

A Duluth sandwich and smoked fish shop, Northern Waters Smokehaus, recently decided to start a bicycle delivery service for their sandwiches and chose Aerostich Messenger Bags to transport their precious cargo to the hungry local populace. How are the bags working out, we asked? "These bags are super! Easy to use, they fit so many sandwiches at a time, they're like magic." was their response (via Twitter). Want to try some smoked Lake Superior fish? They'll be glad to ship you some: [northernwaterssmokehaus.com](http://northernwaterssmokehaus.com)
