount switches, accessories and other such farkle to your motorcycle. Find the desired mounting location and zip into place with the included heavy-duty mounting strap. (You may also use a worm-type stainless hose

clamp, not included.) Includes 4 mounts, 8 straps and 8 pieces of shrink tube wrap. Place the shrink tube near the lock and it will grip your handlebars a lot tighter. 1/4" diameter mounting hole. 

#4999 \$15.00

WATERPROOF MICRO CLOCK

Bright backlit display prominently shows time, date and temp in a glance. Temperature gauge accurate from -10°C to $+50^{\circ}\text{C}$ and includes an ice alert function that flashes when temps fall to just above freezing. Large buttons are easy to use, even with gloves on. Includes mounting instructions. 1.8" x 1.1" x .4".

#8255 \$30.00

AEROSTICH ZIP-O-GAGE

Handy pendant thermometer snaps onto zipper pulls, etc. The thermometer is sealed inside a protective acrylic case, and has a handy wind chill chart on the back. Hang from a pocket zipper or stick on your bikes dash or pack inside your sleeping bag or tent. 2", 1/3 oz.

#2208 \$6.00

Nifty Gadget. I first got one of these with my original RoadCrafter back in 1997. It is still working however it's faded some compared to these new ones I bought as gifts. Had some friends liking mine so I got a couple for them as well. I find it's a good back up for the tech on the bike or if you're out walking around away from things it's handy. If mine ever does break I'll be getting a replacement! — Review by John

32MM ULTRALIGHT FIELD WATCH

An abundance of elaborate, high-end military field watches are available today, made with state-of-the-art materials and loaded with advanced features. This watch ain't one of them, but it is a nice, affordable analog timepiece, in a tough resin case, with such practical features as: Accurate Japanese quartz movement, date function

and water resistant to 100 feet.

The black nylon band fits comfortably around the wrist, or with an additional hole or two punched in it, can be adapted to secure around your handlebars. The medium size black watch face has a 1.25" diameter with white luminescent numbers and dials for easy reading day or night.

#2119 \$27.00

So, you might be interested in the story of this watch order...or not.

This watch is replacing a very complicated, solar powered, set by the atomic clock, world time, dual time zone, shock resistant, water proof, incredibly accurate chronograph. The watch is smarter than I am and a pain. It was too thick to wear with a riding jacket and gauntlet gloves and isn't easy to set when crossing time zones. I wore it for 5+ years because I paid a lot of money for it and it's indestructible; not because I like it.

Been complaining about this watch with increasing intensity for several months. Shopping online, I found the Dakota. Couldn't bring myself to pull the trigger because the complicated watch works as advertised. Can't justify replacing something that still works.

However, my oldest grandson is off to college next month. When he stopped in for a visit, he commented on how cool my complicated watch is. I told him all about all the features...that I don't use. "Grandpa, your watch is really cool. I like it." What more of a sign do you need?

"You really like my watch, buddy?" I ask.

"Yeah! It's really cool." he replies, enthusiastically.

"Here, it's yours," I say as I take it off and give it to him.

The look on his face was worth every dollar I paid for the complicated watch. And I will be very happy next month when we ride across several time zones in various glove and jacket combinations with an uncomplicated, accurate, water proof watch that reminds me of my dad's watch (and therefore my dad) and my grandson's joy.

It's all about the memories! I will be very happy. — Review by Gus

CLASSIC Ti FIELD WATCHES

A solid titanium case with an anti-reflective tempered mineral crystal, oversize superluminous numbers (and hands) and a shoulder guarded screw-down crown. Now check out the price.

This modern interpretation of the classic field watch makes sense. It's light, tough, waterproof and inexpensive. Its accurate V-Series movement offers a prolonged battery life of about 4-5 years, there is a date function, and the case is tested waterproof to 330 ft. Choose Black or Brown stitched leather band. Men's 1.25" (32mm) Face Dia., Women's 1" (25mm) Face Dia.

Men's Brown #2154 \$145.00

Men's Black #2156 \$145.00

Women's Brown #2155 \$145.00

Women's Black #2157 \$145.00

45MM ILLUMINATED FIELD WATCH

Premium features and a large 45mm carbon fiber reinforced polycarbonate case, make this a durable, lightweight and highly functional time-piece. Tritium gas filled illuminating micro tubes glow continuously for up to 25 years, without need for battery or push-button activation. Self-powered hands and hour markers with 12/24 hour markings and date dial. Black ION finish stainless steel screw down case back. Face with large white, easy-to-read numbers. Ergonomically offset

crown & integrated durability certified band retention bars. One size fits all black 1" nylon band. Hardened scratch-resistant mineral glass crystal. 1.6" face diameter.

#2180 \$379.00

WRISTWATCH BAR MOUNT

This shaped neoprene hard foam block puts a Suunto wrist computer (or any similar sized wristwatch)

on your handlebars. Adjustable viewing angle.

#2143 \$12.00

PATHFINDER 3 WATCHES

Solid titanium construction and an alarm! What more could you possibly want? An H2? Quiet back there... This is another fine, simply designed and robustly built timepiece made for years of service. Water-resistant to 330 ft. and featuring Blackout Superluminous technology which automatically keeps the dial backlit up to 8 hours, this watch is right at home on the wrist of any rider. The quartz movement moves hands on a clear, easy to read dial. Simple. This watch also has the stem and alarm control uniquely positioned on its left side, making it extra-comfortable if you happen to wear your watch on your right wrist (left-handed style), or if you like wearing your watch lower on either wrist. Brown stitched leather strap. Men's 40mm has 1.57" Face Dia. Women's 34mm has 1.34" Face Dia.

Men's #2158 \$235.00
Women's #2159 \$235.00

33MM FIELD ARMORED WATCH

A balance of classic and contemporary features in a rugged, no-compromise resin case watch that sports a long list of performance assets. Durable poly-resin frame is water resistant to 50m (164 feet), and houses a precision Japan-made quartz analog time keeper, protected by a hardened, scratch-resistant mineral glass crystal.

Choose Black or White dials with easy to read 12/24 hour luminous hands and markers. One piece military spec 7/8" nylon band with unbreakable stainless steel hardware. 3 year battery life. 1.3" 33mm Face Dia.

Black face / Black band #2164 \$64.00

SUBVERSIVE WATER RESISTANT DIGITAL WATCH

Tried and true style great for everyday wear, or pair with handlebar mount (#2143) to add an all-weather, easy to read clock to your bike. Features include daily alarm, hourly time signal, auto calendar and stop watch features.

LCD display with push-button micro light for night time viewing. Select 12/24 hour formats. Water resistant resin design and construction has proven functional and durable for over 27 years. The replaceable CR2016 button battery lasts up to 7 years. A true classic, inexpensive and feature loaded chronograph ready to track your riding time for many years and thousands of miles. Body measures 1.5"x1.38"x.34". Black with replaceable resin band.

#2188 \$13.00

60MM POCKET SUNDIAL

Retro-cool precision in solid brass and steel, based on the Universal Equinoctial ring sundial used by ancient sailors and mathematicians. The outer and inner rings pivot and adjust for accuracy and fold flat for easy transport in a pocket. Beautifully engraved numbering and lettering finished with a black ink coating make it easy to read and give this instrument a timeless appearance. Can be used around the world to quickly and accurately indicate the local solar time, and also functions as a sun compass and a model of the world.

You really don't need one of these, but pulling it out at the campsite or rest-stop will seriously trump all of the latest modern digital farkles and draw both smiles and an audience wanting to see how it works. Beautiful to handle and satisfying to use. (Excuse me, do you have the time? Why yes, I do.) Fusion-reactor powered. Includes instruction manual. 2.36" diameter. 1.4 oz.

#3209 \$47.00
