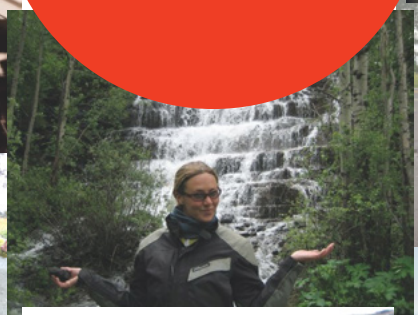
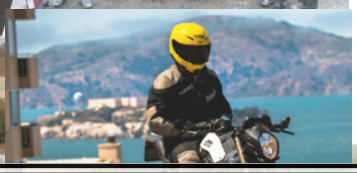
2017 SUPPLEMENT





Look inside for special holiday offers!

YOUR FIT. YOUR GEAR. YOUR RIDE.

WHY DO YOU RIDE?

There is a reason to ride motorcycles. Peel away all the fun and flummery, and your motorcycle is an unbelievably wonderful tool for getting you from A to B. Transporting your head, heart and soul to another level, and your body to wherever you want or need to be. Good for everything going on inside each of us. And for the community and our planet.

This is bad-assery of the highest order and goes beyond all costumes, moto-fashions and sub-genres: Adventure-rider, endurance-rider, biker, sport-rider, touring-rider, connoisseur/classic-rider, cafe-rider, scooter-rider. Whatever. For some, it's always going to be about fitting in and looking cool...and it's always about style and fashion.

Aerostich gear is about more riding days. It truly is a tool, a piece of equipment, and not styled or fashion sportswear. Just like a screwdriver or socket or some kind of wrench. The right tool for daily two-wheeled, ride-everywhere personal mobility will make riding easier. And safer. You get smarter, stronger, sharper and smoother. Choose the Aerostich gear that best fits your everyday riding needs...and you'll ride more. Guaranteed.

Welcome to Aerostich. We design, make and sell equipment for people who ride motorcycles and scooters. We care about motorcycling, quality, value and customer service. Many of us here ride, too.

A better fit is important. There are over sixty returnable, exchangeable sizes in-stock, plus dozens of optional add-ons and infinite optional custom alterations. Aerostich gear is size-graded by suit/chest sizes, and in short/regular/tall…not S, M, L, XL. This means a lot more comfort and better function.

Long-life service is important, too. It's good to know that if a zipper breaks or some material wears after long use, or even because of a spill, it can be repaired quickly and correctly. Our factory and headquarters are in Duluth, Minnesota, and some of us have been sewing and taking care of riders for over twenty five years. Better gear is a long-term investment. We're experts.

If you see things in this catalog you have questions about, please call or email us. We'd like to work with you, and we hope you'll give some of these products a try.

AEROSTICH R-3 ONE PIECE SUITS

The R-3 (Roadcrafter 3) is the third-generation one piece Aerostich suit. It is 100% waterproof and unlined for maximum airflow, yet slips quickly and easily over your street clothes. Its full-length waterproof zipper entry system is fast, and it doesn't flutter or flap in the wind. Without a lining it wears cooler, and with seam-sealed rainproof zippers you'll also stay completely dry, even during the wettest conditions.

Each R-3 takes more than an hour longer to manufacture than previous Roadcrafters, but it's worth it. You'll enjoy higher levels of performance, comfort, and protection on every ride. And like its predecessor Roadcrafters, the R-3 is constructed of Aerostich's exclusive American-made mil-spec 500d Cordura® GORE-TEX® fabric. It's a strong, long-lasting and highly abrasion-resistant material ideal for this use. (Made-in-USA military gear is the other stuff to have this.)

For increased protection there's a double layer of this fabric across the seat, and added 1000d abrasion-resistant layers covering the vital elbow/shoulder/knee areas. Beneath each of these is a superior energy absorbing system utilizing removable, oversized TF impact armor. Each armor attachment point is adjustable to allow fit to be fine-tuned for comfort and ensure it stays in place for best protection. Separately available hip, spine and chest armor options further increase the R-3's capabilities.

"...enjoy higher levels of performance, comfort, and protection on every ride."

With its oversize two-slider underarm vents, a two-slider back vent and magnetic clasps to hold open the fold-down dual-height collar, you ride cool and protected at the same time. As temps drop and when precipitation comes you'll remain cozy and dry, too, because the adjustable Ultrasuede collar fits

AEROSTICH ROADCRAFTER CLASSIC TWO PIECE

By itself, the fully lined jacket worn alone is wonderful. Armored, lightweight, underarm and back-vented, nine pockets, cool-wearing, rotated sleeves, action back gussets, adjustible waist tabs and much more. Zipped together with the matching pants it's as fast and convenient to use as a one piece suit.

The jacket overlaps pants by about six inches. It is attached to the pants with a securely sewn 270° circumferential two way zipper that can stand up to stress and hard use. You can start the zipper sliders and connect the jacket and pant while wearing both.

Separately, the pants have a waist drawstring with cord locks, and there are two additional pockets sewn into its lining accessible behind the flaps covering the side zippers. All the features of the one piece design are included in the two piece, making this our most versatile riders suit.

The Roadcrafter Classic jacket is tailored to minimize wind flutter and drag at higher speeds yet it also is lightweight and compact enough to pack away small, or carry into an office.

Years of experience have proven the Roadcrafter Classic's abrasion protection and all-weather capability. Like all Roadcrafter's this suit is covered with innovations: high-visibility Scotchlite™ reflective, all those strategically placed pockets, provisions for removable arm and thigh map window pockets, optional hip and back impact armor, highly water resistant underarm and back vents, an ultrasuede collar, and a variety of adjustable tabs and zippers to fine-tune the fit.

The Roadcrafter Classic Two-Piece is all about attention to detail, real-world riding and meticulous craftsmanship. Mil-spec 500 Denier Cordura® GORE-TEX® fabric. "I just received the jacket via FedEx. The fit is absolutely perfect! I have gone through many jackets and they were never quite right...waist too big and flaps in the breeze, sleeves too short so water gets up them. Without even riding the jacket I can tell it is the best ever!!" — Review by Huli

AEROSTICH DARIEN JACKETS & PANTS

Built for hard everyday wear, long trips and extreme adventure and endurance riding. Whether you are heading across town or across Siberia, this is the toughest most reliable single-layer textile jacket and pants available.

The Darien actually was the first armored textile jacket and pants made specifically for long-distance travelers and adventure riders, and today after more than 30 years of continuous improvements and careful refinements it still remains the benchmark for technical motorcycle trip gear.

With its unique single-layer construction there can be no shortcuts. Nothing is hidden under a lining. Hook and loop is used for positioning its comprehensive TF3 impact armor systems.

Dariens ride drier and more comfortably across a wider temperature and climatic range. The armor is easier to custom-position for fit or remove and replace as required. Emergency field repairs are easier, too. (Important if you're somewhere remote.)

DARIEN JACKETS

Exclusive features include a tough abrasion-resistant Mil-spec 500 Denier Cordura® GORE-TEX® breathable/waterproof outer fabric, removable hard shell TF3 elbow and shoulder armor, generous 3M Scotchlite™ reflective areas, adjustable anti-flutter sleeve tabs, and removable magnetic collar clasps.

The Darien also accommodates optional TLTec fleece liners that fit perfectly inside this outer jacket (see page 36). The liner's underarm vent zippers line up, and everything works together perfectly.

Those optional reversible TLTec liners are perfect on cool mornings and for all 'off-the-bike' wear, too. They fold into their own compact zippered pockets, and can be attached to your bike or worn on a belt like a fanny pack. (With new construction, an optional zip-in liner zipper, #375, is available at no charge.)

Five available colors: Standard - Black, Grey, and Hi-viz Lime Yellow, and Special Order - Orange or Tan. All Darien Jackets come with black details. Eleven sizes.

DARIEN PANTS

Cut like khakis (and some jeans), these unlined overpants are the perfect match for a Darien Jacket. Two front pockets, one back pocket, a flapped front fly, and a waistband with belt loops containing a removable Aerostich belt are some practical details.

Full length side zips with inner and outer flaps insure easy on-and-off convenience and severe weather protection. Bent knees, large 3M Scotchlite™ reflective ankle adjustment tabs and shaped, removable TF3 knee armor complete the specifications. 500 Denier Mil-spec Cordura® GORE-TEX® fabric is fully seam taped for comfort and strength. Black, grey or tan. See web site for alterations and sizing. 30–46 waist, regular and long.

Darien Pants #155 $387.00

3M SCOTCHLITE™ REFLECTIVE ANKLE ADJUSTMENT TABS

"The workmanship is top notch - very well sewn and sealed. They started out quite stiff, but they're beginning to loosen up a little. It has been quite cool (for California) with temperatures below freezing, and these have kept me quite comfortable at 75 mph on my daily commute on my naked (no fairings) motorcycle. I look forward to replacing the jacket with a Darian jacket - the Aerostich quality is quite compelling. Good gear, well made here in the USA. Would definitely buy again." —Review by Bart

"I've put over 3000 miles in less than three months in these pants. When it was hot out, yes they were a bit warm, but not uncomfortable (as long as I was moving). I got the grey pants, and they didn't seem too stiff out of the box. Not more than expected anyway. Like I said, they have over 3000 miles and are great. I have worn them through MAJOR rain/thunder storms and my pants were dry. I did have my regular pants tucked into my boots. A couple of times I didn't and about three inches of the cuff was wet. I think that these pants are great and I'm glad I got them. Worth the price." —Review by Shawn

KANETSU 加熱 ELECTRICS

KANETSU MEANS "THE ADDING OF HEAT"

AEROSTICH KANETSU ELECTRIC VESTS

A superior blend of ultra-compactible design and careful craftsmanship. Key technical features that make an Aerostich electric vest better: A slightly shorter, thinner heated collar that fits your neck right and slides under a jacket collar with less bunching. A longer trunk length in back and a shorter front to provide a more total heated area.

WINDSTOPPER®

A more packable version of the original fleece electric vest. Like that model, this version is also a most reliable, comfortably warm, hard-wearing electrically heated vest.

You'll appreciate its warmth, ultra-compactness and draft-stopping efficiency the minute you slip it on. It's also the least restrictive to wear beneath a closely fitted jacket or riding suit. Two pockets: one for storing the power cord and one that the entire vest stuffs into, forming a neat, compact pillow. Includes: fused, lighted coil cord hookup and power switch. 45 watts / 3.3 amps (works with all BMW standard power outlets). Specify QuiConnect 2, SAE or BMW connectors.

WINDSTOPPER® fabric is 100% windproof and half as thick as TLTec Wind Blocker fleece. Black. S-XXL.

The fuzzy, cozy-warm, windblocking TLTec fleece is luxurious. This heated vest is extra versatile because it's reversible for varying conditions and situations. Wear fleece in or out.

Two pockets: one for storing the power cord and one that the entire vest pulls into, forming a neat, compact package. Includes: fused, lighted coil cord hookup and power switch. 45 watts / 3.3 amps (works with all BMW standard power outlets). Specify QuiConnect 2, SAE or BMW connectors. Cayenne. S-XXL.

AEROSTICH WARMBIB

On colder rides enjoy quick warmth spreading evenly across your chest. It's a difference you'll feel even on shorter rides.

Stuffing old newspapers underneath your jacket might cost a bit less, but that is uncomfortable and doesn't add heat. This patented bib is electric-warm, windproof and packs really small. The smooth outer fabric layer is black GORE-TEX® WINDSTOPPER® and the side toward your body is a comfy black micro-fleece. The radiant electric heating layer is between.

The bib stays in place under your jacket perfectly because the inner fleecy layer is grabby and the outer WINDSTOPPER® layer is slippery. The comfortable low-profile fleece lined collar closes fast with hook and loop located at the upper chest and keeps drafts away.

Self-stores, power cord and all, into a built-in zippered pocket. Patent #D641,543S. 30 watts, 2.5 amps. Two sizes: Regular to 5'9", and Tall over 5'10". Includes a fused, lighted power switch coil cord.

AEROSTICH LIGHT WEIGHT WINDPROOF WATERPROOF INNERSHELL

Made of 40d 3-layer breathable, waterproof ripstop nylon fabric that's strong, yet light as a feather. Fully seam-sealed so it's waterproof, too. Great as an everyday off-bike layer with a single outer zippered pocket low on the right side that's perfect for storing keys, phone, wallet or other quick access items and also doubles as an integrated self-store pouch, allowing the shell to pack down a compact 9"×6"×2.5 bundle that stows anywhere. 8 oz. Black or Yellow. M–XXL.

#2204 $117.00

AEROSTICH OFF-ROAD JERSEYS

This comfortable knit jersey maintains a comfortable "touch" even when wet. Made of a substantial polyester, with a bit more body than most, lightly padded elbows and lycra collar and cuffs ensure durability and a good fit. Simple is good. Self-stores in its own hidden pocket. We make these ourselves, right alongside the Roadcrafter and Darien suits. Black, Green or Grey. M–XXL.

#1867 $87.00

PADDED ELBOWS

AEROSTICH WINDSTOPPER® JERSEYS

A lightweight, thin and versatile garment that's a perfect layering component in mixed weather, especially as a pullover shirt for cool mornings or evenings. Folds/packs compactly into a self-storing pocket so you'll have it along when the weather changes and as you need added protection. Made of GORE-TEX® WINDSTOPPER® fabric that stops, as you would imagine, all wind from drawing your body heat away. Elbows incorporate light padding and a zippered pocket on the left arm is perfect for a phone or iPod. A handy and practical clothing item alone or worn over fleece or electrics and beneath your outer gear. Looser cut facilitates easy on/off. Green, Blue or Tan. M–XXL.

#2879 $137.00

WIND BLOCKER

AEROSTICH FLEECE JACKETS

More than common and generic 'outdoor' fleece jackets, these are both tailored and engineered for riding. We start with genuine Polarfleece and YKK zippers. Each collar is tapered for more comfort with a helmet strap and the sleeve diameter is trimmed down for less bulk under riding gear. Sleeves are more forward rotated, too. And the long underarm ventilation zippers match Roadcrafter suits. Durable Lycra/nylon bindings at the hem and sleeves are comfortable and stop drafts without absorbing water.

SOFT SHELL

The torso is also a bit shorter in front and longer in back for a better fit, and the sleeves are usefully a bit longer than you'll find in typical fleece jackets. Zippered inside and outside chest pockets secure valuables like wallets, and zippered side pockets are placed slightly forward for easier access. A quick-draw inner chest pocket is ideal for sunglasses or a bandanna. Machine wash. S–XXL.

TLTEC 100 Wind Blocker (Cayenne) #1655 $167.00
TLTEC 300 Soft Shell (Black) #1658 $187.00

AEROSTICH FLEECE PANTS

On extended trips you can count on experiencing higher elevations, all-day cold snaps, or some chilly early starts. These TLTEC pants are made to a functional, comfortable pattern and pack light and small. For ventilation and convenience, #5 YKK two-way zippers run down the outside so the pant legs fit over boots. The full length side zips and fly make putting them on faster and easier than changing into long underwear. Many riders wear them over their jeans and under a riding suit. They provide a remarkable amount of extra warmth. Machine wash. S (28-30), M (32-34), L (36-38), XL (40-42), XXL (44-46).

TLTEC 200 Wind Pro (Grey) #630 $117.00

AEROSTICH HORSESHOE SPROCKET & HORSESHOE GEAR HOLDER

For centuries riders have believed that luck and good fortune would protect those passing beneath a horseshoe mounted over the door or above the gateway to any home, barn, garage or workshop. This artwork updates that good-luck tradition (especially America's old west lore from barns, stables and corrals) by welding a meticulously refinished (but well used) motorcycle countershaft sprocket inside the standard horse's hoof accoutrement. Even if you are not superstitious, it looks pretty cool.

Each is crafted by Bob Stokstad, a retired American scientist (neutrino detectors) and lifelong daily rider, commercial motorcycle photographer, and grandfather. Add this example of his art to the wall of your bike's abode or workshop...and as you pass beneath you'll enjoy it's silent wish for a safe return from every ride. This is one-of-a-kind heirloom-quality art with a purpose. See one being made at aerostich.com/aerostich-videos. Each measures approx 6"×8".

Belt can be shortened by cutting and fusing. Black nylon webbing 1.25" wide, 46" long. Durable cam-action black nylon buckle (money not included).

#1854 $23.00

AEROSTICH ELKSKIN ROPERS

Your favorite gloves. You just can't ride anywhere without them. When they finally wear out, it feels like you've lost a friend. Made of natural tan medium to heavy weight elkskin, they are thicker, stronger and more abrasion resistant than deerhide and they'll last much longer.

Built for cowboy and ag work, they're tough enough for barbed wire fencing, yet sensitive enough to accurately handle a lariat. The snap cuff will slightly gauntlet over most jackets or close to let wind in your sleeves on a hot day. The left thumb is equipped with a visor squeegee made of resilient squeegee material.

All California Highway Patrol Motorcycle Officers (and many other depts.) wear Elkskin gloves 8-10 hours a day, week in and week out. You too will experience how right they are the minute you put them on and grab the clutch lever. These are the best gloves for serious combat touring adventures you'll ever wear. Full and half sizes 7-13 (size 11.5 or 12.5 not available) Black may bleed slightly when wet.

Natural #420 $49.00
Black #440 $49.00
Touch Screen Ropers #429 $65.00

AEROSTICH COMPETITION ELKSKIN ROPERS

These Competition Elkskin Ropers take the Standard Elkskin Ropers to the next level with an added hook and loop wrist closure, reversed for ergonomic advantage, and also add a generous Elkskin covered TF3 impact-foam knuckle pad.

This is a premium rider's glove, made by a ranch and work glove company in Washington State. They're strong and durable enough to take on everyday rough cowboy and ag work -- from handling barb wire fences to accurately directing a lariat, and ultra-comfortable all-day because of their superb medium weight luxuriously tanned natural tan Elkskin. This comfortable abrasion resistant leather absorbs and dissipates sweat, wears cool, and quickly conforms itself to the shape of your hand.

The visco-elastic TF3 impact material padded knuckles make a protective difference in some crash scenarios, and of course, the left thumb is equipped with a resilient visor squeegee to help keep a clear view of the road in damp and rainy conditions.

These are the ultimate gloves for serious combat touring adventures and all A to B rides. Full and half sizes 8-12 (not available in size 11.5 or 12.5). Natural.

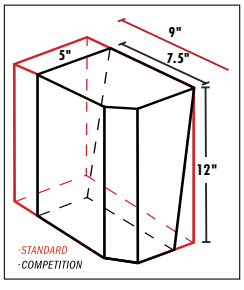
THE WORLD'S TOUGHEST MESSENGER BAGS

The first Aerostich messenger bag was created in 1985. We patterned it after a 'proven-by-messengers' industrial cotton, canvas, steel-buckled design because back then that was all there was, made in small numbers for working couriers. (Bag-centric businesses like Timbuk2 and Chrome didn't exist yet, and companies like Patagonia and North Face didn't produce bags like this.)

Our Messenger Bags are far more strongly made than all the more recent ones, and many nuanced construction details are different. One example is the top flap. Most designs connect the inner fabric to the outer fabric using an inexpensive 'binding' stitched around the edge. Every Aerostich messenger bag's flap is first sewn inside-out, then turned right side-out and carefully edge-stitched the same way a dress shirt collar is made. This looks better and lasts much longer. There are dozens of other examples. There really is a difference.



AEROSTICH TANK PANNIERS

These tough, semi-rigid containers keep your load low and secure. Extremely handy for day-to-day use with or without a tank bag, they fit a variety of unfaired motorcycles. Detailed for a sleek look and functional design, and a great value for the price. Constructed of tough, water resistant urethane coated 1000 Denier Cordura nylon with an adjustable mounting system: two padded two-inch wide hook & loop closed webbing straps plus two adjustable bungee shock cords. Hook & loop attached neoprene tank pads protect your paint and eliminate slippage. Removable plastic inserts shape and define both of the bags. The panniers also feature two pockets along the rear panels for small items like pencils and a tire gage, several 1" web straps for attaching additional items, and 3M Scotchlite reflective material on the front and outside panels. Specify Black or Hi-Viz. Standard (12"×9"×5", 8.8 Liter, each) or Competition (12"×7.5"×4.5", 6.6 Liter, each).

Standard #903 $177.00
Competition #902 $177.00

AEROSTICH LP (LIGHTWEIGHT PORTABLE) BAG

This lightweight, ultra-compact water-resistant/repellent sil-nylon reusable bag packs anywhere and doubles as a functional backpack. Jam one behind the headlight or a side panel and it will stay there until needed. Or toss inside another pack or Messenger Bag.

They are built to last. All seams are reinforced with binding for durability and strength. The handle loops are tacked and bound, then reinforced again – so they won't pull off. Two draw cord closure straps of flat webbing secure a quick cinch closure. Bottom corners are reinforced with Cordura pack cloth.

The draw cords lock to desired length so they can function as backpack-style shoulder straps. A small stuff-pocket is located high on the interior to double as easy-access storage for keys or a phone.

Carries fine across shorter surface street distances by threading one's left forearm through the handles so the bag hangs just in front of the left knee, too. Inspired by Mark Lindemann, motorcycle industry veteran and author of 'The Total Motorcycling Manual' (#5506). Assorted colors. 4.5"×3.75"×2" (compressed), 19"×20"×18" (expanded).
