"When I first saw a motorcycle, I got a message from it. It was a feeling — the kind of thing that makes a person burst into tears hearing a piece of music or standing awestruck in front of a fine work of art. Motorcycling is a tool with which you can accomplish something meaningful in your life. It is an art." —Theresa Wallach (first person to ride across the Sahara Desert, 1934)

AEROSTITCH
SINCE 1982
Equipment for Riders

Brad Kopp, crossing the Aerial Lift Bridge in Duluth, MN, 2012.
